Three Months .75

The next event on the program for importance will be the county fair. No pains or efforts should be spared to make this the biggest and best fair ever pulled off in Harney county, or if all pull together there is no reason why this cannot be accomplished. We should also try to make it especially attractive to every rancher and stockman in the country, and for this reason we suggest that special programs of a variety to suit all be prepared that will interest the old time rancher, cow boy, new farmer and the school children. Such are under consideration by the board. It is intended to have "wild west stunts" in which the horse men may take part, a special school day and Supt. Breithaupt's community farm leagues will also have a special program arranged that will prove beneficial to the farmers. Suggestions are in order.

Wouldn't it be beastly for LaFollette or some other fellow to step in and take the nomination of that third party away from the Colonel. In such a case there would be more thieves and another party necessary.

You have our sincere sympathy if you are one of those unfortunate beings who believe that every man is wrong who does not agree with you.

Choice Farm Lands Are Restored To Entry

The local land office has received notice that a large body of good agricultural land formerly withdrawn under the second form of entry under the act of June 17th, 1906, to settlement. The land is situated on Silver Creek and will be subject to entry after October 4th, 1912. The description of the lands affected follows: Tp. 22 S., Range 25, E., all sections 2 to 36, inclusive. Tp. 23 S., Range 25, E., all township.

Tp. 22 S., Range 26 E., sections 1 to 3 and 7 to 36 inclusive. Tp. 23 S., Range 26 E., all township. Tp. 23 S., Range 27 E., all of township.

This land is under the Silver Creek irrigation project and will be a part of the system when installed, therefore very desirable.

Man Dangerously Hurt.

This morning Dr. Griffith was called up on the phone and told that a man named Sibley had been dangerously hurt yesterday evening at the Diamond ranch of the Wm. Hanley Co. He was driving a team to a buck and the horses ran away dragging him some distance and when he was picked up it was found he was

almost completely paralyzed being able to move but one arm. Later the paralysis has become complete and he is unable to move his arms or limbs. They are bringing him in for medical treatment and the Doctor fears he has a broken back and may never recover, although it is stated he has a bad bruise on the head which may have caused temporary paralysis. Mr. Sibley is a new comer to this section, having recently settled on land in Catlow Valley and is a man about 50 years old.

Fish Eggs Received.

The several thousand fish eggs promised by State Game Warden Finley were received yesterday and today were taken up near the R. J. McKinnon place where they will be placed for hatching. Allen Forward, an experienced man, accompanied the shipment of eggs and will remain here in charge of the hatchery until such time as they are ready to turn out or local people interested have been shown how to care for the young fish.

Mr. Finley will a little later send in several dozen pair of China pheasants to the Rod and Gun Club which will be cared for and liberated at an opportune time. Some of these birds will be liberated at once but about half will be kept in captivity by members of the Club until a more favorable time, perhaps until next spring. Several have stated they would care for a few pair at their home until it was thought best to liberate them.

There will also be a shipment of Bass to the Club which will be turned into the streams of this county. It is stated these fish are not hard to ship and as they are particularly adapted to the streams of this section it will take but a short time to stock them well.

ADDITIONAL LOCALS.

BORN—Yesterday, July 26, to Mr. and Mrs. Ed Egli, a daughter. Henry Jennings is bringing in some of the finest strawberries ever raised in this section.

Picture show at Tonawama tonight and tomorrow night. Admission 25 and 15 cents.

BORN—This morning, at the home of W. T. Lester in this city, a daughter to Mr. and Mrs. Melvin.

Mrs. Grover Jameson and Mrs. Chester Dalton are out at the home of their parents, Judge and Mrs. Thompson, on a visit.

Mesdames Fish and Tofanelli, formerly Bonnie and Grace Howard, are in the city visiting old time friends. They both reside in the vicinity of San Francisco, Mr. Fish being employed with the railroads and Mr. Tofanelli is in the wholesale grocery business. The girls came to Ontario some two weeks ago and visited their father, Lyte Howard and then came to Calamity to see their half-brothers and sister, the children of the late John McKinnon, who are at the home of Mr. and Mrs. Thos. Cleveland. The McKinnon children John, Eva and Max are over with them to see Burns after an absence of many years.

GOVERNOR WEST IN BURNS WEDNESDAY

(Continued from page 1.)

given proper encouragement, and these are given a chance. Governor West says also there are men in prison who should never be allowed out as they are degenerates and confirmed criminals. There should be a law, he thinks, to keep such men locked up.

They have started many ways of employing convict labor since he has been in the executive chair that are proving a great saving to the state besides giving the men employment where they share to a certain extent in the profits, and this is not placed on the market in competition with free labor, but confined entirely to furnishing state institutions. They now have tin shops, blacksmith shops, a furniture factory, make mattresses, etc., which are used in the state institutions thus saving a large amount of money.

In concluding his talk Governor West insisted that there was no politics in the matter; he is sincere in doing the very best he can for the people of this state and is not a candidate for reelection, therefore is not playing politics. He wants to see the vast territory in the interior develop and will do all in his power toward it. He left Thursday morning on his horse to resume his journey, which he is making at easy stages, and expects to reach Boise about next Monday. He will not return on horseback but as he puts it "both he and his little mare will ride back home on cushions."

Governor West was the same fellow among his friends in Burns as before he was elected and he mingled freely with the "boys" on the street and at his hotel while in Burns, showing his strong hold on their friendship and respect by his manner of greeting and conduct. He is tremendously popular with the people who admire his straightforwardness and sincere purpose of doing right regardless of criticism or what the people think.

