#### Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomache or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomache trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect, Sold by all dealers.
