Six Months	1.00
Three Months	.75

Some of our citizens who have considered it their duty to announce their willingness to serve the "pepul" in an official capacity will have a different view of it after the primaries.

With the Valley View grangers, Mrs. Gray and C. A. Hawley on their trails we can see where a few million Harney Valley jack rabbits going on short rations this summer, but the farmer will get rid of his grain yield only it will be on a more profitable market.

The second week in March has been appointed alfalfa week for the Oregon schools by the state school superintendent. Directions for selecting the seed, preparing the seed bed, sowing and culture, will be prepared by specialists at O. A. C. and offered to the press of the state. The instruction will be very plain and simple and will be published in time for the use of the school children during alfalfa week.

The City Election.

The annual city election will be held next Tuesday when two councilmen, mayor, recorder, treasurer and marshal are to be elected. Up to this morning there were three candidates for marshal, R. L. Haines, the present incumbent who has made a very satisfactory officer; J. R. Gould and J. W. Vanderpool are the other two aspirants. Petitions have been filed by Roy Van Winkle for recorder to succeed himself, Henry Dalton to succeed himself as treasurer. A. C. Welcome, retiring councilman, has been persuaded to accept the position of mayor and Geo. Fry has signified his willingness to accept as a councilman. A petition has been circulated asking that Curtis Smith's name be placed on the ballot as a councilman but he is confined to his home with a case of measles and it was not known whether he would accept or not. However, it is understood he will accept.

The Mothers' Club.

A most interesting meeting of the Mothers' Club was held at the home of Mrs. Mary Smith, with Mrs. Ada Teller as joint hostess on the 25th inst. Mrs. J. A. Dalton, the popular and efficient president, advocated a good plan regarding the Playground, i. e., that a portion of the Playground be divided up into plots and leased to individual children in the town for garden purposes, this making it possible for every child to become an independent contributor to the County Fair. This plan will not doubt be worked out at subsequent meetings of the club, and will surely prove a great benefit to the youth in our town, as they are thus enabled to compete with other children who are doing like work in Portland and other cities in Oregon. A list of the names of the characters, as read by Mrs. Ludwig Johnson, secretary of the club, who are to take part in the play to be given by the Mothers' Club is an assurance of an excellent performance and decided success, they are as follows: Miss Sweringen, Miss Clara Swain, Mrs. Pearl Fisk, Mrs. Vera Welker, Messrs. Grover Jameson, Clifford Reed, Willie Young, and Henry Geer. The theatre going public may therefore look forward with pleasant anticipations toward that event. The guests of the club were, Mrs. Kelley, Mrs. J. W. Geary, Miss McKenzie and Mrs. J. C. Foley. Delicious refreshments were served by the hostesses.

Agricultural Club to Discuss Alfalfa

"Alfalfa week" for the schools of the state has been arranged for next week and in keeping with this general program the local agricultural club will have an alfalfa program at its regular meeting next Tuesday evening in the public school assembly room. This forage plant is one of the most important crops of this section and one that is engaging the attention of the farmers throughout Eastern and Central Oregon. The more it is discussed the better understood it will be and the better results will follow. With the introduction of the dairy herd and the greater number of hogs raised this crop grows in importance. The short course instructors last week emphasized the great possibilities of this forage in this county and experiments have shown it can be successfully grown on dry as well as irrigated lands. The greater returns per acre is another important matter that appeals to the farmer. The seed crop is most profitable at present and when that method of growing has reached a point where it is no longer profitable it still is a paying crop for forage, or the land has been put in condition for the raising of cereals with certain profitable yields.

