Three Months .75

The Times-Herald man has been out in the country more or less this week and finds crops are coming on in fine shape. The backward weather of the early spring kept vegetation back but it seems to have been just what it needed rather than a detriment. Almost every field in this vicinity shows excellent prospects for an exceptional crop. The fruit trees are especially full and we may expect the finest display of fruit at the fair this fall we have yet had.

Those who were not inclined, and others who were prevented by various reasons from attending other celebrations on the fourth were well pleased with the one recently pulled off here at home. Every merchant and citizen who donated toward this occasion can well feel repaid, as it was a worthy cause and one which gave a full days enjoyment and pleasure to many who could not go elsewhere and who would have otherwise missed the customary celebration. Considering the short time in which the celebration was gotten up, it was all and more than expected.

Best canned corn \$3.25 a case Harriman Mercantile Co.

Geo Buchanan and wife were in from the station Thursday.

S. F. Jenkins has been over from his Calamity creek home this week.

Lena Harkey has alfalfa hay for sale at her place adjoining Burns on the north. \$7.00 a ton in the field, or delivered for \$8.50

The people of Burns should not neglect the bond election to be held the last of the month. This is a matter that should have careful consideration as it is important the charter be amended to provide for bonds that we may have water works and sewerage. It will not be a burden to property owners but rather add to the value of every home and business property in the city.

Mrs. F. E. Dickinson was a caller at this office Thursday and invited The Times-Herald man up to see their farm in the hills to the west of this city. Mr. Dickinson has one of the best dry farms in this section and has made a success. He now has about 100 acres in alfalfa and an unusual thing has happened, one that seldom comes to the notice of one on a dry farm. They have a large acreage of alfalfa that is too thick and want to know how to get rid of it. The dry season last year had no effect upon killing it out and the plants use up the moisture before they get any height. They also have some Tall Meadow Oats that are too thick. We would suggest that some of our dry farmers visit this farm and get some pointers on how to put in crops, for it is the usual complaint that it is impossible to get a stand, rather than how to get rid of the over supply.

PROGRESS AT BURNS EXPERIMENT FARM

The following paragraphs should have been a part of the article published on the first page but were overlooked in the "makeup" of the outside pages: The crops were put in at different rates of seeding to test the rates of seeding on rather dry soil. The two peck seedings of grain do not show effect from the lack of moisture as yet, but the four and six peck seedings, almost invariably, are showing droth and can hardly be expected to mature.

A fine rabbit proof fence is now about the place. It was put in first in July. Before the completion of this fence, a great deal of trouble came from the rabbits. Considerable damage was done, especially to field peas and artichokes.

Sub-Stations have been located at Waverly under the care of Mr. Duncan; Harriman under the care of Mr. Latha; Valley View under the care of Mr. Clyde Schaffer; and at Sunset under the care of Mr. Heney. Other Sub-Stations are to be located at Drewsey, Silver Valley, and Catlow Valley in the near future.

These Sub-Station are of ten acres each, fenced against rabbits. They will be operated in co-operation with and under the same management as the Experiment Station. Such crops as are pretty well proven to be adapted to the country will be introduced and grown. They will carry the work of the Station at Burns to the farmers.

ADDITIONAL LOCALS.

Born—Wednesday, July 10, to Mr. and Mrs. Mrs. Henry Dalton, a son.

Mr. and Mrs. C. A. Swerk are home from a vacation trip over in Grant county.

W. B. Parker is over from Paisley looking after his property interests in this section.

Mrs. J. P. Hill arrived here from Portland this week to join her husband who has a position in the Schwartz establishment.

James Paul, the Happy Valley sheep man, was in the city this week attending to some business and greeting his old time friends.

J. M. Parker is enjoying a visit from his youngest brother, Smith Parker, who is here from his home in Salt Lake, Utah. It is the first time the brothers have met in 38 years and they are having a very enjoyable visit. Mr. Parker has been taking his visit over the valley this week and he says we have more agricultural land than all of Utah.

