ASSIST DEVELOPMENT.

(Continued from page 1)

The Hitchcock discrimination became the rule. Federal officers excuse themselves by saying that Oregon has no projects, when it was a fact that the state had more fertile vacant land and more waste water to be applied to it than any other state of the entire reclamation group. But because the people of Oregon did not aid their representatives in Congress, allotments which could justly have been made \$8 .-000,000 to \$12,000,000 for Oregon work, where cut to nominal figures. In furthering and regulating tending influences are fighting

Speculative profits were permitted when a fair margin could have been held to, if strict supervision of the contracts had been enforced. To get this work in a healthier state, and then to cooperate in advertising to the world the wonderful acreage awaiting irrigation and cultiva- NOTICE FOR PUBLICATION = tion here, the Irrigation Congress will be an important medium.

During the Congress it is the purpose to have gathered very accurate data on the irrigable lands of the state, and also the waters available. The greatest possible publicity will be given these facts, to prove that Oregon has the greatest of all western opportunities for the settlers.

INDUSTRIAL NOTES.

Country Life Week in Oregon has been fixed for February 5-10, when Country School Superintendents and Commercial Bodies will meet together in each part of the State to formulate the scheme of Country Lafe Education to be followed by Oregon Schools. Much is hoped from the new department in the State's Educational system and the allied influences behind the movement are such as to insure its success.

State Bankers, the Commercial Bodies, the State Educational Authorities, Portland Livestock Interests and the Oregon Agricultural Collego are working toward the same end and during Country Life Week it is hoped to interest business men generally in the work. The following week the plan will be presented to in the Circuit Court of the State of Ore pupils in the schools and contests in gardening, general agriculture. domestic science, hog and poultry | Asher Hanks, Deft. | raising and manual work insti- To Asher Hanks, Defendant
