

AT MARKET PART OF PACKING PLANT

Hansen's Establishment is Taken Over by New Mill Company and Packing of Meats Begins at Once. Opens Immediate Market for Hogs And Encourages Local Producers

Directors of the Flour Co. bought the H. J. Meat Market the first of the morning. This was a good move as it will company an outlet for the meat packing. Besides give them means to begin caring for at once without waiting for section and equipment at the mill.

certainly encouraging to of this section to find gentlemen so active in the of caring for Harney products and arranging to bring the farmer in as soon as possible. A few cattle to dispose of, a big grain crop, a head of killing hogs in this vicinity and no other of disposing of any such it is commendable that take such steps with delay. The farmers and as well should show appreciation of the enter- patronize the home

Market Report.

Receipts for the week have been Cattle, 1271; Calves, 25; Hogs, 2120; Sheep, 1478.

A very unsatisfactory trade in cattle this week from a seller's standpoint. There has been a very slow demand for beef, especially the half fat stock being marketed. Outlet for any quantity in large incapacitated. Prime steer top at \$7.65 shows the weakness. Good cows at 6.85 featured, but bulk of the stuff was sold 6.00 to 6.50. Butcher trade generally a shade firmer than steers.

Market for well finished swine has been a degree firm this week, and 8.50 to 8.60 was bid freely for this class, with a few extra choice loads going at 8.75. Much flabby pork is being liquidated and killers manifest slight interest. Receipts were larger than for last week. 8.60 can be considered extreme top at week's close.

Sheep house had an active business Tuesday and Wednesday but has quieted down since. Some real choice ewes selling at 3.80 and 4.00 and a few yearlings at 4.25 to 4.50 featured the mutton trade. Lambs were steady 5.00 to 5.25. Receipts were so large that the yards were nearly swamped and a weakening of present price range would occasion little surprise.

Favorable Comment on Local Enterprise

Perhaps the most ambitious co-operative enterprise yet launched among the farmers of Oregon is that which has just been organized in the Harney Valley. To take over and conduct a flour mill that will supply, a wheat raising community with the finished product, thereby saving the consumers the double transportation charge and the extra profit, is a practical application of the co-operative theory that deserves to succeed. If it does succeed it will offer a solution of the distribution problem which will give to the wheat producers the best price that the market affords, and at the same time favors the consumers—who in this case may be to a considerable percentage the producers themselves—in the items of freight charges and greater profit, which take money out of the community and help to diminish its net revenue.

There is abundant opportunity in this state for the duplication of this same co-operative enterprise—not necessarily in the matter of flour manufacture, but in fruit canning, in butter making and even in the packing and curing of meats where the community demand will warrant it. It is not to be expected that every such venture will succeed, any more than that every private business enterprise will be a success. But the underlying principle is entirely sound and practical, and should be urged by practical people throughout the state as a gospel that will prove of benefit to all the people.—Portland Telegram.

Most Popular Breeds Of Horses In Oregon

The most popular breed of horses in Oregon is the Percheron, according to the report of the Oregon Board of Stallion Registration just issued by the secretary, Professor E. L. Potter, head of the Animal Husbandry department of the Oregon Agricultural College. On June 30, 1913, there were 755 licenses of pure bred stallions effective in the state, 320 of which were issued for Percherons. As might be expected, Percheron grades likewise lead in this class, with 151 out of a total of 348 grades.

The next most popular breed is the Belgian, with 112 licensed stallions. In the grade class, however, this breed takes fourth place, with a registration of 23. The race for third place in the pure bred class is a tie between the Shire and Clydesdale, with 58 each. The contest is made more interesting by the fact that the same breeds are tied in the grade class for second place, with 27 each.

Other favorite breeds in the pure bred class are the Standard Bred, 93; German Coach, 54; French Draft, 29. There are but 5 Thoroughbred and 2 Shetland stallions in the state.