The Times-Herald had some pictures of the Governor taken out on the road before he reached Burns and after his arrival. When he called at this office and saw the pictures that Mr. Heck had taken and was told they were not just what we wanted he had his saddle animal brought out and posed again at the curb by The Times-Herald building and we have a fine picture that will later appear in the papers. Jim Mahon was also photographed with the Governor on the mule which he rode out to meet him. The Governor also had a picture of himself and saddle animal taken in front of the French hotel with a thick bank of hop vines as a background.

Chauncey Cummins left the first part of this week for Westfall in company with his son Frank.

H. G. Wilson, in charge of Indian affairs in this state, left Thursday for his headquarters at Roseburg after looking over the Indian lands here.

The Harney county certainly is fortunate. Exceptional crop prospects, grain, fruit vegetables, new oil discoveries, the railroad building in and everyone prospering.

FINE FRUIT PROSPECTS

Some of the Finest Fruit Ever Seen in Harney County at The Crow Camp Farm of W. H. Robbins—Trees Loaded And Fruit Going To Waste.

Frank M. Johnson, local representative of the Oregon & Western Colonization Co., has just returned from a trip to the eastern part of the Valley and says he saw the greatest fruit prospects at the home of W. H. Robbins at Crow Camp he has ever witnessed in that section. Mr. Johnson states that the trees are simply loaded with fruit and are taking all the time of one man propping them up and thinning the fruit. Mr. Robbins also has a big crop of hay and grain which is demanding his attention and as a consequence his fruit crop is suffering. His cherries are going to waste for lack of time to take care of them, even tho as many as six or more families have been coming each day to pick them and take them away.

This is one of the oldest orchards in the Valley and there is a great variety of fruit. Apples, pears, peaches, cherries, plums, prunes, apricots, mulberries, etc. All the trees are loaded with fruit and Mr. Johnson considers it the greatest prospect he has seen. He is very anxious for the committee to get together for the purpose of securing exhibits for the fair as now is the time to begin such work. He says the fellows who stay in town don't know what they have right at their very door and advises them to get out in the country and see what their neighbors are doing.

Drewsey To Hold Fair And Race Meet

The Times-Herald was called by phone from Drewsey this week and informed that the people of Drewsey were going to hold a race meet, political rally and agricultural fair at that place the week preceding the county fair at Burns. C. W. Drinkwater asked for information respecting the dates here, outlined what his little city wanted to do. It is the purpose to hold this fair just ahead of the county fair in order that the products gathered may be kept in tact and moved over.

About \$500 will be given in purses for races and \$150 in premiums for agricultural exhibits, the latter to be brought here and entered under the usual rules and taken out with other Harney county products to the land shows and for the exhibition cars of the railroad. A big political rally is also scheduled for Drewsey during this week.

The Times-Herald hopes that all will take an interest in the coming fairs as we are going to have competition when our products are sent out. Both Crook and Malheur counties are gathering exhibits for this purpose and we should not be outclassed when we have the products to show. The fair Association will assist in gathering these exhibits as will also the Commercial Club and the Colonization Co. All that the farmer is asked to do is to save his best products for this purpose and let those who are in the field know of them and assist in getting them to the fair grounds in proper shape. The expense of getting these exhibits to the railroad and transported to the land shows has been arranged for and we should do our part in order to show Harney county as one of the best agricultural sections of the vast interior.

Small Blaze Wednesday

A fire alarm was turned in Wednesday morning about 10:30 and the fire boys responded promptly but when it was discovered where it was they found their equipment of no avail. A small woodshed at the McGee residence in Morrison's addition where Mr. Chezem lives caught fire and burned down. It caught from a fire in some trash that Mr. Chezem was burning. This is a reminder that we need better fire protection. The apparatus is of little avail at any distance from the cisterns on main street and should some of the handsome and expensive residences catch on fire out any distance it is almost sure they would be destroyed under present conditions.

This is another evidence of the need of provision being made for us to install a water system that is adequate. Water works would not be a burden to any property owner, but rather enhance the value of his property. This should be remembered at the coming election when it is proposed to amend the charter to make such provision should the voters decide to later.

Every other town of any size has water works and we should not only have a good system for city water but also sewerage. These are necessary to the health and growth of the city and we must prepare for growth. From present reports the entire lower part of this valley is one vast oil field where it will be impossible to establish a town that white men inhabit for they can have no water fit for domestic purposes and since oil will be so cheap every bond holder in the oil fields will have an auto and that means Burns will be their place of residence, therefore it is up to Burns to take advantage of the opportunity presented.

Bend recently voted bonds for a sewer system and Lakeview has the matter up for a vote with every indication for its being put in. Burns is going to take the matter up at once and the election to be held next Tuesday is for the purpose of amending the charter to make such possible. With everything favorable to the installation of water and sewer system, the permanency of the town, its favorable location and reasonable cost of installation we should get ready for the future that is in store for this city as one of the largest and best in the entire Eastern Oregon country.

If you want sage brush grubbed write E. E. Larsen, Burns, Oregon.

Farm For Sale

160 acres, all fenced; 50 acres in cultivation; new 7 room house, small barn and other out buildings. Running stream thru it greater part of the year. Good grain or hay land and well situated; excellent bottom land for farming. Can give in connection a relinquishment to homestead of 160; a desert claim of 80 acres, all joining.
