

# To the Ladies!

We take great pleasure in announcing that we are now prepared to make Ladies Suits and Coats, as well as Mens.

We have secured the services of a tailor who has had years of experience in the art and study of fine tailoring.

When you order a suit from us you know that you are going to get the goods, style and workmanship. When you order a suit thru a mail-order house, you don't know just what you are going to get; you don't see the goods and the work is done by machinery and when the suit is received in most cases alterations are necessary before you can wear it.

You save time and money and we guarantee you satisfaction when you order thru our store.

Three Months .75

The Telegram understands that school books which are submitted to pass inspection of the State Book Commission are now in the hands of high school teachers who are making a practical study of them. This is very good as far as it goes but it doesn't go far enough.

Books intended for the lower grades, which after all, are yet of the greatest importance, should be submitted to the grade teachers for inspection, study and report. In no other way can the haphazard method which now attends the selection of these books be changed for the better. Not only should the best available books be selected, with an eye to the cost also, but the task of selection should be so coordinated that only such books as are actually needed will ultimately find a place in the list.

There has been a great deal of waste all over the state in forcing parents to buy books that are rarely or never used. In some cases, like that of history, three different books are used, making it difficult to assign lessons for the reason that the same subjects appear on different pages in the different books. The whole matter should receive the serious attention of the book commission. If it has the data on hand which is here suggested it will be in a position to proceed practically with its final work some months hence and be enabled to reach a result that will be economical and satisfying to those most concerned in the outcome.—Telegram.

### Attorney General Reverses Himself.

The attorney general of Oregon has looked further into the proposition as to whether the county court can give a bounty on rabbits and has decided it can. Earlier in the week he wrote Fred Denstedt that there was no law for it but under date of Nov. 26 he writes Mr. Denstedt: "I would say that the county court is empowered by statute to pay a bounty of not more than 5 cents and not less than 1 cent on black tailed rabbits."

The county court has recently asked Deputy District Attorney for an opinion on the matter and Mr. Leonard took the matter up and looked into the matter pretty thoroughly with the result that he wrote the attorney general respecting an old law covering such bounty which he could not find had been repealed. This letter evidently brought about a more thorough investigation by the attorney general with the result that he has since advised Mr. Denstedt that it is lawful.

The Times-Herald urges the continuance of drives regardless of what the court will do. We should not wait for the court to pay us but do something for ourselves.

Co-operate in Development.

Co-operation between the Fed-

eral Government and the state in the development of Central Oregon has been proposed by the Interior Department. This branch of the administration recently expressed its intention to allot \$50,000 for investigating in Central Oregon in connection with irrigation and water power projects, providing the state of Oregon at the approaching session of the legislature would appropriate an equal amount, the entire amount to be used in co-operative work of development between the government and the state.

The development work suggested by the Interior Department would be in addition to the various reclamation projects that are being conducted by the same agency in the state: It would effect the conversion of a vast area of unproductive lands in the interior of the state into tillable and revenue-producing districts and in that proportion contribute to the substantial prosperity of the entire state.

Central Oregon presents a vast field for the plan of development work and the suggestion of the government representatives is expected to find a responsive sentiment in the membership of the State Legislature next winter that is sure to make provision for the state's share of the joint fund.

Heretofore the division of Federal funds for development work has been largely arbitrary. In a slang sort of way, the district that made the most noise has usually received the greatest amount of Government assistance. The new plan offers a more equitable way for disbursing available Federal funds. The state that manifests a willingness to co-operate with the Government in this character of work, will find the Government in a mood to duplicate any appropriation the state may make for carrying out the work.

"This plan of co-operation between the government and the state in these activities is in the nature of an innovation," said E. G. Hopson, supervising engineer of the reclamation service, yesterday. "It may develop into one of the most important features of the work of the Reclamation Service."—Oregonian.

### School House Pictures.

The Times-Herald is in receipt of a letter from Miss Farnum, who was a teacher in the public last year when the decision was made to get a fund to be devoted to picture decorations for the new building. Miss Farnum was delegated to select some of these pictures which have been received and are now in place. Among those sent by Miss Farnum are, "Sir Galahad" by Watts; "Stratford on Avon"; "St. Anthony of Padua"; "The Lake" by Carot; "The Shepherdess" by Lerolle; "Comora" by Guido Rendi; "Ronda" (Dutch) by Cassier; "The Spy" (Kahyl-Arabian) by Shreyer; "Angel Heads" by Raphael; "The Castle of San Angelo on the Tiber River."

This week Mrs. J. W. Geary received a beautiful picture, "Christ Among the Doctors," presented by Rev. and Mrs. A. J. Irwin to add to the collection now adorning the new public

school building. This picture is one of the finest in the collection and certainly is prized very highly by the people of this city who esteem the donors most highly. Mrs. Irwin was formerly a teacher in the school and her excellent work with the children and the love and esteem of the parents makes this picture much prized.