Umatilla county, the home of the "Let 'Er Bucks," has 70 pure bred registered stallions, leading by long odds, all the other counties of the state. In the registered grades Umatilla has 22 and a like number in the mongrel class, the entire number of licensed stallions being 114. Its nearest competitor in the pure breeds is Marion, with 63. Union county has one more licensed stallion than Umatilla, 115, but only 57 are in the pure bred class. Clatsop and Hood River counties have but one licensed stallion each.

Avoid Sedative Cough Medicines.

If you want to contribute direct to the occurrence of capillary bronchitis, and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by all dealers.

PREMIUM WINNERS AT HARNEY COUNTY FAIR

Awards Made and Premium Warrants Issued by Secretary. Exhibits Are Packed and Shipped to Railroads And Land Shows to Advertise The Resources of Harney County

The secretary of the Fair Association has issued the warrants covering the awards of premiums at the county fair. Four distinct exhibits were selected from the pavilion display and shipped out to the railroads and eastern land shows, thus furthering the advertising of this big country.

The premium awards of the fair are given below. Not being familiar with the method of keeping each division and class separate on the entry books by the superintendent of the pavilion it is hard to make an intelligent report on the awards as to class. For instance, the dry farmed and irrigated products are so mixed that in some instances it is impossible to designate which class the award belongs.

The exhibits by the school children were good but only a few competed. The flag presented by Mrs. C. C. Chapman to the school district making the best exhibit was awarded to Burns district. The following are those who received premiums in the several divisions:

- wheat.
- J. C. Clemens, 2nd on Turkey red wheat.
- W. G. Hodder, 2nd alfalfa seed on cabbage and cauliflower.
- J. H. Jennings, 2nd hops, 2nd on plate of apples, on kale.
- W. H. Robins, 1st greatest variety of apples, 2nd on box of apples, on crab apples, on plums.
- Mrs. Wm. Miller, 1st crab apples and apples (plates.)
- Miss Lois Sweek, 1st greatest variety plums, best plate plums and pears; 2nd plate of apples.
- Mrs. R. J. McKinnon Jr., 1st on greatest variety of prunes.
- F. H. Clerf, 2nd on plate of pears.
- Mrs. E. C. Eggleston, 2nd on plate tomatoes.
- Geo. M. Cobb, 2nd on variety potatoes; 1st on turnips.
- Mrs. Wm. Farre, 1st tomatoes.
- Mrs. Mary Oard, Lawen, 1st on beets, on greatest variety onions and single variety.
- C. A. Downs, Catlow, 2nd dry land turnips.
- F. Wickert, Narrows, 2nd on sugar beets, on rutabaga and table beets.
- Henry Blackmer, 2nd on single variety potato.
- I. S. Geer, spring wheat.

LOUIS W. HILL OFFERS HANDSOME SILVER LOVING CUP AT HARNEY COUNTY FAIR TO BE HELD AT BURNS, OREGON, WEEK OF SEPTEMBER 30.

Dan Varien Was Awarded This Cup for The Best General Exhibit By One Individual. This is the Third Hill Cup Won by Him.

- H. F. Huntley, 1st on millet, on barley, on emmer; 2nd on millet.
- Mr. Klinkenberg, 1st on corn, 1st on millet, 2nd on corn.
- Roy Jennings, 1st on timothy, 2nd on red top.
- J. J. Shields, 1st on field peas.
- F. Crowley, 1st on Turkey red wheat.
- C. D. Howard, 1st on 2 sheaves wheat.
- S. Hog, 1st on 2 sheaves of wheat.
- Allen Jones, 1st on 2 sheaves rye.
- L. L. Poudjade, 1st on white barley, 2nd on field peas, oats and rye.
- J. H. Bennett, 1st on blue barley.
- John P. Fay, 1st on rye.
- Edw. Koenemann, 1st on Turkey red threshed wheat.
- Henry Vulgamore, 2nd on Turkey red wheat.
- L. E. Hibbard, 1st on black oats.
- Chas. Davis, 2nd on barley.
- M. McGee, 2nd on oats.
- J. F. Mahon, 2nd on spring

