**Opportunity**  
Is knocking. Do you heed it? Has it ever occurred to you that you must take advantage of your opportunities when they come to you, else your chances may be lost. This applies particularly to Life Insurance. Statistics show that one person in each five only, are insurable, yet at some time in their lives nearly every person is insurable. Have you attended to this most sacred duty? Or are you allowing your wife, the mother of your babies, to carry this risk along with her other burdens. When you say, you will carry your own risk, do you not see, that it is your wife, and not your self, who is carrying the risk. She can not afford it to do to be selfish, and require her to do it.
