

OFFICERS OF HILL RAILROAD VISIT US TODAY

President Gilman of North Bank and Party Out to View This Big Interior Country. Make Short Tour and go South by Way of P Ranch to Lake County. No Extension of Line now

President L. C. Gilman of the Hill railroads in the Northwest, W. D. Scott, general manager, Judge H. Carey, chief counsel of the Hill interests in this territory, W. D. Skinner, traffic manager, and J. T. Hardy, traveling freight and passenger agent, arrived in Burns this morning at 2 o'clock from Bend. The gentlemen were expected yesterday afternoon but owing to the heavy rain storm they were delayed and did not reach Silver Creek until after dark, but they came on into town. This morning they were accompanied on a short tour over this portion of the valley and this afternoon will go out by Narrows to the P Ranch and from that point over to Lakeview.

Mr. Gilman stated to The Times-Herald that the visit had no significance as bearing upon any contemplated railroad building by his line in the immediate future, but the trip is being made that he and his associates may get a better understanding of the territory which they serve and that they might act intelligently upon any matter that may come before them in the future. While they were disappointed in not being able to view the Valley last evening, as they had anticipated a daylight run, they visited the court house and took a birds-eye view before the machines were ready to convey them on the tour this morning and expressed their admiration at the magnificence of the Big Harney Valley. Their inspection of the Experiment Station and the general view of this immediate vicinity on their trip this morning will give them a better idea of the country.

The Times-Herald representative received no encouragement from Mr. Gilman in respect to any immediate extension of the Hill lines into this territory. He realized what it meant toward the development of this promising territory but he said we were not justified in attempting to

O. A. C. Man to Deliver Celebration Oration 4th

The committee in charge of the 4th of July celebration has secured Prof. R. D. Hetzel director of the extension work of the Oregon Agriculture college to deliver the oration on the day of the 4th in this city. He is reported as being a fine orator and since we are all interested in farm work it is hoped that during his stay in this vicinity some program of particular interest to the farmers may be arranged at the Experiment Station. Prof. H. D. Scudder, head of the agronomy department of the college will also be a visitor during the celebration period and will assist in whatever manner possible.

The posters announcing the celebration have been printed and sent out to several post offices throughout the county. It gives the definite program for the two days preceding the 4th and a special committee will be appointed to get up a good program for the afternoon of that day following the ball game.

Considerable Activity Shown in Real Estate

J. L. D. Morrison, Portland representative of the Oregon & Western Colonization Co., was here this week with a party of Utah men who were desirous of securing land. These men are connected with the Mormon church and represented a large number of people who want to branch out in farming and are looking for a favorable place to locate.

In company with Frank Johnson, local representative, they toured the Valley and although the effects of the recent frost was quite evident, they found the country most promising, the grain and commercial crops having been damaged but little. They were men who had experienced such weather and who know that no section of this altitude is entirely free from an occasional visit of unfavorable weather during the growing period. These men made selections of several sections of land and the contracts are in process of closing.

Mr. Johnson states there is another party due next week from the same state to look over the country and with the favorable reports of these who have come before there is little question but considerable land will be placed in the hands of active farmers who will develop it as rapidly as conditions will justify.

A Pretty Wedding Sunday.

A pretty wedding took place Sunday, June 7th, at A. H. Gage's residence in Rye Grass when their only daughter Anna B. became the wife of Leslie A. Wallace standing before a bank of roses and carnations. Dr. Benson pronounced them one. Miss Gage was the ideal girl bride in her dress of white organdy. They were unattended, the bride has made her home in Rye Grass for the last four years and has endeared herself to the young people both here and in Burns where she attended school graduating with the class this year.

The groom is one of our promising young farmers having leased the L. S. Geer ranch west of Burns. After the wedding ceremony the guests consisting of relatives and friends of both families sat down to a sumptuous wedding dinner which every body seemed to do justice. The bride and groom departed for their home amid showers of rice and old shoes. They will be at home to their friends at the Geer ranch. Their many friends wish them happiness.

Catholic Church.

1. On Sundays and Holy days of obligation Holy Mass with sermon at 10 a. m.
 2. On week days Holy Mass at 6:30 a. m.
- All other services, besides those mentioned above will be announced in church. All invited and welcome to the divine services. Sick-calls promptly answered at anytime. Religious information and instructions willingly imparted at the Franciscan Residence.

