New Goods! New System! Low Prices! Having cut out the long credit system, we are prepared to give prices which will pay you to buy at home. Remember, when you buy at home you create a market for what you have to sell, no matter what it consists of, whether it be farm products, labor or legal advice, you don't help your own community when you go outside to trade; you don't help the farmers when you buy outside flour. Last year many people sent away and went outside to trade. What is the result? The wheels of industry have been idle, no building, no business, no work, no market. Heavy crops are being harvested and still a large portion of the old crop is on hand. It is now time for the people to get together if we want prosperity at home. Trade at our place if you can; if not trade with our competitor, but Trade at Home. Burns Department Store
