

THE WORLD-STAGGERING WAR OF WARS!

Human interests mighty and vast NOW AT STAKE!

The monster drama of war now shattering Europe, the bloodiest and most revolting conflict in the history of the world, fully described and explained from every point of view according to the most reliable witnesses and authorities

The soul-staggering crash of events in Europe is the terrifying culmination of a series of political situations extending over a period of many years. For several generations Europe has struggled under the burden of preparing for what is happening today.

Huge armies and navies have been maintained, and the flower of the Youth of every European land has been carefully trained for emergencies that were bound to come.

Now, practically all of Europe is involved in the most astounding clash of arms in the world's history. The Orient is now involved, and soon the sun may not set on the titanic struggle. The ultimate outcome is beyond the imagination of those who even dare to speculate on its horrors. The map of Europe will change; nations will be wiped out; whole kingdoms will feel the scourge of armies; dire poverty will reign supreme for generations; commerce and trade will suffer a crushing blow; and civilization in Europe will be retarded a hundred years. And why? What are the reasons for all this? How long has the iron heel of war been suspended over Europe? What of the nations involved; their rulers, their armies and navies, and their resources?

Peaceful nations have been converted into blood-soaked battlefields. Whole villages have been wiped out and innocent men, women and children have been murdered and assaulted. Do you comprehend all this?

READ THE STORY OF THE GREAT EUROPEAN WAR

By PROF. C. M. STEPHENS, PH. D.

which fully describes and explains every diplomatic document that led to this great war of wars. This book is the latest and most authoritative work on the subject and has been written expressly to meet the demand for information concerning affairs in Europe, besides containing a true and exact copy of the diplomatic documents which are in themselves an education. It contains over 350 pages of printed matter and more than 100 full pages of illustrations from actual photographs. A few of the most important contents are:
