

**PARENT TEACHERS ASSOCIATION ORGANIZED**

**Object to Assist the Schools of this City And Stimulate Interest Among the Students. Will be Active as Soon as Details Worked Out. Officers Are Elected for the Coming Year**

Several of the ladies of this city met with Mrs. Frazzile last Saturday morning at Tonowoma and after discussing the advantages of a Parent Teachers Association an organization was perfected by the election of Clifford Reed as president; Mrs. Roy VanWinkle, vice president; Mrs. J. O. Cawfield, secretary, and J. S. Cook treasurer.

The organization of such an association had been under consideration for some time in this city and it was fortunate to have the assistance of Mrs. Frazzile in getting the organization started. We do not know just when there will be a meeting of the association but feel it should have the support of the entire community.

This is not an organization to dictate what should be done in the schools but rather to work in harmony with the teachers and give them whatever aid and encouragement possible. Also it should be a factor in bringing about a closer relationship between students and the teacher and the general school work.

Mrs. Frazzile attended the opening meeting of the Ladies' Library Club during the afternoon of the same day and complimented the ladies on the excellent work achieved during the past years in getting such a magnificent library together. Mrs. Frazzile stated positively that it was at least 75 per cent better than the average library in places of three times the population of Burns and that it was one of the best selected and cleanest libraries she had ever visited. The lady made a personal inspection of the volumes during the day and this was her verdict after a careful investigation of the library.

**Aluminum is the Most Abundant Metal**  
Aluminum is the most abundant of all the metals. In form of its oxide, alumina, it constitutes about 15 per cent of the earth's crust, according to the United States Geological Survey.

Yet until recent years it was a curiosity; there were only a few hundred or few thousand pounds in existence, and its value was \$14 or \$15 a pound. Within a generation it has become very useful, now selling at about 20 cents a pound. The entry of aluminum into the field of useful metals came with the discovery that it could be extracted from the mineral bauxite, a claylike substance. This mineral itself is by no means plentiful, but known deposits are sufficient to make aluminum an important competitor of certain metals, such as copper and tin, in a good many lines of work.

Already aluminum has displaced steel in certain classes of construction where strength is required in combination with extreme lightness, such as in manufacture of flying machines. An alloy known as duralum, containing about 95 per cent of aluminum, is claimed to have qualities as good as those of good Bessemer steel, although it is only one third as heavy. This alloy possesses great hardness when annealed; and its melting point is above 1,200 degrees F. The great future of aluminum lies in the perfection of a process whereby it can be commercially extracted from the unlimited deposits of alumina—rich clays and rocks, which exist in all parts of the world. The day which shall yield really cheap aluminum holds out boundless possibilities. The chemist or investigator who can devise the needed process of extraction will not be forgotten by succeeding generations.

Anything accepted for the Burns Public Library from a dime to a building site. Here's your opportunity!

**Our Public Library.**

The Ladies' Library Club has decided to hold a "Tag Day" for the benefit of the Public Library on next Saturday. In the past these Ladies have given at least one entertainment during the year for the purpose of raising funds with which to purchase new books but this year they have decided on the "Tag" proposition. It has always been a task to get up a program and those participating have sacrificed their time and energy for this purpose. The library is now a public one and the city levies a tax for the purpose of paying a librarian but the ladies have obligated themselves to secure new books from time to time, therefore are taking this means.

There is no disposition to force this matter upon the general public but The Times-Herald hopes to see every man, woman and child on the streets of Burns next Saturday wearing a "tag" showing they have contributed toward this worthy cause. No one is going to tell you how much you shall give, no questions will be asked, so give just what you consider you can toward it, but do it cheerfully and take advantage of the magnificent library at your disposal and see if you don't enjoy it and feel you have done a good thing in adding your part toward it.

Mrs. Frazzile, who was an instructor at the recent teachers' institute say our library is seventy-five per cent the best in the state. Aren't you proud of this distinction? Don't you feel like it is right to support it.

**Pig Raising Project to Have New Specialist**

Oregon boys and girls engaged in pig raising are to be given the assistance of a specialist in pork production, who will devote his entire time to the industrial club project. An arrangement has been entered into by the Agricultural College Extension division and the United States Department of Agriculture for co-operation in carrying on this branch of the work. The new appointee will be a member of the college extension staff and work under the direction of R. D. Hetszel, Extension Director, in connection with the State Department of Education.