AN OPPORTUNITY FOR BIG HARNEY COUNTRY

Representation at the Panama Exposition Would Result in Much Benefit And Should Have Immediate Attention. County Fair Possible if Properly Financed and Supported

Late in October the Manufacturers Association of Oregon and the Land Products Show company will hold a great joint exhibit in the Portland Armory and a temporary building to be erected near by. The object of the show is to gather a vast quantity of products of Oregon soil to be shown first in Portland and afterwards the best of the material to be installed at San Francisco during the exhibition next year. The prizes offered for land products will amount to about \$4,000.

The above paragraph is taken from the regular weekly letter received by this office from the Portland office of the Development League and is one that is of particular interest to the people of this county, and with proper co-operation among the public spirited citizens of the entire county it could be turned to a very decided benefit. However, it is a matter that should have concerted action upon the part of every citizen in the county.

The writer has been approached several times since last fall, in respect to holding a fair this fall, especially as now is the time to gather products to exhibit at the San Francisco fair next year. We may consider that a display of the products of Harney county would be of little consequence at the big fair, but no one will deny that the beginning of actual development and the coming of homeseekers into Harney County begun following the Lewis and Clark fair and that our exhibit there was really of more benefit to the settlement of this country than all other sources. If we fail to exhibit and take part in the San Francisco Panama Exposition we will regret it, yet it is a matter that must have the active co-operation of everyone, especially the producer. There is no question but what the business men of Burns will do their part toward this if they have the proper support of the entire county, but without that sentiment and active co-operation it will be "uphill" business.

After the experience of the past few years the writer is not inclined to take an active part in this move unless the whole community and country will pledge support; the matter of a county fair is a problem under the new law governing the amount appropriated for such purposes. \$550 is not enough money to start with for such an undertaking as it will not justify the expense of gathering and preparing exhibits and pay premiums that will attract exhibitors. With only that amount of money available it is simply useless to attempt a fair as no set of men can make it a success. The expense is quite an item and with only the receipts from the gate to finance the expense of it such as printing and mailing the premium lists, paying the necessary attendants, fixing the grounds, preparing the exhibits, that is arranging them in creditable exhibition shape, furnish the usual amusements such as contests of speed and kind entertainment, it is simply out of the question.

have been in the past, to attempt a county fair. The Times-Herald feels that Harney county should be represented at the San Francisco fair and it is also confident that it can be financed but not at the sacrifice of the time of several men who have their own business affairs to look after and the amount of money available. Even just the provision of the necessary money is not sufficient to induce men to attempt it either, without the assurance of the active co-operation of the entire country. The man who feels it is the other fellow's business to do this is a stumbling block; the people who consider it strictly the business of men engaged in commercial pursuits is just as bad and the individual who considers it a selfish proposition for some one to make money out of it worse he's the fellow who is hindering the advancement of this entire country and should be taken in hand and given another diet as his stomach is out of fix and he'll never be any good to himself or the country until he gets another viewpoint of life.

Closing Exercises of Catlow School.

On Friday afternoon and evening May 29 the teacher Miss Edith M. Beckley and scholars of Pioneer Schoolhouse, District 48, Catlow Valley gave an enjoyable program in connection with the official closing of the school year. Luncheon was served by the ladies of the neighborhood, and then the following program was rendered:

- Flag Drill--By the School.
- Soldiers Mourning Song.
- Recitation--"The Rhythm of the Cities", Howard Borrowdale.
- Recitation--"The Lament of a Girl", Mabel Tulloch.
- Recitation--"If I Were You", Winfred Butler.
- Song--"Vacation Time", Mabel and Ralph Tulloch.
- Recitation--"Ceaser Rodney's Ride", Mae Byram.
- Recitation--"They Say", Clyde Butler.
- Reading--"Counting the Eggs", Margold Borrowdale.
- Recitation--"Things a Boy can Do", Ralph Tulloch.
- Recitation--"A Reverie in Church", Nellie Tulloch.
- Song--"Angry Words", School.
- Recitation--The Pickaninny and the Watermelon", Ray Kiphart.
- Oration--"Great Men", Donald Tulloch.
- Song--"The Sandman", First and Second Grades.
- Recitation--"Why Betty Didn't Laugh", Leona Butler.
- Recitation--"A Birdie with a Yellow Bill", Laurence Butler.
- Recitation--"Why I'd Rather Be a Boy", Orel Kiphart.
- Recitation--Earl Kiphart.
- Song--"A, B, C, D, Etc.", Hugh Tulloch.
- Recitation--"Oregon the Big Green Land", Mrs. Tulloch.
- Play--"Columbia School", By the School.
- Dialogue--"Climax", Under direction Edith Beckley.

For the benefit of those who were absent during the afternoon the program was repeated. The whole affair wound up with a dance.

What a vast difference a year will make. A year ago we were worried about getting a school, but during the past few months we had 3 schools going.

