Four Men Sentenced to Penitentiary

Four men were sentenced to terms in the penitentiary before the circuit court adjourned the first of this week. Aside from some criminal cases there was nothing further done of interest to our readers other than was published in our last issue.

The grand jury found several indictments and adjourned last Saturday evening. A hold over grand jury was selected before the adjournment, which will meet this fall a week before the regular term of court and consider such business as may come before it.

The following criminal cases were disposed of.

State vs Thos. Jenkins, selling liquor to Indians, plea of guilty and fined \$250. The same charge against M. H. Brenton and Charley Foon also brought pleas of guilty and they were fined the same. H. C. Brown of Drewsey, charged with selling liquor to an Indian, entered a plea of guilty and he was fined \$500.

Ross Draper, the "dope fiend" who broke into Dr. Denman's office at Harman and took drugs entered a plea of guilty and was sentenced to the penitentiary

from one to five years.

Martin Kale was found guilty of larceny from a dwelling by a jury and was sentenced from one to seven years in the penitentiary.

Louie Huttenhow entered a plea of guilty to the charge of horse stealing and sentenced from one to ten years.

Robert Schiebe, murder in second degree, sentenced to life imprisonment.

Another Train Load of Miller & Lux Cattle

Yesterday morning another trainload, fifty-two carloads, of Miller & Lux cattle arrived here from California. After being fed and rested at the Pearce-Tobin ranch the cattle will be driven north to one of the firm's ranches. This is the fourth trainload, or approximately 7,000 head of Miller & Lux cattle that have been shipped in from California within the past ten days. Still another trainload shipment the final, is to reach here this week.

Thousands of head of cattle and sheep are threatened by starvation in the valley regions of central California, according to stock raisers, and the Secretary of Agriculture in Washington has directed a representative of the forest service to investigate, for the purpose of determining whether to grant an appeal that forest reserves be opened for grazing purposes. Lack of rain is responsible for feed conditions in the valleys and stock owners assert that absolute starvation must result unless relief is afforded. In the mountains the grass has attained normal growth. —Winnemucca Star.

THE ROD & GUN CLUB.

A meeting of the Harney County Rod & Gun Club was held at The Times-Herald office last Tuesday evening and elected officers for the coming year. Dr. C. C. Griffith was elected president; Archie McGowan was re-elected secretary and Chester Dalton treasurer to succeed C. F. McKinney. It was arranged thus in order that Chester might also act as a secretary in the absence of Mr. McGowan, who cannot always find it convenient to attend the meetings on account of his business calling him out of town. A vote of thanks was tendered Mr. McKinney for his faithful service in the past.

A letter from the state game commission was read relative to a proposition to have a lecturer come here and give an illustrated talk to the school children on bird and animal life, it being the intention to educate the children along this line with a view of enlisting their assistance in helping to preserve the game and to distinguish between harmful and beneficial birds. It was really addressed to the school board but fell into the hands of the Club and was acted upon. One member of the school board was present and stated he felt confident the matter would meet with hearty approval and co-operation from the school board. This lecture will be free and it is hoped to get the lecturer here early next month.

In reviewing the work of the Gun Club during its short existence Dr. Hibbard, the retiring president called attention to the results accomplished. The Club has been the means of our streams being replenished with trout, eggs have been hatched out and young fish turned into the streams; we have secured a fine lot of China pheasants with another shipment now on the way and a promise of some Bob White quail and the planting of Salmon during the coming season.

In all the Club has done some excellent work in this respect and will be able to do more. It was arranged to again shoot at the traps next Sunday afternoon and to then arrange definitely respecting regular shoots throughout the season.

The Grants Pass Courier is urging the establishment of a public market, now that a co-operative creamery is assured for that place. "The creamery, the cannery and the public market belong in the same category," it says.

SUNSET SONNETS.

R. D. Stahl has gone over to Weaver Springs to do some plowing for Ross Ringer.

A. G. Shafer and wife of Narrows was visiting in Sunset Friday with the Embree boys.

Miss Hannah May was employed by our directors to teach the Sunset school. Miss May has taught two terms here and has given good satisfaction.

James Reed is sowing grain this year on his farm.

Mr. Baker, who has been very sick for some time is on his way to recovery.

Miss Rose Crowley, of Lawen is working at the oil well acting as chief cook.

Walter Harmer is working over near the Peas place.

Most all of the ranchers of this locality are pretty busy these days plowing and clearing land.

The Sunset Grange is figuring on building a new hall this year 25 by 50. Mrs. Henney, I. S. Tyler and E. E. Larsen were appointed as building committee. The new hall will be built near the Henney place and will be large enough for all public gatherings.

The Sunset Grange had one of its best meetings Saturday, April 12, and several important subjects were discussed. There was a good crowd present and the literary program was well received by the Grangers. Clyde Embree was elected editor of the Grange paper and the first issue was full of good news and nonsense which was appreciated. Miss Barron and Miss Beck recited appropriate selections. The Sunset Grange has the largest membership of any in Harney county, but we are short on young lady members so E. E. Larsen was elected a committee of one to canvas for girl members.

