**The Library Club.**  
Last Saturday the Library Club met at the home of Mrs. Julian Byrd, this being the group on domestic science.  
As the Club year is drawing to a close, each succeeding meeting seems to be receiving more attention; and the old adage, "The way to reach a man's heart" is not only true of the sterner sex, there were many smiling faces at the close of the afternoon due to the fact, that the ladies were allowed to partake of the good things prepared by Miss Wilson in her demonstrations in domestic art.  
Mrs. Kelsey launched the domestic science program by giving a number of very unique recipes, and advice on the management of some of the household affairs.  
Mrs. Byrd read a paper describing the coffee tree, and the modes of preparing this favorite beverage, proving later that she was an expert in the art of coffee making.  
The club was most pleasantly entertained in a musical way, by Mrs. Farre and Mrs. Sutton, with both vocal and instrumental music.  
The new President, Mrs. J. W. Biggs presided in a very dignified and pleasing manner. She delivered a short address at the close of the business meeting, entreating the members to stand together for the best interests of the club, admonishing them to remember the cause for which this club was inaugurated some twelve years ago by a few noble and public spirited woman.

**Production of Opera Postponed.**  
Mrs. Sutton and Mrs. Rembold have secured the scores and had already assigned parts in the opera "The Pirates of Penzance" which it was intended to produce some time in May, but on account of Mrs. Rembold's change of plans, she having decided to go to Portland for a vacation, it was decided to postpone the production until this fall.  
Mrs. Sutton has directed this production before but does not feel it is justice to attempt it alone as it would involve much work to direct and accompany, therefore after consulting with several who were to take the principal parts in the opera it was decided to put it on this fall. Both ladies are very capable musicians and are entirely familiar with the work, and it is a source of regret that the music lovers of this vicinity are to be disappointed but they will have the pleasure later. The leading parts in the opera had been assigned to well known singers of this city who have been in the habit of taking part in such in the past and practically all the local singers had signified their intention of taking part in the chorus work.  
The object of the production

was to raise a fund that would be used to augment any deficit that might occur in bringing in musical talent from the outside, a plan that had been considered by the leading musicians of the city, and would have resulted in bringing in one exceptional aggregation of singers of note this spring. However this may yet be accomplished.

To the Housewife.  
Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious disease. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.
