Mrs. G. A. Rembold arrived home last Wednesday evening from her vacation visit to outside points covering several weeks. She had a very pleasant time with old time friends and visiting points of interest on the coast. Her many music pupils are pleased to have her home ready for the resuming of work.

H. D. Smyth and wife left Wednesday morning accompanied by their son Rye for Corvallis. The latter will enter the agriculture college for the winter, his parents going out for a short vacation trip and to visit friends and relatives at various points. Rye was a student at the Harney county High school for two years and he has many friends in this city who wish him success in his work at the larger school.

E. J. Catlow, democratic candidate for assessor, W. H. McAllister, J. E. Rounseville and R. H. Vickers were here from Denie during the week attending to some business and visiting friends. Mr. McAllister contemplates leaving in the near future for the east where he will take up his residence. The party left Wednesday for home.

J. L. Gault and family returned home Thursday morning in company with C. F. McKinney, who was in Portland and accompanied them to Bend on the train and brought them in from there in his auto. Mr. Gault met his wife and little sons, who had spent the vacation period in the east, at Spokane. After a weeks visit there they went to Tacoma where they were guests of Mr. Gault's brother for a time, later going to Seattle then to Portland. They visited the state fair at Salem and other up valley points. Mr. Gault went out by way of Vale and had a talk with Construction Engineer Osborn of the Short Line. He states the railroad work toward this valley is progressing as rapidly as possible, they are handicapped for lack of laborers and Mr. Osborn fears it will be hard to keep a large force on the work during the winter months. He found financial conditions quite firm and satisfactory. The election will not effect financial circles this year as it has in the past is the opinion of men who have made the matter a study.
