Gives The Wilson Administration Credit

J. R. Jenkins, one of the most extensive wool growers of the entire Eastern Oregon country, was in this week from his home in the Stein's Mountain section looking after his varied business interests. Mr. Jenkins has not sold his wool crop for this year but is not at all concerned as to the price he will eventually get for it. He says President Wilson's administration has proven a success in every respect but especially is this true as applied to his particular business. He has contracted many hundred sheep for delivery in the immediate future at prices never before offered for the class and prospects for even better prices. He says the tariff is a joke, that it never did help the sheep man and never will. With transportation and an equal chance the products of Harney county, not only in wool but all classes of products, can compete with the world. Mr. Jenkins owns the brewery property in this city and was here to arrange with Mr. Larson, the man who has purchased the steam laundry from H. W. McHose, to convert the entire building into a first class laundry and has arranged for the necessary changes to put it in shape for him.

Burns Musicians Cordially Received By Neighbors.

Several auto loads of people from this city went over to Canyon City last Saturday where a concert was given by the little violin pupils of Mrs. M. V. Dodge, assisted by a few vocalists. The entertainment was under the auspices of the ladies of two churches of that place and the guests were most hospitably taken care of in the homes. The concert was generously patronized, the house being filled to capacity, and every number was rounbly applauded and apparently much appreciated. Our little players completely captivated the people of that city and turn our hosts captivated the visitor as every individual on the tour expressed the pleasure it gave them to be able to entertain them so pleasingly and the praise is unstinted for the manner in which they were received and entertained themselves.

Following the performance the guests were invited to the Guild Hall where an enjoyable reception was given them with refreshments. The writer has been visiting Canyon City at intervals for the past thirty years or more and has many warm friends among the pioneer residents of the town. Each visit gives him pleasure but the last one seemed doubly so as it showed the hospitable spirit of the people not only for those who were well known but the strangers as well. The homes were open to the Burns aggregation and every child had particular attention. The trip was made without any mishap or accident to mar the pleasure and Canyon City may rest assured that the whole bunch would be delighted to make another such journey at any convenient time. The receipts from the entertainment were given to the churches of that city it is understood a nice sum was realized, therefore all concerned are happy over the result.

We're having that ideal fall weather that we have always bragged about. Rain would be welcome, but the bright warm sunshine is pleasant.

Grain-Sampling Device.

A simple and new device for sampling grain, seeds and other material is fully described in Department Bulletin No. 287. This device was developed by specialists of the department primarily to meet the demands of grain and seed dealers and laboratory workers for a method of securing a reliable sample of grain or seed from a larger portion of the material to be examined, graded or analyzed. The construction and the process used in the device have been made very simple and yet are such as to insure reliable samples. The device does not require power of any kind, as its principle is the distribution by gravity of the material to be sampled over a cone, which is provided with separate ducts in a way to insure thorough mixture of the grain. The device also can be so arranged that one-half of the sample can be used for testing and grading, and the second half provided for the seller or buyer. It can also be used for blending two or more streams of wheat or other grain in one or more sets of rows in a mill. The device also can be used for sampling flour, meal, feeds, coal, ore or any other material of like kind, or to mix or blend and divide two or more streams of unlike material, and yet provide a thorough mixture of all the kinds of material.

Circuit Court In Session.

Judge Dalton Biggs arrived from Ontario last Saturday evening and the grand jury for the circuit court convened last Monday. The regular term of circuit court convened until next Monday when the jurors will be present but Judge Biggs has been hearing some equity cases during the week and disposing of such business as was in reading for consideration. Three decrees for divorce were granted, those of Effie Smith vs. Arthur Smith; Fronia Riggs vs. Charles Riggs; Jessie vs. Charles Miller. Some law also had consideration but nothing further than the disposition of motions, arguments, etc., were taken up. A few cases were settled and dismissed. The grand jury has brought in a few indictments and it is understood they will make their final report this afternoon, but too late for us to get it in this issue. The following have been arraigned: State vs. Guy McCoy-Larcey in a dwelling; entered a plea of not guilty. State vs. A. R. Campbell-Obtaining money under false pretences; plea of not guilty. State vs. Marion Hodge-Larcey in a dwelling; plea of not guilty. State vs. Ventura Equibar-Arson; plea of guilty. State vs. Warren and Ivan Stephens-Wanton killing of animals and assault with a dangerous weapon; two counts against each; plea of not guilty.

Baptist Church Doings.

