Judge Biggs called court Thursday and the business was started in the usual manner. Judge Biggs has found the docket quite long and is anxious to wind the term up as he has matters demanding his attention in Malheur county.

J. O. Bunyard was one of the exhibitors at the county fair. He showed some fine apples and also some potatoes that had been grown repeatedly on the same ground for ten years. These "spuds" were fine in every particular and gives one an idea of the fertility of Harney county soil and explodes the theory that rotation is necessary. Of course it is no doubt best to change the nature of the crop as often as possible but in Harney county it appears the soil will not wear out.

Representatives of the telephone company at Prineville were here recently looking into the situation in a business way. R. and wireless officials and places all graduates into positions. It will pay you to write them for full details.
