### Rules and Regulations New Desert-Land Law

(Continued from page 1.)

faith for the required length of time and to the required extent.

However, inasmuch as the homestead laws do not authorize the commutation of homesteads made under the enlarged homestead acts, commutation proof will not be accepted upon any desert-land entry involving more than 160 acres.

Failure to submit final proof within the five-year period allowed by the law will be ground for the cancellation of the entry, unless good reason for the delay can be shown, in which event final certificate may be issued and the case referred to the Board of Equitable Adjudication for confirmation.

Those provisions of the homestead law which define the personal qualifications required of entrymen do not apply to cases of this kind, but the final proof must show that the claimant possesses the same qualifications as to citizenship and the amount of land entered by him, or assigned or patented to him, under the agricultural public land laws, as in the case of those who make ordinary final proof on desert-land entries.

12. If not already residing on his desert-land entry, the claimant must establish residence thereon within six months from the date of receiving the notice advising him that he will be permitted to perfect his entry under the second paragraph, unless such period be extended as permitted by the homestead law.

Residence upon the land must be continuously maintained for a period of three years from and after the date of its establishment. During each year the claimant may be absent for two periods only, the aggregate thereof not to exceed five months. Actual residence must be maintained for the remaining seven months of each year. If commutation proof is submitted, substantially continuous residence upon the land for a period of fourteen months must be shown, together with the cultivation of not less than one-sixteenth of the area of the entry, unless a reduction of the area required to be cultivated be allowed. The requirements made by this circular as to the period of residence, and amount of cultivation, are those of the act of June 6, 1912 (37 Stat., 123), or the "three-year homestead law."

If a claimant establishes residence upon his entry prior to the allowance of his application for relief, and continues to maintain it in good faith, as required by the homestead law, full credit will be allowed for the period during which such residence is maintained.

Proof of absence and credit commutation service will be allowed under the same terms and con-

ditions as in case of a homestead entry.

The claimant must have a habitable house upon the land at the time of submitting final proof. Other improvements should be of such character and amount as are sufficient to show good faith.

13. Cultivation of the land for a period of three years is required and this must generally consist of actual breaking of the soil, followed by planting, sowing of seed, and tillage for a crop other than native grasses. However, tilling of the land, or other appropriate treatment, for the purpose of conserving the moisture with a view of making a profitable crop the succeeding year, will be deemed cultivation within the terms of the act (without sowing of seed) where that manner of cultivation is necessary or generally followed in the locality. During the second year, not less than one-sixteenth of the area entered must be actually cultivated, and during the third year, and until final proof, cultivation of not less than one-fifth must be had; these requirements are applicable to all cases, without regard to the area or location of the entry. The period of cultivation, like that of residence, may begin before the allowance of the application for relief, credit for all cultivation, if in accordance with the provisions of the three-year homestead law, will be allowed, without regard to the time when it was performed.

14. (Applies to Utah and Idaho only.)

15. If an entryman dies before being authorized to exercise the rights conferred by the second and third paragraphs, or after such authorization but before he has perfected his entry, his rights will pass to those persons who would inherit his lands according to the laws of the State wherein the entry is located, or, if he leaves a will, to those to whom he devises such rights. Applications for the benefits of the new law may be filed, and proofs thereunder may be submitted either by one of the heirs in behalf of all, by a guardian of the heirs' estate if they themselves are minors, or by the entryman's executor or administrator, acting under the supervision of the proper probate court.

The heirs or devisees will not be required to settle or reside upon the land, but must show that the land has been cultivated and improved by them, or on their behalf, as required by the homestead law, for such period as will, when added to the entryman's period of compliance with the law aggregate the required term of three years. If they desire to commute the entry, they must show a fourteen-month period of such residence and cultivation on the part of themselves or the entryman, or both, as would have been required of him had he survived.

With regard to the reduction of the required area of cultivation the same rules and procedure will be followed as in homestead cases.

16. The same fees, and no others, may be charged by registrars and receivers upon submission of final proofs under the new law as upon submission of ordinary desert-land proofs. No commission may be charged under any circumstances, and no testimony fees unless the proof is taken at the head land office.

17. If claimant elects to perfect his entry under the third paragraph, he must, within five years from the date of his election and payment of the sum of 50 cents per acre, make final proof and pay to the receiver the further sum of 75 cents for each acre of land embraced in his entry. The final proof, in order to be acceptable, must show that, at the date of the proof, the claimant has upon the tract permanent improvements conducive to the agricultural development thereof, of the value of at least \$1.25 per acre, and that he has in good faith used the land for agricultural purposes for at least three years. Under the third paragraph grazing will be regarded as an agricultural use, provided it is established that the land is best suited to that purpose and has been so used in good faith. Actual residence on the land need not be shown.

