R. P. Love of Artesia, New Mexico spent the past week in this section and was most favorably impressed with the greatness and possibilities of the Harney County. He did not invest or take up any land as he found the most desirable lands adjoining Burns had been taken and as he was advanced in years he did not feel disposed to locate in an outlying section. Mr. Love deprecates the lack of transportation facilities in the great interior and hopes we may soon get railroads that we may be justified in putting the vast agricultural land to work and help to solve the high cost of living problem.

Opportunity

Is knocking. Do you heed it? Has it ever occurred to you that you must take advantage of your opportunities when they come to you, else your chances may be lost. This applies particularly to Life Insurance. Statistics show that one person in each five only, are insurable, yet at some time in their lives nearly every person is insurable. Have you attended to this most sacred duty? Or are you allowing your wife, the mother of your babies, to carry this risk along with her other burdens. When you say, you will carry your own risk, do you not see, that it is your wife, and not your self, who is carrying the risk. She can not afford it do not be selfish, and require her to do it.

Oregon Life that great home company, through their agent, E. C. Eggleston, offer opportunity to YOU.

Defer not till tomorrow to be wise, Tomorrow's sun for you may never rise.