Preaching services in Calamity school house next Tuesday night. Also in the Parker school house on Wednesday night. Rev. A. M. Williams will be here next week to conduct the fall revival. The meetings will commence Thursday evening. Mr. Williams will bring a stereopticon with him. Mrs. Dodge and part of her orchestra will play the first night. Sunday evening Mr. Lienes will sing and Mr. MacRae will whistle. Messrs. Homer Reed and Ludwig Johnson helped the band considerably last Monday night. They are always welcome. Subjects for next Sunday, A. M., "The Gift of Power." P. M., "Why Christians are not more numerous."

We do job printing.

Railroad Right on to Burns Without Delay

(Continued from page one)
 the O. W. R. & N. and ascertain the wishes of the company as to what the attitude of the railroad people would be, what they would ask of Burns and work in harmony with these suggestions. In order that there be no delay in the matter, these details will be arranged at once and the necessary steps taken to get the work from the present proposed terminus started. It is hoped to have the matter so arranged that there will be no stop by the railroad until it reaches Burns. At the meeting held last night to listen to a report of the executive committee Senator Lane was called upon to address those present and he responded in an encouraging talk. Senator Lane said the object of the club was most commendable and interesting, all interested to work in harmony. "Put your teeth in and stay with it" was his suggestion. Emulate the Seattle spirit in being a unit in every action; if any man showed an inclination to "lay down" give him an invitation to get out, but we would be justified in blacklisting him. The Senator said he did not know what the attitude of the railroad people would be but suggested giving

Hope to Start Indian School Here This Fall

Wm. Farre has had a letter from Mr. Wilson, representative of the Indian Department in this state, asking for information in connection with the establishment of a school for the Plate Indians at this place this winter. According to this letter the Department does not desire to build this fall and therefore ask as to the possibility of leasing a suitable building for this purpose and also to house the teacher and matron temporarily until such time as a school house may be built. Those interested are making an investigation and the matter will be reported to the Department in the immediate future.

We do your mending and sewing on buttons, without extra charge. See the Steam Laundry about your work.

U. S. Senator Lane is in Burns for a Day

Senator Lane stated that the great trouble with the postal department was that the people of the east do not realize conditions in the far west and the importance of the mail service to the isolated sections. While some places are well served and certain parts of the service were really bringing in a revenue over the expense, that money was not available to place better service in other sections that demand changes. Senator Lane and family leave today by the way of Bend for their return to Portland, but will take time to visit other portions of the Central Oregon territory while en route. The Senator was glad to see the people of this section and noted the development of the country. He was glad to meet us without any trumpets or brass bands, but just take us unawares and meet us without pomp. He is an earnest worker in the interest of the state and therefore his visit has given him a vast fund of information that will prove a help in aiding in whatever legislation we may need.

U. S. Senator Lane is in Burns for a Day

DRESS UP BOYS—Williams-Zoglmann Clo. Co. have the goods.

Making a Cut and Fill on the Oregon & Eastern Railroad Between here and Riverside

Camp Scene on Oregon & Eastern Railroad Extension into Harney Valley
 —From photos taken by W. R. Heck last week.

Noted Pianist Coming.

Among the musical attractions during the coming season will be Dent Mowrey, concert pianist, recently of Paris, who will be heard here in recital on October 19th. Mr. Mowrey is an honor graduate from the Royal Conservatory of Berlin, and a pupil of Harold Bauer, Paris, where he is well and favorably known as a pianist and composer. He is an artist and has a rare command of technique, wonderful power and beauty of tone and his appearance here should be greeted with enthusiasm, as it is most unusual to have the privilege of hearing an artist of Mr. Mowrey's ability in a place of this size. A subscription sale will begin at once in order to insure a full house and the guarantee necessary for his appearance. Save Your Coupons. With all kodak finishing amounting to \$2.00 I will give an 8x10 enlargement of your favorite film free. Films developed 10c per roll any size. Packs 25c. Prints 5c. postcards 5c. Sayer Studio, Burns, Ore. We do job printing.

A MERCILESS JUDGE.

One Who Shows No Favor. A merciless judge is Father Time. Before him the weak and wanting go to the wall. Only the truth can stand. For years the following statement from a LaGrande resident has withstood this sternest of all tests. Mrs. M. E. Nibler, 2106 Third St., LaGrand, Ore., says: "My back ached and I had severe pains through my right side. I was all crippled up and found it hard to do my housework. One of my relatives had used Doan's Kidney Pills and advised me to try them. Two boxes drove away the aches and pains."

NO TROUBLE SINCE. "OVER A YEAR LATER, Mrs. Nibler said "I have had no kidney trouble since Doan's Kidney Pills rid me of it." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Nibler has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.