18. Improvements made during the first three years of the life of the entry and used as the basis of annual proof, if permanent in character and conducive to the agricultural development of the land, may be counted as improvements required to be shown under this section, provided their character and continued existence are satisfactorily established by the final proof; but no water rights or irrigation ditches will be recognized for this purpose, unless it is clearly shown that they have been made actually conducive to the agricultural development of the land, or a portion thereof, and that that fact is not inconsistent with the truth of the claimant's preliminary showing that there was no reasonable prospect that he could acquire a sufficient water supply to irrigate the irrigable land of any legal subdivision of his entry.

19. If a claimant fails to make final proof any payment, as required by the third paragraph, within the five-year period, all sums theretofore paid by him will be forfeited and the entry canceled.

20. Final proofs under the second paragraph may be made on the forms used in homestead cases. For final proofs to be made under the third paragraph, new forms will be furnished.

Approved:  
ANDRIEUS A. JONES,  
First Assistant Secretary.

The Law  
An act making appropriations to supply deficiencies in appropriations for the fiscal year nineteen hundred and fifteen and the prior years, and for other purposes.

That the Secretary of the Interior may in his discretion, extend the time within which final proof is required to be submitted upon any lawful pending desert-land entry made prior to July first nineteen hundred and fourteen, such extension not to exceed three years from the date of allowance thereof: Provided, that the entryman or his duly qualified assignee has, in good faith, complied with the requirements of law as to yearly expenditures and proof thereof, and shall show, under rules and regulations to be prescribed by the Secretary of the Interior, that there is a reasonable prospect that, if the extension is granted he will be able to make the final proof of reclamation, irrigation, and cultivation required by law: Provided further, That the foregoing shall apply only to cases wherein an extension or further extension of time may not properly be allowed under existing law.

That where it shall be made to appear to the satisfaction of the Secretary of the Interior, under rules and regulations to be prescribed by him with reference to any lawful pending desert-land entry made prior to July first, nineteen hundred and fourteen, under which the entryman or his duly qualified assignee under an assignment made prior to the date of this act, has in good faith, expended the sum of \$3 per acre in the attempt to effect reclamation of the land, that there is no reasonable prospect that if the extension allowed by this act or any existing law were granted, he would be able to secure water sufficient to effect reclamation of the irrigable land in his entry, or any legal subdivision thereof, of the Secretary of the Interior may, in his discretion allow such entryman or assignee five years from notice within which to perfect the entry in the manner required of a homestead entryman.

That any desert-land entryman or his assignee entitled to the benefit of the last preceding paragraph may, if he shall so elect within sixty days from the notice therein provided, pay to the receiver of the local land office the sum of 50 cents per acre for each acre embraced in the entry, and thereafter perfect such entry upon proof that he has upon the tract permanent improvements conducive to the agricultural development thereof of the value of not less than \$1.25 per acre, and that he has, in good faith, used the land for agricultural purposes for three years and the payment to the receiver, at the time of final proof, of the sum of 75 cents per acre: Provided, That in such case proof may be submitted at any time within five years from the date of the entryman's election to proceed as provided in this section, and in the event of failure to perfect the entry as herein provided, all moneys theretofore paid shall be forfeited and the entry canceled.

Approved, March 4, 1915.

Market Report.  
Receipts for the week at the Portland Union Stockyards have been cattle 1013, calves 32, hogs 1804, sheep 2347.

With a fair run of cattle Monday the bulk of sales duplicated last week prices. Heavy stuff is not in demand, while light stuff sold readily at a good figure. Choice steers are quoted 7.50 to 7.75, cows 6.25 to 6.75, bulls 4.00 to 5.75 and stags 5.00 to 6.50.

A light run of hogs in the swine division forced the market up 15 to 20 cents over last week's quotations. One load sold for 7.85 Monday while bulk of sales went at 7.65 to 7.80. Prime light hogs are bringing 7.85 at close of week. Demand good.

Not many sheep came to market this week and quality offered did not qualify for top prices. Shearling lambs are quoted at 7.75 to 8.00, ewes 5.50 to 5.75 and yearlings 6.75 to 7.00. Full wools are \$1.00 higher than prices quoted on above shearings.
