W. J. Johnson arrived here from Prineville Monday evening in company with his brother Frank and spent until Thursday renewing acquaintances. Jake was a resident of this place for many years but had not visited here for about 14 years. He found many old time friends and was somewhat surprised to find the great improvement in the town since he left. He formerly worked for J. Durkheimer and found the Odd Fellow building on the site of the old store, and the several other modern and substantial business houses pleased him very much. He says Burns looks good to him and that it is always going to be the leading commercial center of this vast territory. Jake is farming now over in Crook county. He was for several years with a building supply house in Spokane but finally decided he was capable of handling a business of his own and associated with two other young men he is now in business in Calgary, B. C. His company owns a big brick plant there and also handling building material. The company is capitalized for \$100,000 and Ernest says it does a good business, making a profitable margin on the amount invested, so it may be seen he is making good. Dr. L. E. Hibbard returned yesterday from an extended visit to points in the southern part of the county and is enjoying fine health. He was suffering from a severe cold when he left here a few weeks ago and as he is not very robust his friends feared it would prove a serious illness. Many a Christmas package never gets through the mails. The package is often broken, the contents scattered and someone is disappointed. Patrons of the post office should bear in mind that an address is written for the purpose of being read. If you can not write so that you can read it yourself how do you expect the post master to read it? It is bad enough at the best, and it would seem from the addresses on most packages that every body went to a different writing school. Tie your packages so that they can be thrown the length of a car, or handled by hundreds of hands and still remain intact. All of the postal clerks in the United States do not know you or your packages, and they are working for a salary anyway.—Ex.

John Hipsman writes The Times-Herald from Los Angeles that Wm. Jones and Mrs. Hattie Reynolds were married in that city on December 12 and that the newly married couple will make their home in Santa Monica. This may be a surprise to many of Bill's friends in this section and will be a sad blow to his old time partner, Frank Williamson, but the manager of this great religious weekly had been given a hint in advance. We only regret we had not an opportunity of seeing Bill and giving him some good fatherly advice before he took this important step and refrain from giving it publicly. In all seriousness, however, Mr. Jones has many friends throughout this county where he made his home for so many years will all join in congratulations and best wishes for happiness. He is one of the substantial men of this section and should he ever come to Burns with his bride he will find a most hearty and joyous welcome.

Tonawama Band Dance.

The Tonawama Band gave a promenade dance last night that proved one of the most enjoyable social affairs of the season and those present report a fine time. The music by the whole band was so satisfactory that the boys are in for it from this time on when they give a dancing party. The dancers report the music perfect for dancing and praise the boys highly. The Tonawama Orchestra played after the band quit and gave most satisfactory music. The floor was good, also, making it an evening of enjoyment for all.