The meeting of the agricultural club next Tuesday evening is the last one of this school year we understand and with other business the selection of officers will be made. The program arranged for that evening is: Piano solo—Bea Smith. "Cotton"—Helene Dalton. "Labor-saving Devices for the Home"—Ruth Miller. "Origin and History of Alfalfa"—Roy Beede. "Handling of Alfalfa on Irrigated Land"—Chas Wilson. "Alfalfa in Cultivated Rows"—L. R. Breithaupt. "Feeding Alfalfa to Farm Animals"—H. J. Hansen. T. F. Dunten at Rest. The funeral of T. F. Dunten took place here Tuesday, February 24, under the auspices of Canyon City Lodge No. 34, A. F. & A. M. It was attended by a large number of friends from not only this place but the surrounding country. He was laid to rest in the Canyon City cemetery. His death occurred at Pendleton, February 20. His struggle for life was pathetic. On the third of August, 1913 at his home in Bear Valley he met with his fatal accident. In a spirit of play he was performing on a trapeze when he fell to the ground. He sustained a fracture of the third and seventh vertebrae of the spinal column. Medical assistance was called and an attempt made to reduce the fracture. After a few weeks he was taken to Pendleton. He lay helpless for six months. He was paralyzed and could not move. His mind, however, was clear and through the long weary months of suffering he remained cheerful and hopeful. His indomitable will and determination alone sustained him. Slowly his body wasted away with his mind conscious of his condition and his spirit steadfast for the unequal contest for life.—Blue Mt. Eagle.

The Origin of a Borax Mineral

It is generally recognized that boric acid in considerable quantities is an original constituent in the waters and gases given off with volcanic emanations. In fact, the Tuscan fumaroles, in Italy, have been an important commercial source of boric acid for a long time, and in the past, possibly even to the present time, almost all the boric acid brought into the European market has been derived from this source. There is abundant evidence of the presence of boric acid in volcanic emanations in many parts of the world. On the other hand, boron is so rare a constituent of rock-forming minerals that it forms an almost appreciable small percentage of the earth's rock mass as a whole.

A short study of the borate deposits in Ventura County, Cal., supplemented by more cursory examinations of similar deposits in the vicinity of Death Valley, has been made by Hoyt S. Gale, of the United States Geological Survey, and a new theory of the origin of the deposits of colemanite, or borate of lime, in these regions has been advanced by Mr. Gale in Professional Paper 85, Part A, recently published by the Survey. While this theory has not yet been entirely proved, there is much in its favor and it affords suggestions and a working basis for further observation.

The supposition of a desiccated saline lake to explain the origin of the colemanite has little to support it beyond rather general assumptions. The character of the deposits themselves indicates rather a vein type of formation. Other salines which would naturally be expected in desiccation deposits resulting from natural saline solutions are not found in association with the colemanite. Those who have supported the desiccation theory have offered no explanation of the cause which might produce colemanite in such massive deposits as a product of water evaporation, while, on the contrary, its formation from limestone in veins by replacement of carbonic acid with boric acid is a natural hypothesis that deserves further investigation. The relations of the deposits to basalt lava flows indicate the probable origin of the boric acid at the time of the extrusion of these lavas, although it may be assumed that this acid continued to find its way into solution of the circulating ground waters long after the period of the extrusions.

A copy of Professional Paper 85, Part A may be obtained free on application to the Director of the Geological Survey, Washington, D. C.

ADDITIONAL LOCALS.

Born—Feb. 26, to Mr. and Mrs. Tim Kribs, a daughter.

A. S. Swain and daughter, Miss Helene, came up from Laven yesterday.

L. N. Coulthrust is greeting his old time friends in Burns. He formerly resided here but has been in the employ of Elmer Carlson for the past several years.

Mrs. Geo. Hagny, of Canyon City, and Chas. Parrish of Izee, returned from Klamath Falls Sunday, where they attended the funeral of J. L. Parrish.—Blue Mt. Eagle.

Anton Egli is over from the ranch under the care of his physician. He cut his hand a few days ago and blood poison resulted. He was in a very serious condition for a time but his physician reports him improved this morning.

Thos. Hutton is in town. Mrs. E. B. Reed has been suffering from a bad wound on her hand. Mrs. J. T. Garrett was reported on the sick list the first of the week. The Blue Mt. Eagle says very few ever there have taken the advantage of the half-tax payments this year. Our understanding of the law is that it doesn't provide for any half taxes, but all must be paid by the first of April. John R. Jenkins, a pioneer stock man of the Steens Mountain section and one of our most successful business men, has announced his candidacy for county judge. Mr. Jenkins enjoys a wide acquaintance, is one of our heaviest tax payers and is considered a safe man for such a responsible position.

Catholic Church.

