Railroad Construction To resume in Spring

Ben Brown of the firm of N. Brown & Sons, has received a letter from Traffic Manager Miller of the O. W. R. & N. Co., in which he states that railroad construction west from Juntura will resume in the spring and will reach Riverside during the summer.

The people of this section naturally feel grateful toward the O. W. R. & N. as it has been pushing its line toward this country but the Juntura line is of little good to them as most of our heavy freight comes from Portland and there is no use shipping it around the state to get it in especially as it will not save anything in freight or in time in reaching us.

Upholds Governor West

The following letter by Judge Stephen A. Lowell of Pendleton appeared in the Oregonian of recent date:

Without attempting any discussion of either the constitutionality or the wisdom of the declaration of martial law at Copperfield, I am constrained to assert that if the governor has gone to extremes, the legislature, and not the executive, is at fault. The people demanded of that body at its last session legislation which would assure prompt and complete enforcement of the criminal laws, and the result was the abortive statute of February 25, 1913, which requires a tedious, and probably, in most cases, useless, court proceeding to remove officers who are neglectful of duty.

to public sentiment, and enacted a statute which would permit the governor to temporarily suspend public officials, and appoint special officers in their places, when in his judgment occasion required, there would have been occasion for the declaration of martial law either in Baker county or elsewhere.

There is little doubt that the great majority of the people sustain the governor in his law enforcement crusades, and properly so, in my judgment. They may have some lurking doubt as to whether martial law was originally intended for such conditions, but it seems the only efficient weapon available, and until the legislature places some prompt and effective civil remedy in the executive hands, he will be applauded for declaring the rule of war.

His Stomach Trouble Over

Mr. Dyspeptic, would you like to feel that your stomach troubles were over, that you could eat any kind of food you desired without injury? That may seem so unlikely to you that you do not even hope for an ending of your trouble but permit us to assure you that it is not altogether impossible.

It looks like the weather man isn't going to give the dry farmer a chance to show what he can do the coming season, as there has been a large amount of precipitation and the end is not yet.

Aid Was Not Asked

In the account of the county court proceedings published in your last issue is one item to which I wish to call attention—that of the board assisting in the support of the three daughters of Henry Goodlow. I did not ask for assistance and do not feel inclined to accept—in fact will not accept the money so appropriated. In doing this I do not wish to reflect upon the kind intentions of the court, but it was unsolicited by me and I will not accept it under the circumstances.

Best Cough Medicine for Children

"I am very glad to say a few words in praise of Chamberlain's Cough Remedy" writes Mrs. Lida Dewey, Milwaukee, Wis. "I have used it for years both for my children and myself and it never fails to relieve and cure a cough or cold. No family with children should be without it as it gives almost immediate relief in cases of croup." Chamberlain's Cough Remedy is pleasant and safe to take, which is of great importance when a medicine must be given to young children. For sale by all dealers.

C. M. Faulkner of the Eastern Oregon Engineering Co. has ordered a Studebaker Six car to be used in connection with his business. The company has been using a Studebaker since 1911 and the excellent service received from it was a strong factor in selecting the latest production of the Studebaker corporation.

With a view of accommodating the passenger and express business between this city and Juntura, the nearest railroad station, R. J. McKinnon and Son have placed an order for two Studebakers, one a passenger car, the other to be used for baggage and Express matter. These cars will be placed in service over the route as soon as practicable and it is the intention to meet all passenger trains and provide quick transportation between Burns and Portland or eastern points. The time required to reach Portland over this line will be 27 hours.

Reports come to this office that the grain crop of last season has practically all been marketed and there has been some advance in the price. A large amount of the hay put up the previous year for which there was no demand has also been bought and will be fed out during the present winter, giving our farmers and hay raisers a chance to realize good prices on the crops for the coming season. We seem to get excited about our supposed over production too soon. It has been the general rule that all the products of this section finally find a market at good prices, so we'll just continue to raise more grain, vegetables and other "farm truck" and trust to securing a market.
