 Store.
 Peter Peterson was in from his
 homestead near Wagontire during
 this week making proof. He
 was assisted by Chas. Comegys
 and another neighbor and had
 the satisfaction of being told by
 the officers at the land office that
 his proof was accepted without
 question. Mr. Peterson says
 they have quite a nice settle-
 ment in his community where
 they have organized a new school
 district and will have their school
 house ready for occupancy for
 this fall. They came over in Mr.
 Comegys' car and Mr. Peterson
 says they have other conveni-
 ences in his neighborhood not
 enjoyed by all new settled com-
 munities. For instance they
 have a doctor and two trained
 nurses.

Walk-Over Shoes will take you
 anywhere and back-see them at
 Brown's Satisfactory Store.

**PROPOSE DRAINING
 THE MALHEUR LAKE**
 C. B. McConnell and Associates Make
 Application to State Board—To Be a
 Part of Big Irrigation Project.

A Salem dispatch in a recent
 issue of the Journal says:
 The first application for a con-
 tract with the state for the drain-
 age of swamp lands under the
 provisions of the swamp lands
 drainage act passed by the last
 legislature, was received by the
 state land board yesterday from
 C. B. McConnell of Burns. The
 application is for a contract to
 drain Malheur lake which covers
 46,000 acres. The estimated cost
 of the project is \$245,124.

Mr. McConnell says in his ap-
 plication that he and his associ-
 ates, under the name of the Har-
 ney Basin Reclamation Co., have
 made proper legal filings on the
 flood waters of Silvies River,
 which empties into Malheur lake,
 for irrigation purposes, and have
 been engaged during the last
 three years in making surveys,
 gathering data, and that they
 propose to construct a compre-
 hensive irrigation system as a
 part of their reclamation scheme.

The company's plans are to
 hold the flood waters of Silvies
 river, the chief source of supply
 of Malheur lake, in a big reser-
 voir, which will be a part of an
 irrigation system for the reclama-
 tion of land in Harney Valley,
 and to drain the lake into Harney
 lake and the South fork of the
 Malheur river. The applicant
 agrees to commence the work by
 June, 1914, and to expend 10 per
 cent of the estimated cost the
 first year.

Mr. McConnell arrived home
 Thursday and when asked about
 the above, said:
 "The drainage proposition re-
 ferred to in the Salem news item
 involves no new condition or
 principal except as to the manner
 and method of application and
 procedure in the reclamation
 work. Anyone making an in-
 telligent investigation of the wa-
 ter supply and water conditions
 of the Harney Valley, especially
 from the engineering and agri-
 cultural points of view, will read-
 ily discover that the irrigation of
 the semi-arid lands and the drain-
 age of the lower and marsh lands
 are inseparable and must neces-
 sarily be worked out in conjunc-
 tion. There must be a control of
 the water from the time it leaves
 the mountains until it is ulti-
 mately used or properly disposed
 of."

"The storage of the flood wa-
 ters of the Silvies River in reser-
 voirs above Harney Valley will
 materially change the conditions
 down at the lakes. This in itself
 will tend to dry up the higher
 portions of land now flooded or
 submerged. Such land, however,
 would not be fit and ready for
 agricultural purposes without the
 construction of a drainage sys-
 tem. The drainage system must
 be commenced and extended far
 beyond the limits of the lake re-
 gion. The irrigation of the up-
 per portion of the valley will
 naturally raise the water table in
 the lower lands. This must be
 controlled by drainage or a large
 area will be left in its present
 unfit condition. Again, after the
 land is so drained it must be
 supplied with irrigation water at
 the proper season.

"The state legislature in the ses-
 sion two years ago passed a law
 introduced by Thompson, then
 Representative from Lake Coun-
 ty, providing for the drainage of
 the State lands comprising
 swamps, marshes and lake beds.
 The bill was vetoed by Governor
 West and passed during the last
 session over the veto and without
 amendment. In our opinion, the
 stand taken by the Governor
 was proper and the bill should
 have been amended to conform
 with the suggestions contained
 in his veto message. He recog-
 nized the bill as a meritorious
 and necessary measure, but in-
 sisted upon some provisions
 which would restrict the acreage
 which could be held by one per-
 son or corporation and the price
 for which the land should be of-
 fered for sale. In other words,
 to prevent the land monopoly
 which has resulted under the ad-
 ministration of the swamp lands
 in the past. This point cannot
 be cured by collateral contract as
 the Supreme Court has recently
 held that the State Desert Land
 Board cannot contract, even for
 the direct protection of the set-
 tler, without specific authority
 for that express purpose.

"It is the province of and to the
 advantage of a reclamation con-
 cern to aid in and secure the set-
 tlement of the land and, there-
 fore, there will be less risk of
 land monopoly where this mat-
 ter is handled by the water com-
 pany than if undertaken by a
 corporation for the purpose of
 acquiring the land for private
 use.

"There are many preliminaries
 to be arranged and, of course,
 much threatened litigation, but
 necessity will soon demand such a
 drainage system for the double
 purpose of developing the agri-
 cultural possibilities of a fine,
 large area, and for permanently
 improving and taking care of the
 sanitary conditions."