### Rabbit Drive Tomorrow.

Several people on Poison Creek have taken advantage of the offer of the county court in respect to assisting in getting rid of the rabbits and have organized a club. The corral and wings have been placed we understand and the neighbors will gather at 1. B. Culp's place tomorrow morning and drive west from there. We don't know just where the corral is located, but those who desire to participate are to go to Mr. Culp's where proper officers will be chosen and the drive started. A number who are interested will go out from town no doubt. All who can should take in this drive as we understand the pests are about as thick as fleas and it will be great sport.

### Indian Lands to be Sold.

E. L. Garber of the Indian service, who was here for several days in connection with the sale of some Indian lands allotted the Puutes, left for outside points Thursday. He succeeded in getting 23 quarter sections signed up to be sold and this will be done in a short time. Had Dr. Marsden been here he would have secured more but the Indians do not exactly understand about the procedure and want to wait until the Doctor returns. There is a fine lot of land included in these tracts and it is likely there will be some spirited bidding for choice portions of it.

### ADDITIONAL LOCALS

Frank Thompson was in the city a few days this week.

C. M. Ereckson is in the city from his home near Waverly.

Smith & Swain have moved their well drill to town and will sink a few shallow wells here and in this vicinity.

Will Foren is general caretaker and "roustabout" at the Times-Herald building and Tonawama since Carl Welker left.

"Daddy" Byrd had 29 relatives sit down with him at his Thanksgiving dinner Thursday in this city. That's quite a flock but he still had more who were unable to be present.

The Times-Herald has been unable to secure any definite information respecting the decision in the water case recently rendered by the U. S. court of appeals at San Francisco involving the rights on Silvies River. The decision seems to have recognized the State Water Board of this state which is a step in the direction of final adjudication that will give the small owner a better chance at less expense.

Ludwig Johnson, who underwent an operation for appendicitis the first of the month, is gaining strength rapidly and is able to sit up. He expects to be out in a short time.

According to a report Labor Commissioner Hoff has been up here counting the game in Harney county and says we have 10 mountain sheep and 1000 antelope. Wonder how about the other game animals and geese, ducks and swan. Perhaps he got tired.

Uncorroborated assertion is not argument any more than its reiteration is proof. Much has been said about capital punishment. Much has been written. Assertions have been made while proof has been left to the individual speculation. Theoretically we know nothing about the results of capital punishment, but here is an example from life. W. G. Settle killed Alvin Burton Crowley. He was indicted for murder in the first degree. He was afraid to stand trial, and when the state offered to accept a second degree verdict, he agreed eagerly. Had he not been in fear of capital punishment he would have stood trial. The cost would have been possibly \$1500 and from the facts resulted in the same verdict. When the voters declined to abolish capital punishment they saved Grant county \$1500 which would have been spent in a useless trial. Whether capital punishment is right or wrong the fear of the gallows saved Grant county the cost of an expensive trial in this particular instance.—Blue Mountain Eagle.

### Indian Lands to be Sold.

Every town or city can have a factory or factories and establish a pay-roll, large or small, as the case may be. The initiatory once taken means enlargement as time goes on until profitable industries are added to community growth. Money is thus kept at home and home prosperity increased.—Ex.

### Declare War on Colds.

A crusade of education which aims "that common colds may become uncommon within the next generation" has been begun by prominent New York physicians. Here is a list of the "don'ts" which the doctors say will prevent the annual visitation of the cold:

- "Don't sit in a draughty car."
- "Don't sleep in hot rooms."
- "Don't avoid the fresh air."
- "Don't stuff yourself at meal time. Overeating reduces your resistance."

To which we would add—when you take a cold get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by all dealers.

### Call for Warrants.

Notice is hereby given that there are sufficient funds in the county treasury to redeem all Harney County Warrants registered prior to January 10, 1912. Interest will cease on all such warrants November 16, 1912.

SIMON LEWIS,  
Treasurer Harney County.

### HISTORY REPEATS ITSELF

The sworn statements of Life Insurance Companies on file at the State Insurance Department, Salem, show that In 1909, 1910, 1911, Oregon Life the Only Life Insurance Company Exclusively Oregon, sold more policies in Oregon than any other company.

In 1912 Oregon Life is surpassing all its previous records.

BEST FOR OREGONIANS

E. C. EGGLESTON,

35 Agent.

CONTAIN NO HARMFUL OR HABIT FORMING DRUGS

## Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the circulation where the eczema germs are lodged. This—the quality of penetration—probably explains the tremendous success of the well-known liquid remedy, remedy, out of waterworks, thermal, etc., etc., compounded in D.D.D. Prescription. We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. stops the itch at once. We can give you a trial also bottle for 25 cents that will be enough to prove it. Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute. Just if you come to our store, we are no certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—if you do not find that it takes away the itch AT ONCE, if you don't get a cure.
