Since it looks like none of President Taft's appointments in Oregon are going to be confirmed candidates for the different offices to be filled have become "thicker'en thicker." In some instances it is straining a point to make the old line democrats believe some of these office seekers are really of the right party stripe to entitle them to consideration, but then this would not interfere with their duties as officers—if they can "cut the melon."

According to notices in the post office in this place the government is going to let new contracts on the lines abandoned by Kellogg the first of the year. Bids will be received up to March 11, for the Burns-Vale and Burns-Canyon lines contractors to begin April 1st and the contract to be in force until June 30, 1914. The mails are now being carried under temporary arrangement by the bond house and will continue thus until the new government contracts are let.

Miss Laura Dawson writes this office that she has received a letter from Phil Bates to the effect that the proposed excursion trip to Eastern points be taken by young ladies of this state to "boost" Oregon, has been postponed until about the first of June. This was decided upon after learning that the inaugural ceremonies of President-elect Wilson would merely be formal on March 4th, the usual features being conducted later. Mr. Bates also found that many of the young ladies of the party would be inconvenienced at the earlier date and would prefer making the trip later. Miss Dawson has decided to continue taking subscriptions for Mr. Bates' paper in the hope that she may be able to make the trip in June.

Pleas says he went out to see other sections and to enjoy himself and has bought every pleasure for himself and family they found, but never enjoyed any of it so much as the first two days after his return to Burns, and visited his old friends. Archie McGowan and family arrived home Wednesday evening from their visit to Portland and other outside points. They were accompanied in by Mrs. Grant Thompson and her son McKinley. Archie states they had a delightful visit and he also found this section well advertised in all parts, therefore looks for an excellent year in the way of new people coming in for homes and investments. He found nothing new in the railroad line, except as other people have reported on their return home, that under the new management the line now building west from Vale to this valley is in the hands of friends of Oregon who will give home people every advantage in the way of furnishing supplies, etc. They visited Dr. Griffith and found him looking fine and to all appearances entirely recovered from his recent illness. However, he is going to continue his treatment at the sanatorium for a time and does not expect to come home until he is convinced of his ability to take care of his practice.
