

BIG CROPS SPELL PROSPERITY.

(Portland Correspondent.)
Bumper crops and prevailing good prices are expected to put the farmers of the Pacific Northwest in high good humor this fall and, through him, the three states are expected to prosper as never before. Every indication is for big yields in all the staple products and for some prices will be very high.
The biggest wheat crop ever harvested is predicted for Oregon, Washington and Idaho and it is thought the yield will reach 70,000,000 bushels, worth \$52,500,000. Oats are expected to add \$18,675,000 more. Fruit marketed this fall and winter will add \$15,000,000 to this new wealth and hay the neat sum of \$36,890,000. The wool crop is estimated to be worth \$6,600,000, and hops \$4,650,000. This is a total income for the producers of the three states of almost \$150,000,000. If the manufactured products were added to the wealth of the soil, it is probable the total would fall not far below \$500,000,000 for the year.

Indicating the desire of the livestock company to stimulate the livestock industry in every possible way, the O-W-R. & N. Co. has just named D. E. Clark livestock agent. This is a new position and he will give his time to aiding the stockmen of the state to grow more and better horses, cattle sheep and hogs.

Now that the three year homestead bill seems certain to become a law, interest is being aroused anew in Oregon's vacant lands. Statistics have been gathered from the records of the General Land Office showing there is lots of room in this state for the homesteader, there being 15,959,377 acres still unappropriated. This is a little more than one-quarter of the state's area. Every county in the state has its quota and while most of the land is far from the larger towns, much of it is fertile and will be productive when tilled.

Oregon has an opportunity to attract settlers from the Middle West by making a good exhibit at the Northwestern Products Exposition at Minneapolis, November 12-25, according to Will A Campbell, secretary, who has lately visited Portland. There is nothing so convincing as an actual exhibit of what a state can produce, he says, to win settlers. Such a demonstration is held to be more forceful than any amount of advertising or any other form of exploitation.

Oregon will have a delegation in attendance at the Northwestern Development League Congress at Seattle, June 5, 6, 7 and 8. Representatives have been named by the Governor and Oregon speakers have been given places on the program. Subjects of interest to the whole Northwest will be discussed.

Orders for approximately 50,000,000 feet have been placed with mills of Oregon and Washington to supply material for new equipment for the Harriman lines in this territory. The traffic officials are preparing for the new crop season by ordering 8,200 box cars and 56 cabooses to be distributed over the Union Pacific, O-W-R. & N., Southern Pacific and Oregon Short Line, roads.

A MATTER OF NEWS.

The local United States Land Office is just in receipt of regulations under the new act passed by Congress on March 28, 1912, regarding public sales of land. Section 2455 of the United States Revised Statutes has heretofore authorized the Commissioner of the General Land Office, in his discretion, to order into market and sell isolated tracts not exceeding 160 acres, at not less than \$1.25 per acre. Under the Departmental regulations, however a tract was not considered "isolated" until all the surrounding lands were disposed of or entered for at least 2 years. The new law amends this section by adding this proviso, "provided, that any legal subdivision of the public land, not exceeding one-quarter section, the greater part of which is mountainous or too rough for cultivation, may, in the discretion of said Commissioner, be ordered into the market and sold pursuant to this act upon the application of any person who owns lands or holds a valid entry of lands adjoining such tract, regardless of the fact that such tracts may not be isolated or disconnected within the meaning of this act."
