

DRY LAND FARMING

(Continued from page 1.)

Dry Areas. Rotation in Dry Areas. Maintaining Fertility and Humus in Dry Areas. Live Stock in Dry Areas. The Water Supply in Dry Areas.

The book is handsomely bound and beautifully illustrated, and is sold at the low price of \$2.00. It is published by the author who lives at 2153 Knapp street, St. Paul, Minnesota.

Prof. Shaw's book represents 50 years of agricultural work and experience in the Northwest. It is one of the most valuable books ever published and every farmer and business man should have a copy.

"Dry land" is defined as any section where the rainfall is less than 25 inches per annum.

Prof. Shaw's book will be read with more interest than the most thrilling of the "six best sellers" by the farmers in the "dry land" areas and by thousands of Easterners who are planning to come to the Northwest.

The "dry land" area extends from the heart of Canada south to the interior of Mexico and from the Cascade and Sierra Nevada Mountains east almost to the Mississippi river.

Prof. Shaw's book is the first comprehensive book ever written on "dry farming," and is written in a plain and simple manner, readily understood by any one.

In response to several hundred invitations to the Irrigation Convention to be held in Portland February 19-21, a large number of acceptances have been received.

Judge Morton D. Clifford, of Baker, ex-circuit judge of this district, is expected to enter the race for the nomination for circuit judge of Baker county at the democratic primaries.

There is a message of hope and good cheer from Mrs. C. J. Martin, Boone Mill, Va., who is the mother of eighteen children. Mrs. Martin was cured of stomach trouble and constipation by Chamberlain's Tablets after five years of suffering, and now recommends these tablets to the public. Sold by all dealers.

There is no better medicine made for colds than Chamberlain's Cough Remedy. It acts on nature's plan, relieves the lungs, opens the secretions, aids expectoration; and restores the system to a healthy condition. For sale by all dealers.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow.
