It felled him and for a moment it was feared he was seriously hurt but his collar bone was the only injury other than a bad bruise.

He is disappointed in the delay of the road, but finds the country has developed to a marked degree since his former visit, much more land being under cultivation and many new homes built, therefore he feels he feels he has made a good investment. His son Jim, who formerly worked in this section, is now in Chicago.

What Would You Do?

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is what would you do right now if you had a severe cold? Could you do better than to take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and know its value. Mrs. O. E. Sargent, Peru, Ind., says, "Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers.

COUNTY DIVISION
A movement is on foot to cut off the Drewsey section of Harney county and take it into the proposed new county of Davis. An examination of the county records reveals the fact that the section to be cut off pays about one-twentieth of the taxes.

About one-seventh of the running expenses of the county are expended in that section. As a matter of dollars and cents it would pay Harney county taxpayers to allow them to secede.

It is a great inconvenience for the residents of the Drewsey section to come to Burns for county seat purposes and if they desire to set up a county organization and handle the same, they should be allowed to do so. In justice to the residents of Drewsey and as a matter of saving Harney county tax payer several thousand dollars a year in running expenses.

Mrs. Miller will be assisted by Mrs. Gault and The Treble Clef Club which insures a varied programme.

Monte B. Gwinn one of the best known stockmen and bankers of the entire Eastern Oregon country, paid Burns a visit this week in company with Mr. Sommers of the Colonization Co. Mr. Gwinn had been identified in a business way with our people. This was his first visit to the big Harney country and he was agreeably surprised as he never realized the magnitude of this big valley nor appreciated its possibilities. He told the writer he was personally acquainted with some of the men in charge of railroad construction and that he was going to tell them the first time he saw them to hurry up that railroad in here as he says the United States needs this big country to furnish more of the necessities of life and by bringing us in touch with transportation will be the greatest thing toward reducing the cost of living of anything he knows of.
