A Company Of Good Players

The Le Moyne Stock Co. has been playing at Tonawama since last Wednesday night to very satisfied houses. This is a good strong company of players that has been playing in Boise for some time and are out on the road during the dull period in that city. While the houses have not been large here owing to so many of our people being out on vacation trips and in the hay fields, those who attended the performances are high in their praises of the productions, some claiming it to be the best company Tonawama has yet booked.

The engagement is for a week and each night until next Wednesday will be good for a new play each night. The bill for tonight is "The Wolf," a comedy drama in three acts with lots of fun. Tomorrow night they produce "College Chums," one of the prettiest bills in their repertoire.

The initiative election called for July 30 to amend the charter of Burns to provide for bonding should be given attention by the tax payers. This is necessary before we can vote on the proposition of water or sewer systems and as we are growing such provisions should be made. It should not be confused as meaning an affirmative vote is for bonds at this special election, as that is not what we are to vote on at that time. It is merely providing for such an emergency and the bond election will be an after consideration.

NEEDED IMPROVEMENTS.

The city council will take up the matter of a side walk from the fair grounds gate to the new school building at its next meeting. This is a needed improvement that should be made. It is right that the people living in that portion of town should be given a walk to the new school building in the most direct and practical route and property owners should not protest so long as it is put in for the best interest of the people it is intended to serve. We must help in these improvements and this is a necessity. The children must have a way to reach the school during the bad weather.
