The Times-Herald is in receipt of a photo of the Harney county exhibit at the Minneapolis land show. The picture is sent by J. R. Stinson, who had charge of the exhibit. The specimens were most artistically arranged and well displayed. Miss Inez Luce is in this city, having just come in from outside points. The young lady is a niece of Mr. and Mrs. J. H. Neal of Folly farm and has come to pay them a visit and may remain indefinitely. She has been taking a course in landscape painting. Miss Luce may take charge of a school in this county. Last Tuesday was a decidedly stormy day in this section and it is found by reading the papers that it was so over all the eastern part of the state. A high wind was accompanied by snow and rain. Friends in this city have received the announcement of the marriage of Vivian Jordan and Miss Eva Doscow in Portland on December 4. Mr. Jordan formerly lived here and has many school friends in Burns. A Portland paper says Congressman now contemplates coming out for U. S. Senator two years hence. He made his decision following his recent re-election to congress after he had shown himself to be more or less of a monkey. Well, Portland elected him to congress and if that is the kind of people they want they can elect him to the senate too, that's a cinch. The finance committee in charge of raising funds for the new Presbyterian church have succeeded in securing \$9,000 of the amount. This is an excellent showing in a town no larger than Burns and is an indication of liberality and home pride that is not often equalled. A handsome \$10,000 modern church building is now assured for the coming year that will be a credit to the city. The Supreme court of the U. S. has decided that the Harriman railroad system must be split up as it is a violation of the anti-trust law. Just what effect this will have upon the vast extensions now under way in this section is not known. However, it is not likely to stop the work at all. Other big trusts that have been dissolved under the orders of the court seem to have prospered and gone right on, the only difference being that they cut bigger melons and made more money.

Persons from Narrows, Weaver springs and Sunset districts, interested in organizing a rabbit club, are requested to meet at the Sunset school house on Saturday Dec. 14, at 4 p. m. C. B. McConnell has a corps of engineers out on Silver Creek this week doing some work in connection with the irrigation project in that section. R. D. Cooper is in charge of the work. The rabbit drive out east of Burns last Sunday was a success in every particular and there will be more of them from time to time as those participating are very much encouraged with the number killed last Sunday and want to keep the good work going. The Times-Herald calls attention to the bank statements in this issue. These show resources of \$1,000,000 and reflects the enormous business transacted in this little city so far inland and removed from the general business centers. Harney county is there with the goods in any respect one wants to view it. Ed. Stoy, who works at the Star Feed Barn, met with a painful accident Monday morning by getting his finger caught in a rope while attempting to lead a horse. The animal pulled back and tore off the first joint of the member necessitating its amputation. Dr. Harrison removed the lacerated finger and Mr. Stoy is getting along very well, although suffering considerable pain. F. W. C. Hail, of Walla Walla, was here a few days during the week. He is one of the big wheat farmers of that territory and was here to make investigation of the country for others who are interested and wish to come. Mr. Hail was quite favorably impressed with the country and his report will likely bring a lot of energetic people who know how to farm to this country. Dr. Pogue and Sheriff Kerfoot of Malheur county secured settings of China pheasant eggs several years ago and hatched them under domestic hens. The chicks were turned loose on an Island near Ontario and the birds are increasing rapidly. The two men have offered a reward of \$25 for the arrest and conviction of any one found killing the birds. This precaution is not necessary in this county where the Rod and Gun Club have taken up the propagation of these famous game birds? They will be liberated on a game preserve covering many thousand acres and while they will not likely keep within these bounds there are enough members of the organization to look after them to a certain extent and see that they are properly protected.

Faulkner, who has been out at Juntura for some weeks surveying the townsite, come in the first of this week. He states he had not finished the job but Mr. C. E. Beery has gone to complete it. J. J. Ruzicka, a homesteader near the lake, has just returned from an extended visit to eastern and Canadian points. He is accompanied home by a bride and receiving the congratulations of his many friends. Friends in this city have recently received the announcement of the marriage of Miss Joisa Miller to Mr. Ed. Clark, of Union county. We understand they will make a wedding trip to eastern points and upon their return will make their home in La Grande. T. C. Albritton, the Saddle Butte capitalist, has just returned from a trip through the east and south covering a period of some two months. In observation Mr. Albritton believes the railroad activity will bring many new people to this section in the immediate future. The Times-Herald would again suggest that the farmers of this section get together and arrange for a creamery. This is a good season of the year for such discussions and it will be the means of keeping a large sum of money at home that now goes to outside points, besides a source of profit to those interested. Why not the Farmers' Union start this enterprise. The Times-Herald is informed that the case of James Taylor, convicted in this county at the April term of Circuit court for the murder of Perry at the Carlson ranch last December, and sentenced to be executed next Friday, has been appealed and that this will prevent the carrying out of the sentence until the case has been decided in the Supreme court. P. S. Weittenhiller, who was here a few weeks ago and purchased considerable land, is again in this city after traveling over a considerable territory since his last visit. He is preparing to begin developing a part of the lands he recently purchased and become a permanent resident. Mr. Weittenhiller is a man of means and will do much work on his various tracts and bring them under cultivation. Rev. Father Klein of the local Catholic church has been transferred to Hood River and will leave for that place next week. He goes to Drewsey tomorrow to open the new church there before going to his field. Father Klein has been in charge of this church for several years and is well liked by his people, in fact by all who know him. He was formerly stationed at Hood River before coming here. V. G. Cozad, limberger expert, has made a discovery that will prove a blessing to mankind, promote domestic felicity, and make the course of lovers run smoother. The discovery has peppermint, sen sens and breath rejuvenators lashed to the mast or mashed to the last. It is a simple, effective and economical solution of a heretofore complex and confusing problem. After a repast on the odoriferous yet pleasant and palatable limberger, the patient is advised to mix a tablespoon of said, table or stock, in a cut glass goblet of ice water. There being many a slip between the cup and the lip, the goblet must be raised to the face with great dexterity and celerity and the salted H-2-0 dashed against the teeth like the dashing billows of the storm tossed sea. This will remove the carrion-like presence of the scent-cheese and make a gentleman's breath remind one of the breath of a calf that has had dinner.—Blue Mt. Eagle.

High Value of Good Roads No one questions the statement that good roads have a high money value to the farmers of the nation, and it may be said that this alone is sufficient to justify the cost of their construction as rapidly as practicable under an efficient, economical equitable system of highway improvement. The big point in favor of this expenditure is the economy of time and force in transportation between farm and market, enabling the growers to take advantage of fluctuations in buying and selling as well as enhancing the value of real estate. It is estimated that the average annual loss from poor roads is 76 cents an acre, while the estimated average increase resulting from improving all the public roads is \$9. Declare War on Colds. A crusade of education which aims "that common colds may become uncommon within the next generation" has been begun by prominent New York physicians. Here is a list of the "don'ts" which the doctors say will prevent the annual visitation of the cold: "Don't sit in a draughty car." "Don't sleep in hot rooms." "Don't avoid the fresh air." "Don't stuff yourself at meal time. Overeating reduces your resistance." To which we would add—when you take a cold get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by all dealers.