If we can use that as a criterion of future development the world at large will soon know Catlow is on the map.

Where a year ago only a few tents were visible now not only tents but houses in increasing numbers are springing up every day, and not a day passes but newcomers are arriving.

The plans for the Big 4th of July celebration are going apace and from the present outlook a splendid time for all is assured. Joseph T. Raker

False Report Causes Excitement Over Oil

It was reported here last Tuesday night that a "gusher" had been struck at the oil well down by Dog Mountain and that oil and water were spouting out and that the men in charge had no way of plugging the hole to prevent it. However it was found upon investigation the next day by several who went down that it was a mistake and there had been no new developments at the well of a startling nature. The drilling is being carried on in a very satisfactory way and encouraging prospects are found at the present depths of a little over 1100 feet. The drill is now in a sand stone and there is no more oil being found at this point, or in fact as much, as at a shallower depth, but the formation now encountered is a strong indication of what may be found below.

Those in charge of the work do not expect any startling developments at the present depth and fully expect to have to go down some distance before any oil is found.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purpose for which it is intended. Buy it now. For sale by all dealers.

Market Report.

Receipts for the week at the Portland Union Stock Yards have been cattle, 1607; calves, 99; hogs 4408; sheep, 8190. The cattle division showed considerable strength and firmness this week, especially during the first period, when top best hay fed steers advanced a dime, \$7.85 to \$7.90. Later the market eased off to its former level of \$7.75, but was in good shape, and one car of fancy baby beef selling at \$8.15 featured. Butcher lines are all firm with a good demand. Receipts of hogs heavy. Extreme top \$7.90, with bulk moving at \$7.75 and \$7.80. Mutton offerings large. Total receipts approximated 8,000 up Friday, but prices held steady. A few choice yearlings sold at \$5.00; old wethers at \$4.50 and ewes \$4.00 to \$4.35; spring lambs \$5.50 to \$6.00. Bulk of receipts from Western Oregon points.

Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

FARMERS "ROUND-UP" TO BE HELD IN AUGUST

Director Hetzel and Prof. Scudder Left Date to Supt. Breithaupt Who Prefers August 8 as Best Time to View Crops and Secure Largest Attendance. O. A. C. Men Here in July

The suggestion of holding the farmers' "Roundup" as suggested by Prof. French of the extension work of the O. A. C. close to the celebration, was put up to Prof. Scudder and Director Hetzel and it met with their approval provided the date suited Supt. Breithaupt. The latter was consulted and he set a date in August as his preference, therefore a second telegram was sent the officers at Corvallis with a reply coming the first of this week to take whatever date he considered best.

The Times-Herald has not contacted Mr. Breithaupt since this telegram was received, but more than likely the date set will be August 8, as at that time it is expected the testimony in the adjudication of the water rights of Silves River will be taken by the State Board and a large number of the farmers of the country will be in attendance and at liberty to take the necessary time. Mr. Breithaupt explained that at that date the crops at the Station would be in best shape for inspection, being near maturity and in fact some almost ready for harvest. Another reason for holding the institute at that date is that a large number of farmers will be able to attend as it will be after the haying season and before the harvesting period for grain.

In his telegram Prof. Scudder stated he would be here on July 2 to confer with the county court on matters in connection with the extension work also stated that Director Hetzel of that department will deliver the oration at the celebration on the 4th if the committee desired. This proposition has been accepted by the committee. Prof. Scudder further suggested in his telegram that he would be pleased to have a meeting of the farmers at the station during his visit here and

it may possibly be arranged, but the institute suggested by Prof. French will come later at which time it is the intention to assemble all the farmers of the county who will come at the Experiment Station and an entire day spent on the farm with talks by some of the instructors of the agricultural college and a personally conducted inspection of the crops of the entire farm. The proposition is to make it a picnic with basket dinner, in which the ladies would also take part. The Times-Herald has mentioned this scheme before and will keep the farmers posted on the subject during the interval between now and the date set. This is of considerable importance to all the people of the county as every one is interested in the advancement of agriculture and even those who are not actively engaged in the business will take part in the gathering and make it as successful and helpful to the real producer as possible.

The Experiment Station has become the most valuable asset the farmers of Harney county have and with the active co-operation and assistance of the extension work the farmer is fast becoming the best equipped business man of the entire county and his success is no longer a question if he follows the suggestions of the men in charge of agricultural work connected with the station and the college.

Christian Science services Sundays 11 a. m., Wednesdays at 8 p. m. Reading room open from 2 to 5 Wednesday and Saturday afternoons. First door east of stairway, Hissner Bldg. Cordial invitation extended to all.