Mrs. R. D. Stahl, is in Burns stopping with Mrs. W. G. Hodder.

The new road master, Grant Kesterson has finished working the road between Sunset and Narrows and they are in first class shape for travel.

N. Henney is getting the Sunset experiment farm cultivated in fine shape and Mr. Henney's place is a good location for the branch station and is in the center of this settlement where all varieties of soil to be found in Sunset can be experimented with.

Ed Moon has cleared quite a

large tract of land on his place this year.

Ray Barron is furnishing the sagebrush for the oil drillers to burn.

Casper Henney made a business trip to Narrows Monday.

Frank Kiltzke was visiting friends in Sunset Sunday.

Farm For Sale.

160 acres, all fenced; 50 acres in cultivation; new 7 room house, small barn and other out buildings. Running stream thru it greater part of the year. Good grain or hay land and well situated; excellent bottom land for farming. Can give in connection a relinquishment to homestead of 160; a desert claim of 80 acres, all joining. Price \$3500, including desert relinquishment. For particulars inquire at this office. 22-tf

Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by all dealers.

PRACTICAL BAKING LESSONS

This is the first of a series of lessons which will appear on this page every week. There is a growing interest in home baking, as women are coming to realize that their own baking is far superior to the product of the baker shop and costs much less. In this department I will show you how to have "good luck" with your baking. This is altogether a matter of having the right materials, putting them together the right way, and properly controlling the oven.

Nevada Briggs

Bread Flour and Pastry Flour

OUR mills make two kinds of flour; one from hard Spring wheat called bread flour, the other from soft winter wheat called pastry flour. Winter wheat has a larger percentage of gluten which dissolves slowly and makes the flour harder to mix, so that it is less desirable than the soft wheat or pastry flour for quick baking. Pastry flour when pressed tightly in the closed hand, should feel soft and pack closely, retaining its form after the hand is opened, and showing the imprints of the fingers. If, on the other hand, the flour seems dry and harsh to the touch, and cannot be pressed dry into a firm ball, it is bread flour, and will give good results only when slow working leaven like yeast is used. Pastry flour costs no more than bread flour and it is much better for cakes, biscuits, muffins and all kinds of pastry that it should be kept on hand and regularly used. Please do not confuse the flour with the expensive packaging. The flour is the same as the flour of cake flour and the self-rising flour, which are sometimes called "Pastry Flour" and "Biscuit Flour." If you will remember that bread flour is a Spring wheat flour and pastry flour is a Winter wheat flour, and make it clear to your grocer which you want, you will be sure of getting it.

How to Make Delicious Biscuits

For biscuits let us select pastry flour, a good sweet shortening, a double-raise baking powder and sweet milk or water. Milk is to be preferred, as it browns the biscuits better. First, measure correctly and sift together at least three times, the flour, salt and baking powder. It is important to blend the baking powder thoroughly with the flour. Then with a fork or the finger tips work the shortening thoroughly into the flour and mix to a soft dough with the milk or water—just as soft as can be handled. Roll out very lightly, or better, spread and pat the dough out thin with the hands. Handle as little as possible after wetting. Then cut in small shapes for the oven, for small biscuits are very much better than large ones. If baked quickly, as biscuits should be, a large biscuit does not get the proper heat to raise and bake the center of the biscuit. A small biscuit raises perfectly, bakes better, is more palatable, and is easier to digest.

Biscuits should always be baked on a sheet or in a very shallow pan, so the biscuits should be above the sides of the pan in order to have the heat get to them quickly. If baked in a deep pan the sides shut off the heat, and the biscuits are likely to flatten out and run together and have heavy centers. Never

Recipes Worth Saving

- Baking Powder Biscuits**
1 cup pastry flour,
2 tablespoons shortening,
2 level teaspoons K C Baking Powder,
About 1 cup of milk or water,
1 teaspoonful salt.
- Graham Biscuits**
1 1/2 cups white flour,
1/2 cup graham flour,
2 level teaspoons K C Baking Powder,
2 tablespoons shortening,
1 level teaspoonful salt.
One cup milk or more if needed. (Graham usually requires more milk.)
- Roll Biscuits**
2 cups flour,
2 level teaspoons K C Baking Powder,
2 level tablespoons shortening,
1 cup milk.
Roll in sheet 1/4 inch thick, spread with butter. Fold over half and cut and bake as other biscuits.
- Hot Biscuits**
2 cups flour,
1 level teaspoonful salt,
2 level teaspoons K C Baking Powder,
2 level tablespoons shortening,
1/2 cup milk,
1/2 cup chopped nuts.

Things to Remember

- Use pastry flour and a double acting baking powder, such as K. C.
- Measure materials correctly.
- Mix lightly.
- Cut in small shapes.
- Use a sheet or very shallow pan.
- Have the oven very hot.
- If baking on gas, oil or granite stove, bake on upper grate if using a wood or coal range, on the back of the oven.
