Best Cough Medicine for Children.
"Three years ago when I was living in Pittsburg one of my children had a hard cold and coughed dreadfully. Upon the advice of a druggist I purchased a bottle of Chamberlain's Cough Remedy and it benefited him at once. I find it the best cough medicine for children because it is pleasant to take. They do not object taking it," writes Mrs. Lafayette Tuck, Homer City, Pa. This remedy contains no opium or other narcotic, and may be given to a child as confidently as to an adult. Sold by all dealers.

LATEST DEVELOPMENT LEAGUE NOTES

(From Our Portland Correspondent)
The Manufacturers and Land Products Show, staging the greatest display ever made of the products of farms and mills of this state is now on. From every section of the state has come remarkable specimens of the products of farm and factory and from all parts of the state are coming the crowds which fill the great Armory to overflowing. The past week was a notable one in the point of attendance, special time having been allotted to the visitors from individual communities.
Forest Grove sent a delegation 150 strong, Woodburn 100, and Salem and Eugene sent an enthusiastic crowd of Radiators and Cherrians these two organizations being the guests of the Royal Rosarians of Portland. Eight counties are represented in the Willamette Valley exhibit which it is intended to send to the Panama Pacific Exposition in 1915 after it has done service in this and other land shows. The counties represented by this exhibit are Washington, Yamhill, Polk, Benton, Lane, Linn, Marion and Clackamas.
Governor West has issued a proclamation setting aside Tuesday November 3 as Oregon Industry Day in order that public interest may be aroused in regard to the industries of the state. In his proclamation Governor West says: "I earnestly request that each and every citizen of this state purchase and consume only those products which are of home production. By so doing public attention will be directed to and centered upon our Oregon industries, the merits of which will be brought to all."
Catholic Church.
1. On Sundays and Holy days of obligation Holy Mass with sermon at 10 a. m.
2. On week days Holy Mass at 6:30 a. m.
All other services, besides those mentioned above will be announced in church.
All invited and welcome to the divine services.
Sick-calls promptly answered at anytime. Religious information and instructions willingly imparted at the Franciscan Residence.
Dependancy Due to Indigestion.
It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa.
"For years my digestion was so poor that I could only eat the lightest foods. I tried every thing that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers.

ELECTION RETURNS ARE COMING IN SLOW

Entire Republican Ticket in County is Elected. Chamberlain Returns to U. S. Senate, Withycombe Defeats Smith for Governor. State is Dry By 20,000. Rabbit Bounty Wins

At the time this is written very little is known about the election returns other than general. Figures have been received to designate the standing of the several candidates and measures in this state other than every republican candidate for a state office has been elected. Withycombe republican for governor and Chamberlain, democrat for U. S. Senator, have carried the state by big majorities. One report comes on 459 scattered precincts throughout the state the vote on U. S. Senator stands: Chamberlain, 2349; Booth, 2214, Hanley, 655. This is an indication of the vote on these candidates.
Oregon has gone dry by 20,000, every county in the state returning a majority for dry, Colorado, Arizona and Washington have also gone dry. California and Ohio went wet. Women suffrage carried in Montana, lost in Nebraska, Ohio, Iowa and South Dakota.
According to the last reports there have been 24 democrats, and 13 republicans elected to the U. S. Senate. 229 democrats, 196 republicans, 1 socialist and 1 independent elected to congress.
Gov. Johnson has been re-elected representative of this district by 300. Ben Brown and John P. Houston, democrats have been elected sheriff and clerk of Malheur county. Vale retains the county seat in that county but we have not learned how the county division has fared. However, it has lost in this county which settles the matter.
The usual condition prevails as to election returns this time as in the past. Although the election was held last Tuesday we are able to give complete returns from but two precincts in the county out of a total of 26. North Burns and Pine Creek, precincts are complete for every candidate and all the amendments. Even South Burns precinct election officers failed to display the tally sheet on the amendments, therefore the report below contains the entire vote of but the two mentioned above.
The usual surprises were evident in the results. Men would have wagered on results that were vastly different. For instance, Austin Goodman defeated Lon Richardson by an overwhelming vote and it was thought Dr. Smith would carry the county for governor.
The rabbit bounty carried big and the new county of Davis is a bad loser in this county, the proposition failed to get the necessary 35 per cent including the entire favorable vote for it in the territory to be cut off.
Bill Hanley carried the county for U. S. Senator, but as the race is between Chamberlain and Booth, Harney county shows a good lead for the former which counts in the final results.
The entire republican county ticket has been elected by very substantial majorities.
The state has gone dry by over 20,000. The result on the other amendments is not known at this time, although it is possible to get more information before going to press.
The totals as shown by the votes received by the several candidates and measures in this county are:

