The Times-Herald is pleased to note a goodly number of excellent men coming out for the various offices to be filled at the coming elections. With such material in the field the voters may make selections of the most capable men and thus insure the county good service. In selecting officers for county work the man and his qualifications are the first to be considered.

Last season articles appeared in the local papers respecting the adjudication of water rights along Silvie River and advising action by local water users. No particular attention was given the suggestion at the time in this vicinity but an application from citizens of the Lawen section was acted upon. This, however, was not as comprehensive as was desired by the board and it was hoped a petition signed by a greater number of water users would be forwarded. It seems now that people are aroused to the necessity of the work and we are pleased to note the state board has already taken steps toward the end desired without further requests.

### BETTER CLASS OF WOOL.

The exceptionally mild winter has been a great boon to the wool men of Harney county since the sheep have been doing fine with plenty of feed and are now enjoying green grass. The wool will be the finest staple ever shorn from sheep in Harney county on this account.

The Harney County Wool Grower's Association will no doubt benefit by this state of affairs as the members will have the advantage of organization and this, too, will attract a class of wool buyers that have heretofore not been in this market.

If the association make it an object the auto freight truck people have promised to go out into the valley and pick up the wool for delivery to the warehouses and railroads.

Considerable interest is being shown in the meeting of the association on March 4 in this city and more sheepmen have signified their intention of joining the association at that time.

### THE RABBIT HUNT.

The competitive rabbit hunt by the Rod and Gun Club last Thursday resulted in a victory for Dr. Hibbard's side and the fortunate ones will now feed at the expense of James Smith and his crowd. It was not such a "killing" as had been planned as the day proved very disagreeable and only a comparative few of the club participated. Several went to the swamps to shoot birds which also reduced the ranks so far as points in the competition was concerned as the birds did not count.

The greatest individual score was made by Frank Triska, one of Mr. Smith's men, who brought in 99 rabbits tails. He had gotten 100 but lost one of the markers.

A meeting of the Club will be held at The Times-Herald office tonight to arrange for the date of the "rabbit banquet" which Mr. Smith and his vanquished warriors will have to provide for Dr. Hibbard and his bunch. This promises to be a very enjoyable affair where bear, fish (and perhaps snake) stories will be the order. No doubt at this banquet arrangements will be made for another hunt at some future date and also a plan for a competitive trophy based on points to be determined after discussion.