- sheaves threshed; Shadland oats side oats, 60-day oats, sheaf and threshed; rye winter wheat, alfalfa, natural grass field peas, emmer, 7 varieties onions, turnips beets, cabbage, parsnips, kale, carrots, etc; 8 boxes of apples, crab apples, 9 boxes of pears, 12 plates apples, 3 of peaches, 8 varieties potatoes, 12 of corn, muskmelons, watermelons, cucumbers, squash; 1st on field peas, on sheaf oats on threshed rye, wheat, single variety apples, peaches, pears, single variety onions, greatest and single variety potatoes, cabbage, watermelons, kale; 2nd on thrashed oats, wheat, alfalfa, emmer seed, greatest variety apples, onions single, muskmelons, squash.
- Dan Varien, 1st on largest variety of field and garden seeds, on hops, flax, emmer, vetch, greatest variety of onion seeds, sugar beets, greatest variety potatoes, cabbage, kohlrabi, parsnips, cauliflower; 2nd on natural grass, beets, single variety potatoes, rutabaga.

LOCAL DEVELOPMENT CAMPAIGN PLANNED

Portland Commercial Club Executive Committee Engages Tom Richardson to Devote Time to Betterment of Condition of Local Territory All Over State. Idle Lands to Work

(From Our Portland Correspondent.)

Planning to organize a movement for the development of the territory surrounding each of the commercial clubs throughout the state, Tom Richardson, who has probably engineered more such undertakings than any other one man in the United States, has been engaged by the Executive Committee of the Portland Commercial Club to give the greater portion of his time to this line of work in the future.

With the development of each community in the state to its greatest possible extent as his object, Mr. Richardson will devote his energies and his experience to assisting each individual commercial body in raising funds and in inaugurating a campaign wide in scope and aggressive in character for the betterment of their own home territory. One of the main ideas in this work will be to place the idle lands of the state within reach of home-seekers at reasonable prices and, when established on the land, the newcomer will be assisted in every possible way to make a success of his venture. If Oregon is to profit by the great movement of tourists to the Coast in 1915, each community should commence preparations to that end at once.

At the Salem State Fair, which has just closed the most prosperous session ever held, Douglas County took first prize for the best county display, forcing Benton County, five times winner of the annual contest, to take second place. The decision was a very close one, the judge having been for some time undecided as to which display was the best, the splendid showing of corn in the Douglas County booth being the final deciding factor. Clackamas County was third, Washington County fourth, Linn fifth, Tillamook sixth and Polk County seventh. Certainly no better county exhibits have ever before been made at the State Fair.

Development of the country tributary to the Sumpter Valley Railroad is now in full swing. Mining and logging are extremely active, but probably the most hopeful sign of future prosperity in that section is the great interest being taken by the farmers in stock raising and dairying. Two carloads of high grade Holsteins were recently imported by the First National Bank of Paririe City and these cattle have been distributed among the farmers at reasonable prices and on easy terms. It is expected that within a short time the output of the dairy will be among the most important products of that section.

A remarkable record has been made the past Summer in keeping down forest fires in the great timber areas of the Northwest, it being stated on good authority that the total loss will fall under 3,000,000 feet with a valuation less than \$5,000, this in comparison with the former low record of 25,005,000 feet in 1911. This splendid showing was made possible by the active co-operation of railroads, loggers, campers and land owners with the Government rangers and the promptness with which all small blazes have been located and put out.

Austin Goodman is ready to grind grain and has a building in which it may be stored by farmers at any time. He will grind one day each week and farmers may store their grain any day and get it when convenient. He is prepared to take grain as pay for grinding at the market price. Special prices on large quantities. 44tf.
