"TEDDY" QUITS CHICAGO CONVENTION

No Candidate Nominated up This Morning According to Telephone Advises.

No very definite news was obtainable from the republican convention at Chicago at the time of going to press today. It is reported by telephone that Col. Roosevelt has withdrawn from the convention but few of his followers went with him. From the same source comes the suggestion of a third party with Roosevelt and Woodrow Wilson, formal action to be taken in this respect during August at a big mass meeting.

Indications are that a compromise candidate will be nominated by the regular convention, although it seems President Taft has sufficient strength to get the nomination. Should a dark horse be nominated it is suggested that Gov. Hadley of Missouri will likely be the compromise.

A telegram to Baker since noon has brought no reply, so it is taken for granted that no nomination had been made up to that time.

ADDITIONAL LOCALS.

C. T. Miller and family were in from the ranch this week.

Chas. Comegys and family are in from the country home, making the trip in the auto.

W. F. Harris, formerly principal of the public school in this city, was in from his home near Waverly Wednesday.

M. Schenk, of the firm of Schenk & Williams, has returned from an extended visit to Portland where he was on business and to take in the Rose festival. He returned by way of Ontario.

J. C. Freeman is here from California looking after his interests. He has a fine place in the Warm Springs section. Mr. Freeman has many old time friends here who are always pleased to greet him on his occasional visits.

The Welcome Pharmacy has installed a handsome new soda fountain and will be ready for such business at once. These modern improvements add greatly to the attractiveness of our business houses besides being a source of revenue.

Geo. Storkman, the Ontario cigar manufacturer, was here during the week displaying his wares. He is making good cigars and sold a nice lot to local dealers. Mr. Storkman didn't propose that the newspaper man guess at the quality of his goods, as he left a generous supply for our trial and we can vouch for them.

Winona wagons are the best. For sale by Harriman Mercantile Co.

Wm. Harvey, the Lakeview horse buyer, is in this section making purchases.

Dry slab and pine wood \$8.50 and \$7.00 per cord, cash only at Lumber yard.

With prospect for two railroads into the Harney Country, another political party started by "Teddy" and Wilson, fine crops, more pigs, more people, why there is something surely doing these days.

F. Crowley was up from his home near the lake last Wednesday. He is very much concerned as he says it will be necessary for him to move his house or have the railroad survey changed, as his home is right in the way.

I. H. Holland and wife, who accompanied by Miss Helen Purington went to Ontario last week to meet their daughter, Miss Gladys, returned the first of this week. Miss Gladys is enjoying good health and glad to be among her friends and former school mates for the vacation period.

The new homestead law recently enacted has been received by the local land office and copies are being mailed to all homesteaders that are effected by the act. There are many of these in this land district and no doubt most of them will take advantage of it. However, it is elective with them whether they do so or make proof under the old law.

An assertion was made at the National Livestock Exchange held in Portland the first of this week that at the rate herds of cattle are diminishing it will not be long before they become extinct unless measures were taken to put a check to present practices of slaughtering. A federal law was suggested prohibiting the slaughter of heifers until they have attained the age of at least three years.

The fireproof lamp house and balcony has been put in the Tona-wama Theatre this week. Negotiations are under way for the necessary power plant to run not only a picture machine but also light the entire Times-Herald building. It will take a little time to work out the details but the plant will be a good one when installed and the house equipped with the latest devices.

The free reading room in The Times-Herald building has been opened to the public, under the management of the Woman's Civic League and is destined to be a very popular place. Several magazines have been subscribed for and other publications will be added from time to time. The formal opening is today and is under management of Mrs. C. B. McConnell, Mrs. Frank Davey and Mrs. Archie McGowan. The ladies are sparing no pains to make it pleasant for visitors and will keep open house until 9 o'clock tonight.

SECURING RIGHT OF WAY FOR RAILROAD

(Continued from page 1.)

penation for the rights and states the railroad is not asking for any donations. So far those who have closed contracts with him have been very reasonable, too, asking what they considered the land worth.

Even though Mr. Harris offers no encouragement respecting immediate construction work in this Valley his presence is nevertheless encouraging and shows conclusively that there is not going to be any great delay. A large number of places have been filed upon since the survey that will require some attention. However, the maps of the survey have already been filed and approved by the Interior Department, thus giving the railroad a prior right.

Those familiar with the territory know that the grading work in the vicinity of the lakes must be done during the late summer and fall, therefore it is not unreasonable to suggest that this work will begin during this season and possibly be completed, as it is understood the contract calls for the completion of the road next year. Such being the case we may expect contractors in that vicinity during this season.

