Announcement

This paper will run a series of articles the coming year in this space, one each week, designed to bring the merchant and the newspaper into closer touch with each other, and with the definite purpose of presenting veritable facts prepared for the merchant who wants a better business. These articles are being prepared under copyright by one who has for many years made a close study of advertising from the standpoint of the direct benefits to the merchant. The articles will analyze step by step the great problem of advertising a business.

Some of the subjects to be discussed are: Business boomers, kinds of advertising, best advertising, cheapest advertising, why advertise at all, how local merchants can kill mail order business, relation of newspaper advertising to other advertising, relation of newspaper to public, relation of advertise to progress of the town, relation of advertising and salesmanship, selecting advertising medium, requisites of good ads, difference in good and bad ads, difference in good and bad advertisers, the power in an ad, value of season advertising, value of display advertising, value of illustrated advertising, honest ads and honest goods, descriptions in ads, etc. These and other subjects will be handled in logical order. Later the articles will take up each individual kind of business and show what advertising will do for that business.

Keep your eye on this space and you will get something good, short and "hot off the griddle" each week.

Picture Program at Tonawama

The usual pictures tonight and tomorrow night includes three fine reels, "Under Suspicion" is a story of a homeless waif; "On the Brink of the Chasm" is a very interesting and thrilling picture in which Indians play an important part; "Max Takes Tonic," a laughable comedy in which "Max" the general favorite, takes the leading part.

Tomorrow night the usual four reels including the powerful and lively Western drama, "A Story of Montana." Some of the most popular players will be seen in this picture; "His Masterpiece" is an interesting picture; "Pa Trubell's Trouble" is a comedy that will cure the blues; "Saved by Telephone" and "A Pet of the Cairo Zoo" are on the same reel—both good. Usual prices.

Quite a number of the high school students spent a portion of last Wednesday at the experiment farm east of Burnt, Supt. Breithaupt having sent a big wagon to convey them out and as this would not accommodate all who wanted to go others went out in autos and on horseback. Miss Irwin of the domestic department and J. C. Leedy of the agricultural department also made the trip.

Mr. Breithaupt escorted the boys and those of the girls who desired, over the farm visiting the different plots that had been seeded to various crops which were in various stages of growth. He explained the method of planting and conserving of moisture, the better spots of soil on the 200 acres and how they were made to produce.

Mrs. Breithaupt was hostess to those of Miss Irwin's class who were more interested in the house, showing over the farm houses and explaining the many conveniences. She told them the most important place on the farm was a well arranged home where the men could come in and rest from their hard labors.

Railroad Men Coming

The Times-Herald learns that L. W. Hill, President Carl Gray of the Great Northern and Howard Elliott, president of the Northern Pacific, expect to be in Burns next Wednesday. They will be accompanied by W. P. Davidson, also a representative of a big bonding and loan concern, the latter with a view of locating a branch of the business here to assist in the development of the country.

We have not learned how long the party will be in this section or what particular business brings them other than a tour of inspection and visit to friends. Mr. Hill and Mr. Gray seem to have a warm place in their hearts for Harney county and make occasional visits here to renew acquaintances and confer with the people. The party will meet with a hearty welcome from the people of Burns.

Many People Coming

An unusually large number of outside people have been in this section during the week looking for locations. The Oregon & Western Colonization Co., agents have been most active, having brought in several auto loads and more are to follow at once. Real estate men report a brisk business so far as locating and looking over the country is concerned but such transfers as have been made are not much in evidence as yet. However, there are a number of sales that will be of record in a short time. The bigness of the country is the most impressive to those who came to see Harney Valley. They hardly expect to find such an immense body of level land which only awaits intelligent work to make it the greatest producing section of the West where things grow and the stock industry has such advantages.

The rapid increase in hogs, a considerably larger area under cultivation, the possibilities for irrigation and an awakened in-

terest in dairying makes it more attractive to prospective purchasers and since the railroad is being pushed toward the county as rapidly as possible, it would seem that we are going to see development without further delay.

The class of land seekers seem to be men of some means who have the wherewith to develop their holdings and with faith in the future of the country there is nothing to prevent our rapid progress. This section is becoming better known and understood by home seeking people and with the advantage of an experiment station and the scientific aid of men who understand farming the country will advance with more security than in most new countries.

O.-W. Officials Will Visit Central Oregon

President J. B. Farrell, Vice President and General Manager J. P. O'Brien and several other officials of the O. W. R. & N. Co., will start on an extended inspection tour of Central Oregon next week. The party will go by way of the Deschutes River railway and thence by auto from Bend, says the Journal.

"The purpose of the trip will be to get a good view of the country and conditions," said President Farrell this morning, "and has no other particular significance. We will visit Bend, Prineville, Burns and other places and expect to come out by way of the John Day river valley."

"We will travel leisurely and get a good view of the country and the developments, and I look forward to the trip with great enthusiasm, for many changes have occurred in the interior in the past year."

High School Commencement

One of the largest audiences ever gathered at Tonawama witnessed the high school graduation exercises last night. The program was well rendered and those present expressed delight and pleasure after it was over, the class acquitting themselves with credit.

The members of the class received congratulations of many admirers and friends and all received generous bouquets of flowers and also presents of an appropriate character. The Times-Herald has not space to give extended mention of the program this morning but every number was thoroughly enjoyed and appreciated.

The members of the graduating class are: Edgar Williams, Ruby Dalton, Ella Johnson, Jessie Bardwell, Viola Richardson and Burt Oliver.

The program of last night was: Music by Mrs. Dodge's Orchestra Invocation - Dr. Babbidge Salutatory and Oration - "A True Gentleman," Cardinal John Henry Newman Edgar Williams "Barcarolle," Tales of Hoffman Girls' Glee Club Essay - "Mark Antony" Ella Johnson Solo - "Twas in the Lovely Month of May," "Four Leaf Clover" Ruby Dalton Oration - "Opportunity" John Lancaster Spaulding Burt Oliver Solo - "Open Your Heart" Deibert Hayes Violin Solo - "Faust" - Farmer Viola Richardson Essay and Valedictorian - "Education as Related to Civic Posterity." Sumpter Valley Railroad to Improve

Many substantial improvements will be made on the Sumpter Valley railroad this summer. Guy L. Anderson, general manager of the road, who has been in Portland for the last few days says the Oregonian, has arranged for the construction of four steel bridges on concrete abutments across the Powder river to replace the old wooden trestles that have served their

usefulness. About six and a half miles of new rail will be laid at various spots where it is most needed. The old rails will be used for passing tracks. All substitutions will be of heavier steel than that now in use. By following this practice the entire line ultimately will be rebuilt on a standard basis.

Mr. Anderson reports that business in the territory tributary to the Sumpter Valley line is improving. This is true not only at Baker, but at the various points along the entire route to Prairie City, its southern terminus.

Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are for sale by all dealers.