The Times-Herald man was one of several local people who made a short trip over the country in company with C. C. Chapman and party yesterday afternoon. The orchard of R. J. McKinnon was visited and the party came back down the opposite side of the river and passed some very promising fields of grain, field peas, garden and hay crops. A run was made out to the demonstration farm where the visitors were agreeably surprised at the progress made in the short time the farm has been established.

HARNEY COUNTY GIRL'S EASTERN TOUR

The following descriptive letter was handed in by Miss Agnes Miller yesterday afternoon. It being late and other important matter being up in type for this issue, her letter cannot be given in full and must be concluded next issue:

In the issue of The Times-Herald of May, 4th, 1912, I saw a notice stating that Mr. Bates, publisher of the Pacific Northwest of Portland was preparing to take another party of young ladies, one from each county in Oregon, on an excursion to the East and asking for some young lady from this county. I at once made up my mind to make the effort to go and although the time was short, (barely three weeks) through the kindness and generosity of the people of Harney county and other friends I was ready with my subscription when the first of June came and I had to leave for Portland.

The trip to Portland was very pleasant. I met Mr. Bates and the arrangements for my trip were completed. On Wednesday June 5th, the Portland Ad Club gave us a luncheon at the Multnomah Hotel at which over five hundred were present. There were some good speeches and they gave us a good sendoff. After luncheon we were invited by Mr. Frieman, Cashier of the Lumbermans Bank, to visit that institution and see the workings of a big bank. We were shown thru the vaults and permitted to hold for a moment ten thousand dollars in gold coin.

After this we were taken for a trip to Council Crest, one of the great scenic resorts of Portland, and after being photographed we were shown all the wonders of the Scenic Railway as well as a "Trip up the Columbia" and everything we cared to see.

The next morning at about ten found us at the depot ready to begin our trip. We found our special car beautifully decorated with roses, the work of the College Equal Suffrage Club of Portland. After bidding our friends good-bye we were on our journey.

We reached Chicago on Sunday and as we were to remain there three hours we visited the Art Museum. Few of us had ever visited so large a museum and we found it very interesting. We left on an afternoon train, reaching Detroit at 10:30 that evening. Next morning we were met by friends of Mr. Bates who showed us around the city in automobiles. We also went for a ride around Belle Isle which is about a mile from the city. This is a very beautiful place. Located at the center of the Island is a conservatory, in one department of which is an aquarium. In this department we saw over a hundred different kinds of fish which was very interesting to all of us.

(To be concluded next week)

J. L. Gault received a telegram last Monday announcing the death of his father at his home in Ohio. His death was not unexpected as he had been in poor health for some time. He was 86 years old. Mr. Gault could not leave the bank to attend the funeral.

BALLOON ASCENSION NEXT WEDNESDAY

The Le Moyne Stock Company will be at the Tonawama theatre next week, beginning on Wednesday, July 17, in a high class repertoire of comedies and dramas. This is a very strong company of 11 players and the people of Burns may feel sure of some good entertainment.

On Wednesday a balloon ascension will take place in this city one of the Le Moyne company making the ascent. This will be a treat for our people who seldom have the opportunity to see an air ship, and the people living in the country should come in.

The company will play for a week at the opera house with a change of program each night. Admission prices are the same as have prevailed at the house in the past. Advance sales will begin Monday at the box office.

AGRICULTURE IN THE HIGH SCHOOL.

The Times-Herald has a letter from Judge Thompson in which he states the court wishes to consider the proposition of adding agriculture and domestic science to the regular high school course at an adjourned meeting of court set for July 20. He invites an expression from the people either by letter, petition or in person.

This is an excellent suggestion that our people should take advantage of and let the court know their feelings. The proposition of financing this addition to the present course is one that requires attention. Mr. Sawhill, who is one of the C. C. Chapman party, states that the Crook county court has appropriated \$250 toward a special short course for the coming year and it is the intention to see other county courts in the Interior and ask for a similar appropriation. In case this is secured the Agricultural College will send out professors to spend a considerable time in each county, bringing the usual short course given at the college to the people. This is an excellent move that will solve the problem for this season and at the January term arrangements may be made to put the regular course in school.

