Shooting Tournament Oct. 5.

The local Rod and Gun Club has received acceptance of their invitation to some outside clubs to come here fair week for a shooting tournament to be followed by a duck hunt and game supper. There are at least two clubs who will send members to the shoot and possibly more. The new trap recently ordered has been received, that is portions of it and the boys are anxious to get it up and try it as it is different from the one they have been using.

The date for the tournament has been set for next Saturday at 8 o'clock in the morning. It will be held just over the grade where the old trap was situated as it has been found impossible to get the base ball grounds and while the fair grounds are available without charge, it is thought the bombardment will make the stock quartered there nervous and interfere with the general program and work at the grounds. Seats will be provided at the place of shooting and the grounds made as comfortable as possible for those who desire to take part or witness the contests. The program follows:

Event 1, 10 Singles, \$10 added, entrance \$1.00. Event 2, 15 singles, \$15 added, entrance \$1.50. Event 3, 15 singles, \$15 added, entrance \$1.50. Event 4, 20 singles, \$20 added, entrance \$2.00. Event 5, 25 target, team shoot, five men in a squad, entrance per team \$10.00. Event 6, consolation, contestants must have participated in the previous events, 20 singles, \$20 added, entrance \$2.00. Event 7, 10 pairs doubles, \$10 added, entrance \$1.

Prizes For Little Sewers

Mrs. Chas. Rohn, who has charge of the needle work and kindred department at the fair next week, has been provided with \$20 to be distributed as she sees fit in special prizes for the little needle workers of Harney county. She has not yet completed her list as it is not known just what this will cover, but the little girls who have been doing needle work are requested to bring it in and they will receive consideration. This is in addition to the regular prizes provided in the premium list for school children. The printed list was suggested by the State Superintendent of schools and the County Superintendent and does not cover such work as completely as was desired, therefore at the request of Mrs. Rohn this special fund has been provided.

Other special prizes are going to be awarded during the fair of such nature as the exhibits justify. It is impossible to cover the entire field of such work when making up a premium list and for that reason privileges are given to cover any emergency that may arise.

High School Teachers Here

Jay C. Leedy and Miss Zoia Irwin, the new teachers in agriculture and domestic science for the high school, arrived here last Saturday and will assume their places in the school as soon as the necessary equipment can be installed for the added branches. This has caused some changes in the former routine work and more or less confusion which will be adjusted the coming week.

A very interesting meeting of the teachers, student body, high school board and several others was held Monday, at which a general discussion of the courses and school system was gone over. An account of this meeting appears elsewhere.

Suggest Suspension Of Threshing to Attend Fair

The Times-Herald is informed that several farmers in the vicinity of Harney particularly, and no doubt in other parts of the county, desire to attend the fair next week for a day or two at least, but are handicapped by threshing. It was suggested that the threshers suspend work for at least two days during next week and all go to the fair. So long as the weather is good they could not put in two days more profitable to themselves and all concerned. Better do that.

Leap Year Ball By High School Girls.

The young ladies of the senior class of the high school have arranged to give a leap year ball at Tonawama during court week, October 8. This is during the teachers' institute too, and we presume it is intended as a compliment to the lady teachers of the county who will be in attendance. It is very thoughtful of the high school girls and will surely be appreciated by the teachers, especially if any of them are wanting to take advantage of leap year as it will soon come to a close.

The girls have arranged, through generous smiles and other arts of persuasion, to give supper in the hall. This has been against the policy of the management of Tonawama as it causes considerable work to get the scenery placed out of the way of damage on the stage to get room for such service, but the management has a weakness for the high school students—especially the girls—therefore acceded to their wish but don't want it to be a precedent. The stage manager is very particular about his housekeeping and cannot always be in the humor to make such concessions.

The dance will follow the picture show, only one show being given on that night, therefore the dance may begin as early in the evening as is usual. They are going to have lady floor managers—and gentlemen are going to be admitted free—that's one the boys are going to have the best of it.

Sunday School Convention

The first Sunday school convention ever held in Harney county came to a close last Sunday evening at the Presbyterian church in this city. A county association was formed and hence forth annual conventions will be held. It was a decided success in every particular and was attended by several delegates from various Sunday Schools in this county. Rev. C. A. Phipps of Portland was here for the purpose of organizing the association and proved a most interesting man. He gave some of the best sermons ever heard from a pulpit in this city and was a most interesting speaker. He certainly understood the boy question and would be a very valuable man in any community in this respect as well as other Christian work. This was his first visit to this section and should he come again it will be necessary to have that new church contemplated to accommodate those who want to go and hear him preach.

Gorrie-Withers Nuptials

On Wednesday, September 4th, 1912, at 3 o'clock p. m. occurred the wedding of Harry A. Withers and Miss Christiana Gorrie, the ceremony being performed at the Baptist parsonage in Eugene by Rev. H. W. Davis. The groom operates a ranch a few miles east of this city and is an industrious and highly respected young man. The bride is the eldest daughter of Mr. and Mrs. C. I. Gorrie and has grown from childhood in this vicinity. She is a young lady of exceptional high qualities and is held in high esteem by a legion of friends.

The young people departed on the afternoon train for Salem to attend the fair and will go on to Portland before returning here to reside on the groom's ranch. The News joins the hosts of friends in wishing the happy couple a long and prosperous wedded life.—Springfield News.

Commends Gov.'s Action

Whereas, the Honorable Governor, Oswald West, of the state of Oregon has seen fit in the execution of his official duties, to further the cause of Christian work, by his efforts to clean up Oregon; by raising its moral standard; in removing incompetent officials and replacing them with men who will do their duty, by stopping the illegal traffic of liquor and by causing many other much needed reforms.

