If you are troubled with chronic constipation, the mild and gentle effect of Chamberlain's Tablets makes them especially suited to your case. For sale by all dealers.

PURE GOLD
Did you know that a 20-year endowment policy with the Oregon Life is pure gold? Did you know that a 20-year endowment policy with the Oregon Life gives you a safe place to deposit money, pays your wife and babies the amount you carry in event of your death, or if you live pays the amount to you at the end of 20 years? Unless you have the hooks in the "old man" who carries the scythe, it would be well to look into this matter deeper. Good insurance is the surest deal on earth. Consult
EGGLESTON,
The Oregon Life Man.

STOLEN—From the John Oard ranch a sorrel gelding between 4 and 5 years old; small spot in forehead and weighs between 1200 and 1400 lbs.; a good roadster; branded a lazy on left shoulder. Suitable reward for information leading to his recovery. MRS. MARY A. OARD, Lawen, Oregon.

COMING! COMING! COMING!
DR. H. PIERCE
OPTICIAN AND OPTOMETRIST

Twelve years of practical experience in correcting vision scientifically. Graduate of the Philadelphia College of Optometry.

Parents are responsible for their children's sight. If you don't want their lives to become failures you should not neglect the eye and take chances on consequent troubles. If the right kind of lenses are adopted for sight or eye strain in time, the eye will soon recover and glasses are often laid aside in a short time. Why, then hinder your child's future? Old age of the eye, due to the hardening of the lens of the eye, shows often times as early as forty years. Some are affected even earlier in life by having allowed a defect, called *Hypermetropia*, to remain uncorrected to long. (To fight against it is to fight a losing battle.) The use of glasses can be put off for quite a long time after they are really needed—the cost is very real, nature never failing to collect her honest debts, sooner or later—just as machinery can be run for some time when oil is needed, to accomplish its work, it is with a waste of power and damage to the parts.