1. On Sundays and Holy days of obligation Holy Mass with sermon at 10:30 a. m.
2. On week days Holy Mass at 6:30 a. m.
All other services, besides those mentioned above will be announced in church. All invited and welcome to the divine services. Sick-calls promptly answered at anytime. Religious information and instructions willingly imparted at the Franciscan Residence. Rev. Pius Niermann, O. F. M. Pastor of The Church of the Holy Family.

Stockholders Meeting.

Notice is hereby given that the annual meeting of the Stockholders of the Masonic Building Association will be held at the Masonic Hall in Burns, Oregon, on Saturday, March 14, 1914, at 2 o'clock P. M. Sam Motherhead, Act. Secretary.

SUMMONS.

In the Circuit Court of the State of Oregon for Harney County. Helen L. Goodlow, Plaintiff, vs. Henry D. Goodlow, Defendant. To Henry D. Goodlow, the above named defendant: In the name of the state of Oregon, you are hereby requested to appear and answer to complaint in the above entitled suit within six weeks from the date of the first publication of this summons, and if you fail so to answer, for want thereof the Plaintiff will apply to the Court for the relief prayed for in her complaint, to-wit: that the bonds of matrimony now existing between Plaintiff and Defendant be dissolved, and that Plaintiff have a divorce absolute; 2. That Plaintiff have the care, custody and control of Eugene Henry Goodlow; 3. That Plaintiff have judgment for her costs and disbursements herein and for such other and further relief as to equity may pertain. This summons is published in The Times-Herald, a weekly newspaper published and of general circulation in Harney County, Oregon, by order of the Hon. Dalton Biggs, judge of the above entitled court, duly made on the 28th day of February, 1914, which said order directed that this summons be published for a period of six weeks. The first publication of this summons is made on February 28, 1914. J. W. Briggs, Attorney for Plaintiff.

Notice of Final Settlement.
In the County Court of the State of Oregon, for Harney County. In the matter of the estate of J. P. Dickinson, deceased. Notice is hereby given that the undersigned administrator of the above entitled estate has filed his final account herein and that the Honorable Grant Thompson, judge of the above entitled court, has set Monday the 30th day of March, 1914, at the County Court Room at Burns, Oregon, as the time and place for hearing objections to said account, and all persons having objections thereto are hereby notified to appear and present the same at said time and place. Dated at Burns, Oregon, this 28th day of February, 1914. Rose C. Keus, Administratrix of the above entitled estate.

HARD WHEAT HIGHER.

It is the intention of the Burns Flour Milling Co. to pay 1-2 cents per lb. for good, hard milling wheat next year. It must be good and stand a test of 60 lbs. to the bushel, free from other grain seed and smut. Hard wheat will bring 15 cents per 100 more than soft wheat. The Company recommends Turkey Red for fall sowing and Blue Stem, Minnesota Red and Australia White Chaff for spring sowing. SEED WHEAT FOR SALE AT MILL.

A Dainty Enameled Bedroom

Don't you admire a light, dainty bedroom with immaculate linen and draperies, and with walls, furniture and woodwork all enameled in pure white or some delicate tint such as ivory or pale blue? You can have one—it is not expensive.

ACME QUALITY ENAMEL gives a hard, sanitary, lustrous genuine enamel surface, easily kept bright and clean. It is offered in delicate tints or rich colors to harmonize with draperies and furnishings.

SOLD BY THE BURNS HARDWARE CO.

REAL ESTATE

This is our business. We have located in Harney County at Burns. Office, Tonapama Bldg. We have large outside connections who are interested in investments in this county. These people are not speculators. Investment vs. Speculation. WHAT HAVE YOU FOR SALE? It will be to your interest to see us. THOMPSON & DEEGAN

Studebaker

FOUR LANDAU-ROADSTER

The Studebaker Four Roadster is a car of dual type and manifold advantages. As a Roadster the car presents a distinguished appearance, differing but little from the conventional type. When desired, however, it is only a few minutes' work to change it into a closed car—impenetrable to wind, cold, and rain. The Studebaker name guarantees appearance, durability and minimum cost of maintenance.

The Studebaker SIX	Electrically Started