The city council has taken steps to build a new side walk from the entrance of the fair grounds to the new school building. This will be of great convenience to the people living in that portion of the city as they now have to come over toward the business portion of the city to get to the new school building. The walk will run north from the gate at the fair grounds passing in front of the Randall and Farre residences in Morrison's addition.

The city council has taken steps to build a new side walk from the entrance of the fair grounds to the new school building. This will be of great convenience to the people living in that portion of the city as they now have to come over toward the business portion of the city to get to the new school building. NOTICE.

By order of the Common Council of the City of Burns, made and dated the 10th day of July, 1912, notice is hereby given that unless defeated by a remonstrance against the same as provided by section 39 of the City Charter, the said Common Council will order immediate construction of a lumber sidewalk and cross walks connecting the same, substantially conforming to the City ordinances and regulations pertaining thereto, as follows: on and along the west side of Hudson street and Stauffer Avenue beginning at the south line of D street and continuing thence south to the southeast corner of block 84 in Fifth Addition to Burns, the same being a sidewalk on and along the east side of blocks 16, 17, 18 and C in Brown's Addition to Burns, and blocks 3, 8, 13, 18 and 23 in Morrison's Addition to Burns, and block 84 in Fifth addition to Burns, and crosswalks connecting the same across C. B. A. Washington, Rock, Court, Main, Market and South streets. Owners of property adjacent to said proposed sidewalk are further notified that they will have 8 days from and after one publication hereof, to wit, from and after the 13th day of July, 1912, in which to make and file remonstrance with the Record against said improvement, and that said remonstrance must be in writing and signed by the owner or owners of two-thirds or more of such adjacent property.

A. M. BYRD,
Recorder.

NOTICE FOR PUBLICATION.

UNITED STATES LAND OFFICE,
Burns, Oregon, July 9, 1912.
Notice is hereby given that Calvin H. McPherson, of Burns, Oregon, who on January 24, 1910, made Homestead Entry No. 2014, Serial No. 2014, for 1/2 section 20, Township 35 N., Range 30 E., Willamette Meridian has filed notice of intention to make Five-year proof, to establish claim to the land above described, before the Register and Receiver, at Burns, Oregon, on the 15th day of August, 1912.
Claimant declares as witnesses:
Ernest Smith, Alexander McKenzie both of Burns, Oregon.
William T. Lester and Peter Carner both of Burns, Oregon.

BEWARE OF WHAT YOU SIGN.

I want to draw the attention of the people to the manner in which the Oregon & Western Colonization Co. offer their land for lease. The lease is an instrument drawn so as to cover everything for their own benefit, and none for the renter. But that is not enough. You will find a clause inserted, that, anytime during your lease on 30 days notice, you will have to move off.

Now then gentlemen you all know, that this land is all covered with sage brush, and has to be cleared before we can use it, also we have to fence the land. Can you do this in 30 days, and get any benefit from your lease? No. Does the so-called O. & W. C. Co agree to pay for work? No. They simply say get off in 30 days, and by signing their form of lease, you agree to do so. Now if this is called colonizing a country and giving the people a chance to make good they will have to show me. Again you may have the land plowed in the fall expecting to put your crop in in the spring, but between fall and spring you get this notice, what will you do. Move off of course or have trouble.

To lease this company's land is a farce, and has no weight pertaining to good for the renter, so beware.

Gentlemen, I had a notice from this company served on me the first day of this month to move off in 10 days and my crop of between 25 and 30 acres is just heading out, what do you think of the gall; and they had no lease signed by me either. After such work as this the people can expect anything.

If the O. & W. C. Co. think they can move this crop of barley off in 10 days and it just heading out I want to see how they do it. But by their actions you all can see what their intentions are, to "gull" the Oregon people if possible. Take the lease and read it then tack the 30 days notice clause to it, and what have you, I call it an unfair, dirty, rotten paper to place before the public and ask them to sign it.

This is only an explanation of the leasing proposition. If the readers of this paper are interested in this matter there will be another piece in next week's issue calling your attention to the manner in which this land is sold and how they came to have this land to handle and the kind of title they hold then you can judge for yourselves whether you are safe in buying or not.

THOS. BAIN