BIG IMMIGRATION IS EXPECTED TO THE U. S.

End of European War Will See Great Number, Especially Germans, Will Add Enormously to Our National Assets, According to The Views of Newspaper Man in an Address

Mark Sullivan, editor of Collier's in an address at Detroit last Saturday to the advertising clubs of that city, Cleveland, Buffalo and Rochester, declared that the immigration from Europe that would follow the end of the present war, and especially from Germany, would add enormously to our national assets.
That immigration will increase is to be expected. Poverty political oppression and religious persecutions are, historically, the stimulants of emigration. Except in the case of the Jews of eastern Europe, the latter factor has ceased to be operative. Nor is an increase of political oppression likely to occur. If the war produces any political effect it will be in the direction of more democratic liberty.
The factor of poverty will remain and be intensified for the time. Whichever side wins, the destruction of wealth will have been enormous. The life of the common man will be harder and he will be more inclined to take "hazard of new fortunes" in land over which the destructive broom of war has not passed.
Mr. Sullivan estimated an immigration of at least 1,000,000 immediately following the end of the war, and largely from Germany.
Wherever in Europe the immigrants come from they will be welcomed by all right thinking Americans. None will be more welcome than those from Germany.
They will not add to our problem of illiteracy nor swell the ranks of unskilled labor. No people in Europe are better schooled. None show a higher average of skill in the arts and crafts.—Chicago Record-Herald.
Market Report.
Receipts for last week at the Portland Union Stock Yards have been cattle, 1895; calves, 89; hogs, 5141; sheep, 3386.
Cattle receipts, with the exception of Monday have been fair with quality only medium quality stuff still being very good prices. Sales of feeders have been the feature during the week. Good steers going at 6.10. The market can be considered steady for prime steers at 7c to 7.15.
Hog receipts this week have been light compared with last week. They have however shown better finish as a whole. The market opened at 6.90 Monday and is closing rather strong at 7c.
This weeks receipts of sheep very light for immediate slaughter demand. A few feeders were disposed of to local dealers. Lambs went as high as 6.25 Monday for some exceptionally well finished stock.

Stock for Central Oregon.
By keeping some kinds of livestock and marketing their crops through them instead of hauling their farms to the grain elevators and hay warehouses, settlers of Central Oregon will find farming more profitable and at the same time build up their farms for still more profitable farming in the future. Dairying is still in its infancy, but with creameries at Prineville, Redmond and Bend, it will shortly become an industry of great importance according to R. E. Reybolds, extension livestock man of the Agricultural College, who has been working in that territory. Dairying should prove profitable on alfalfa farms since the hay that now brings but \$10 or \$12 per ton should bring twice as much market through the dairy cow. It should prove profitable also in those regions that have shallow soils with outcropping rocks, since field-crop agriculture can never be practised successfully there. It is believed that the development of this section will be greatly stimulated by the introduction of livestock and dairying industries, and that the vast expanses of sagebrush and juniper country dotted with prosperous homes.
Remarkable Cure of Croup.
"Last winter when my little boy had croup I got him a bottle of Chamberlain's Cough Remedy. I honestly believe it saved his life," writes Mrs. J. B. Cook, Indiana, Pa. "It cut the phlegm and relieved his coughing spells. I am most grateful for what this remedy has done for him." For sale by all dealers.
