Now that the railroads are building the most important matter for the development of this county is the Silvies irrigation project. This is admitted by all so—lets push it.

The bountiful crops of the season demonstrates the fertility of our soil with sufficient moisture, therefore we should give the irrigation projects our support and hurry them to completion.

It is time to begin adjusting ourselves to the new order of things—the advent of railroads. This should have some consideration from local men who have the best interests of Burns at heart.

So much more can be accomplished by a community that is united—we need harmony in Burns and the co-operation of the people of the entire country to make Harney county what it should be. Every one should be a booster for the upbuilding of the country.

If you want a prosperous town where people who are disposed to settle and make homes, then do away with and bury from sight all jealousy and spite work, move with the progressive ones for common prosperity and mutual benefit. Do your part in whatever you can, or agree to do, and do it willingly. Don't be a backslider—they are more to be pitied than censured.

Making Tour Of Oregon Ranches

J. Leroy Nickel, vice president of the Pacific Live Stock Co., is in the city having come up from San Francisco by way of Winnemucca and the company ranches south of here. He is making a tour of the Oregon ranches of the company and this is his first visit. He is quite favorably impressed with this territory. Yesterday he was up at Silvies Valley where the vaqueros had gathered a great bunch of cattle for him to see. Mr. Nickel is accompanied by J. F. Clynne, the superintendent of the vast canal system and construction work of the company in California. Supt. Gilerest is also in the party. They leave today for the Agency and will also visit the Harper and other Malheur county ranches. Mr. Nickel may go back by rail from Ontario but possibly will return to Winnemucca in the auto.

China Pheasants to Come at Once

The China pheasants promised by State Game Warden Finley are soon to be shipped to the Rod and Gun Club according to a letter just received from Mr. Finley by Dr. L. E. Hibbard. Mr. Finley writes that he has asked Gene Simpson of Corvallis to take the matter up with the Club immediately and that two dozen pair will be shipped. He further states that if we are in a position to care for them three dozen pair will be shipped us.

Those interested should confer with Dr. Hibbard at once as it is desired to get the three dozen if proper care can be taken of the birds but there will be a portion of them kept in captivity until spring. This is a matter that should appeal to the sportsmen of this section as these pheasants are among the very best game birds we can secure and it is important that they be handled with care.

Miss Myrtle Irving was quite painfully hurt Wednesday night by a horse falling with her just out of town. She and her sister Zella were riding out of town at a rapid speed and it seems just over the grade the horse Myrtle was riding shied at something and ran off the grade falling on her. The young lady sustained a fracture of the collar bone and was painfully bruised on the right side and head. She was brought back to town and Dr. Griffith called. She is at the home of Mr. and Mrs. H. E. Thompson.

John Witzell and wife were among the 'old timers' to take in the Buckeroo dance at Tonawama last night. John used to show the boys how to dance and last night he showed 'em that he could come back.

MARSHALL STROUD SHOT AND KILLED

(Concluded From First Page)

pastol. All the guns were emptied but few of the shots took effect as Stroud was hit but twice, once in the left arm, another struck him in the right side and a portion of the bullet came out at the left side, penetrating both lungs. Another shot had grazed his right hand. Clay received a flesh wound under the right arm in the side but it has caused no serious damage.

Stroud was 45 years old and is survived by his aged parents whom he supported. He had been city marshal for several terms and from what can be learned had caused the enmity of all those implicated in the shooting at various times before. There had been bad feeling for some time at least and those familiar with the situation were expecting trouble. Lowell and Matheny are new comers and resided on Cow Creek. The others had resided in Harney for years.

These are the facts as nearly as could be ascertained from those with whom the writer could talk. The Times-Herald does not believe it right to make comment at this time owing to the lack of definite information. It is a matter for the courts to settle and as the grand jury will soon meet and circuit court convenes next month it is not right that this paper give other than just such facts as are necessary at this time.

The Old Time Dance.

The 'Thirty Year ago Dance' given at Tonawama last night proved a very enjoyable affair. Many of the old time people were present and several were dressed for the occasion. The old dances were the order with appropriate music until 12 o'clock when Carl Welker went to the piano and finished for the benefit of the younger people. With Dell Dibleas floor manager, assisted by James Mahon and John Witzell, they all seemed to have a fine time. The quadrille, 'heel and toe polka,' and like dances prevailed.

The house was crowded with dancers and spectators who made merry as in the by-gone days. It brought back pioneer times and several who were present expressed a desire to see pioneer re-unions at regular intervals from this time on. Fair week would be a good time for such and no doubt next year will see the plan inaugurated.

In this issue the Central Oregon Oil & Gas Co. have extended an invitation to the people of Harney county to take stock in the enterprise. The Blue Mt. Eagle at Canyon City says there is a poor market in Burns for fruit and money conditions are responsible. This is a mistake. The fact is that we have a fine apple crop here this season and the market is supplied with the local product which accounts for the slow market of the John Day fruit. Harney county raises a great deal of fruit and in a short time there will be none shipped in from other points.

Lee Caldwell has disposed of his ranch up the river together with his bunch of horses to E. L. Sweeney formerly of Alberta. This is one of the fine stock ranches in this section and Mr. Sweeney has made a good buy. We understand the consideration was \$14,000. New Goods! New System! Low Prices!

Having cut out the long credit system, we are prepared to give prices which will pay you to buy at home. Remember, when you buy at home you create a market for what you have to sell, no matter what it consists of, whether it be farm products, labor or legal advice, you don't help your own community, when you go outside to trade; you don't help the farmers when you buy outside flour. Last year many people sent away and went outside to trade. What is the result? The wheels of industry have been idle, no building, no business, no work, no market. Heavy crops are being harvested and still a large portion of the old crop is on hand. It is now time for the people to get together if they want prosperity at home.