RAILROAD WORK IS PROGRESSING RAPIDLY

(Continued from page 1.)

by January 1. It is quite evident the road will be pushed to completion as rapidly as can be, especially since it is practically settled that the Hill line is to be extended in from the west at once.

The Vale and Ontario papers report many men and outfits coming in each day and going out on the work. At present there are at least a thousand men and teams on the grading work, with as large forces as can be worked conveniently on the tunnels.

This railroad activity has caused a greater interest in the interior country and local real estate men and the Commercial Club are receiving much inquiry about land and other investments. Great numbers of people are headed for this section for the purpose of making investments and homes. We are going to witness much development as a result of the railroad activity and it will be only a short time when the old timer will see changes that he little dreamed of.

FARM DEVELOPMENT LAGS, BANKER SAYS.

(Continued from page 1.)

manufacturing capital two-fold in spite of the three years of war. The period embracing the Civil War showed a marked degree in the tendency of the people to expand and occupy new farming territory, but since 1870 the expansion of the farm acreage has been enormous.

"In the 20 years ending 1910 the population of the United States increased about one-third. During the same period the total of unappropriated and unreserved lands embraced in the public domain fell from 55 to 41 per cent. In other words, 59 percent of all the public domains in the United States has already gone under private ownership.

"To have increased the population of the country by one-third in 20 years flatters our National pride, but at the same time it presents a tremendous problem. If we continue to grow at the present rate we shall have 200,000,000 people in the United States in 1950 and the demand for the products of the farm, in order that the people may live, will have considerably more than doubled.

"On the authority of the President of the United States, it will be necessary, in order to meet the demands of this continually growing population, to increase the product of each acre of tilled land by one per cent a year.

"What the effect of paying less attention to farming, in relation to the tremendous growth in population has been, becomes apparent when we realize that while in 1900 it was necessary to retain only 1,865,000,000 bushels of corn for domestic consumption, the domestic demand has arisen in 1910 to 2,734,000,000. Wheat shows the same tendency and while in 1900 more than 361,000,000 bushels of wheat were

retained for domestic use, it was necessary in 1910 to retain nearly 650,000,000 bushels.

"These facts, as taken from official records, are not only interesting, but are exceedingly instructive and significant. They indicate with the greatest force that the present high prices, of which many people are so apt to complain, will not fall but will rise unless every force in this country joins in the movement to increase the farm production and to make agriculture a great and better industry. It is a very serious problem and all the more difficult when it is realized that it has to be faced at a time when the raw land is practically gone, and when we can no longer depend on tremendous additions to crops as the result of the breaking up of new crop-raising areas.

ADDITIONAL LOCALS.

Ralph Beery was in the city this week.

C. W. Loggan was over from Harney Wednesday.

Best flour (guarantee) \$8.50 bbl. Harriman Mercantile Co.

Prof. G. A. Collier is over from Silver creek taking the teachers' examination.

Is your business ad in The Times-Herald, if not—it ought to be.

Miss Zella Irving is in the city on a visit to old time school friends.

J. F. Mahon and wife were in from the Anderson valley home last Sunday.

Sidney Comegys was circulating among his friends in this city during this week.

I. S. Tyler and E. C. Eggleston were among our Sunset friends to visit us this week.

Clay Clemens mill is the nearest one to Burns where all kinds of lumber both rough and dressed can be had. Near Canyon road. Call him by 'phone.

Henry Eichner brought his little son to Burns Wednesday morning to have his arm set, a horse having fallen with him the day before and broke his left arm.

STRAYED—One Black horse branded JO on left shoulder, and one sorrel horse with blaze face, mane and tail of both cropped, both rough shod. Suitable reward for their return to John Schenk, Burns, Oregon.

There will be a social dance given under the management of the Tona-wama hall on Friday evening, June 28th. Dancing commences at 9 o'clock sharp. Music by Tona-wama Orchestra of five pieces. Everybody invited.

Examination for certificates to teach has been in progress this week. Supt. Hamilton was present to start them off and then left the examination in charge of Mrs. J. W. Geary and Miss Helene Swain. Supt. Hamilton had to go to Salem where he takes part in the state examining board, going out by way of Grand Ronde to which point he was accompanied by his family who will visit there until his return. Those taking the examination are: Hannah Mey, Pearl Ellis, Minnie Denman, Mabel Robins, Caroline H. Jokisch, Emma Peterson, G. A. Collier, H. E. Dillman, Ralph Irving, Edgar Barnes.

NO. 6295.