Be it resolved that the Harney County Sunday School Association go on record as heartily approving of his course and pledging ourselves to support him in every way possible. Signed,

Mrs. L. E. Reed, Chairman,
Mrs. F. E. Nutley,
Miss Helene Swain,
Miss Hazel Cobb.

Satisfied customers and an increasing business speak for themselves—W. B. Shelley, the harness and saddle man.

THE COUNTY FAIR OPENS NEXT WEEK
(Concluded From First Page)

from the same source. Local business men might profit by the example and thus make the fair more attractive.

The fair board works without compensation and neglect their private business to make it go. The amount of revenue is limited and it takes considerable scheming to make both ends meet, but it always comes out somehow, although frequently at the expense and inconvenience of members of the board and the sacrifice of friendships in some instances. The business men of Burns are the only ones to receive any direct benefits from holding of the fair and they should give the board active support. They should take a greater interest in its affairs and help in every way possible to make it attractive and profitable to the farmers and visitors. There are many demands on the association that are unexpected—expense that has not been calculated each season and it is hard to meet its obligations from time to time. It should be given hearty support by all good citizens. What donations and appropriations that are received by the Association are for a specific purpose and do not help in the general expense of the fair.

The only source of revenue without a string to it is from the gate receipts and the field is limited in that respect, there being but few people in Harney county and fewer who attend the fair, such improvements as are made and expense incurred have to be kept within the revenue received.

During the past seven years, or rather six years this being the seventh year of the Association, no other factor has done more toward the upbuilding of the county or stimulated the farming and stockraising industries than the fair, yet it has not received the consideration that it merits. It has not been given credit for what it has accomplished, but that other sources have received the praise and reward of the plaudits that rightfully belongs to the fair. This is in the way of explanation. The board has worked faithfully each year and asked no compensation for the personal service of the members—in fact not one of them would do the work for a money consideration. It is a purely charitable undertaking that they feel is due the country and that someone must do. It would be an impossibility to pay for all the work attached to the holding of these annual fairs, for the source of revenue would not justify it.

The farmer who takes an interest in the fair and brings in his exhibits is doing his part and they are the ones who should be given some credit for enterprise and sacrifice. They also profit by the fair in that it gives them new ideas, new standards of perfection to work for. The school children are given a part in the fair this season that should be made permanent. It is an education to them and brings before them practical matters that will result in lasting benefit.

The heading to this article is rather misleading respecting the band. Later information is to the effect that the Association and band have not agreed on terms.

Home Ball Team Takes First Honors

The opening game of a series of three, between the local ball team and Sumpter was played yesterday afternoon and witnessed by a large crowd. Up until the seventh inning it was a fine exhibition but from that time on several errors were made and the home team rolled up a good many scores, the final being 8 to 3 in favor of Burns. Another game will be played this afternoon and the final game tomorrow afternoon. Owing to lack of space, The Times-Herald is unable to give the game of yesterday in detail.

The Sumpter boys seem to be a fine bunch of good natured fellows and a dance was given at Tonawama in their honor last evening. They propose to show the home boys a different game this afternoon they state.

The line up was:

Sumpter	Burns
Littrell	Sullivan
Stoddard	Young
King	Faulkner
Bradley	Musick
Greene	Reed
Gayley	McIntyre
Children	Reed
Slate	Jamison
Pete	Gold
	Schumann

Umpire, Allen Biggs; score keeper, Chas. Ellis.

W. H. Harris was among our visitors from Narrows during the week.

Report of The Harney County High School

The following report of a meeting at the Harney County High School has been handed in:

Everyone present enjoyed an interesting time at the high school Monday morning. The work in Agriculture and Domestic Art was launched. All the members of the school board were present, also Mr. Hanley and a number of citizens of Burns who are interested in the high school.

Mr. Jokisch spoke briefly about the new movement in education and introduced Mr. Hanley as the one to whom we are especially indebted for the new courses in our high school.

Mr. Hanley responded in his usual forceful and convincing manner, dwelling especially upon "Education for Efficiency."

Supt. Hamilton in an inspiring talk called attention to the fact that the new work in the high school will surely mark an epoch in the history of Harney County. He also admonished the students to make the very best use of their time and to appreciate the splendid opportunity they have to get a practical education.

Judge Thompson in a few well chosen remarks impressed upon the students the necessity for earnest and conscientious work in order to attain the greatest success.

Mr. Geer amused the audience with reminiscences of his school days and declared his intention to "break into" both of the new courses if he could.

Mr. Sizemore spoke concerning a new building for the high school and maintained that an adequate building could be erected for considerably less than had been given.

Mr. Leedy, the teacher of Agriculture and Miss Irwin, teacher of Domestic Art were then introduced to the students. They briefly outlined their work and made a very favorable impression on everyone.

The board and teachers then had a meeting in which the work and plans for the year were fully discussed.

Judge Thompson spoke of the fact that the enrollment would be larger if parents throughout the county did not find it so difficult to find suitable homes for their children here. The members of the Board feel that a suitable home ought to be provided for all students who come here without their parents.

The conduct of students, outside of school hours, was discussed and the teachers recognized their responsibility and were willing to assume their share of it.

It would be hard to find a more earnest company of young people than is now enrolled in our high school. Many have begged for the privilege of taking more than the required work. Every pupil is planning his school work for some definite life work.

There are classes in Latin and German, in fact all the college requirements are being taught as they were before the introduction of the new courses.

English is the only subject that every pupil is required to take. All other subjects are optional.

We are informed that the teachers will be pleased to have visitors at any time that the school work is in progress.
