The legislature has ignored a number of the vetoes of Governor West and passed bills over his head. Bills by the hundred are being introduced. All kinds of legislation is being proposed. But after all is done and they get through, the people of the state can depend upon west giving them a good trimming. There are many bills that will get by the legislature but will run against a veto when they get up to the governor.—Blue Mt. Eagle.

The legislature is still grinding and more bill being introduced. The start made for a business session is turning out something of a joke as it always does. Politics is being played in much of the work and the result will be some nasty jobs.

It has been several years since this section had such fine sleighing for so long a period. Since the roads have been opened and packed the stages are making excellent time and the weather is ideal for stock feeding with abundance of snow on the feed yards and more in the mountains to insure fine crops during the coming year.

The heavy snow has caused the rabbits to come in close to town and around the hay and straw stacks for food and shelter. Many are killed in the outskirts of Burns and some of our ladies are becoming mighty hunters. Mesdames White, Fisk, Smith and Welker have become quite expert (in telling hunting stories that fit) but so far have failed to make good their count to this office. They may all be good shots and have offered to show the manager of this great religious weekly, but we haven't sufficient life insurance to justify accompanying them out to see.

Mr. Leedy, who is teaching the 9th grade algebra at the high school this semester, has worked out a novel method for handling the large class of twenty-seven. An examination was held to determine the rank of each individual student. Then the class was divided into five squads, each under a captain who was one of the five receiving the highest mark in the examination. The duties of the captains are to assist the slower members of their squads in blackboard work. The students have taken a lively interest in the scheme from the start and competition was keen for the positions of captains. Those receiving the honor for the first month are: Zella Bardwell, Owen Cawfield, Mary Pujade, Dorman Leonard and Charles Foley.

We are not having so many rabbit drives in this vicinity lately owing to the snow being deep and sufficiently crusted to allow the rabbits good footing, but the drivers break through, making it very hard work. The rabbits are feet and many would escape by the drivers being thus handicapped.

The Times-Herald learns that the electric lights are to be shut down today indefinitely. It seems the Mill Company has raised the price for power to a figure that the light people cannot run them with any profit, hence they suspend. It is very inconvenient for the people of the town not to have electric lights in the business houses, homes, churches, the streets dark and altogether present gloom. There should be an effort made to get permanent lights and at rates that will be equitable.

Died—At the Burns Sanatorium on Wednesday, Jan. 29, P. J. Ferrigan, aged 43 years. It had been intended to take him to Portland at once for special treatment but he died before the preparations were made to remove him. He was unmarried and had no relatives in this section. The funeral was held yesterday from the Catholic church.
