Delightful Piano Recital

One of the most delightful musical programs ever rendered in Burns was given at Tonawama Tuesday evening of this week by the piano pupils of Mrs. G. A. Rembold assisted by Miss Louel Smith and Platt Randall in vocal numbers and Agnes Foley with two violin solos. The entire program was thoroughly enjoyed by a large company of people that filled every available seat in the house. Mrs. Rembold was highly complimented and praised for her efforts as the pupils showed marked improvement in the artistic work, some of them rendering very difficult numbers. Burns is certainly to be congratulated on having such an able lady to instruct the young people in music and as Mrs. Rembold is a thorough artist she is developing some exceptional talent in her line of work. Such entertainments as that of Tuesday evening gives Burns a decided advantage by way of comparison in musical lines and those who took part are receiving the congratulations of all.

The Times-Herald published the program in its last issue and therefore it will not be repeated this week. The character of music and the manner of handling it by very young pupils was the wonder of many present who are musical and fully appreciate such.