In making the announcement of the new policy Professor Hetszel said that J. L. Allen, a master of agriculture of the State Agricultural College, will be recommended to the Board of Regents and the Department of Agriculture for this position. He has had extended experience in livestock production at Cove, Oregon and has received both the bachelor and master degrees from the Animal Husbandry department of the College. Under his direction it is expected that great progress will be made in this important club work. Last year 282 members were enrolled for pig raising and this number will doubtless be doubled several times within the coming year. Farmers, stock growers and business men approve the pork production project and the state bankers association offers to lend financial assistance in purchasing blooded stock for club members.

**Market Report.**

Report from the Portland Union Stock Yards for last week is as follows:

With a run of about 650 head of cattle, the market opened up with steady to strong prices, choice steers going at 8.85 with five cents above last week's top, cows going at 6.00. A few heifers sold at 6.00 and calves brought 7.50.

Not many good hogs were on the market this morning. Buyers seemed inclined to pass up the offering until late in the forenoon when a couple of loads went at 6.30 for tops, market a little unsettled with bulk around the 6.15 to 6.25 mark.

A fair run of sheep came over Sunday with a nice lot of Washington lambs which brought 7.00. A few ewes were sold at 6.00 and a couple of pairs of feeder lambs sold at 6.25.

Burns Library is your Library support it.

**CONCERT PIANIST COMING TO BURNS OCT. 19**

**Brilliant Young American Musician to Give Concert That Should be Liberally Patronized. A Subscription Sale of Seats Begins Next Week. Press Gives Artist High Praise**

Dent Mowrey the brilliant young, American pianist will be heard in concert in this city Tuesday evening, October 19th. Mr. Mowrey has been received with enthusiasm in many of the large cities of the country and abroad, and should be greeted with a capacity house here. Mr. Mowrey will appear in the Levens theatre and will use a Hardman Grand Piano. All seats will be reserved except the last rows in balcony, and will be sold by subscription.

This is the first time Burns people have had the opportunity of hearing a Concert Pianist at home and a big demand for seats is anticipated. Reserved Seats \$1.00 and 75 cents. The Portland Oregonian says of Mr. Mowrey: Dent Mowrey is undeniably a high class piano artist in ability and mental temperament. He is one of the most prominent of young piano virtuosi. To reach this stately height of recognition he has had to work hard, study assiduously and travel far, but he has arrived and is on the high road to piano achievement, the path already won by Paderewski, Busoni, Harold Bauer, and other big piano stars.

Mr. Mowrey appeared in recital before cultured, musical audience last Thursday night in the ball room of the Multnomah Hotel, and by his splendid piano playing created a profound impression. He made many new friends. His behavior at the piano was an example to all pianists. Mr. Mowrey is modest, quiet, serious, and at all times he has a thorough command of himself. He is never cheap nor sensational, and ever natural.

Master of the zephyr moods of the piano, when expression becomes a delicate whisper, Mr. Mowrey is also an accomplished creator of dynamic effect, yet he never "pounds" or offends with excessive strength in the use of the pedals. A picture is rather given of a harmonious musical whole. His work is clean cut and brilliant. The Debussy "Minstrels" and the Herard "Humoresque" are "new" music, difficult to play, but the pianist surmounts all technical difficulties with ease.

Mr. Mowrey's own compositions, "Etude, op. 16 No. 2," "Danse Eccentrique," "Humoresque," and "Spanish Gipsy Dance" from the musical setting to George Eliot's poem, Spanish Gipsy, presented at the University of Paris, March 4, 1914; are of highest value and have both originality and beauty.

Mr. Mowrey and Mrs. Mowrey played "Sonata in C. major" (Mozart), arranged for two pianos, by Mr. Mowrey, and the hearing of this number was an especial pleasure. Mrs. Mowrey is clearly a finished pianist.

Both pianists were cordially received, and at the informal reception held after the recital many persons called to make the Mowreys acquaintance.

**Library Club Meets.**

(Contributed)

The Ladies Library Club held its first meeting of the season at the home of the President, Mrs. J. W. Bigga. The President's greeting embodied a short address of welcome, and a plea for help and a cultivation of a spirit of co-operation from the members in the interest of the Library. At her suggestion it was decided to have a "Tag Day" October 16 to raise money for the purchase of books. Mrs. Farre's song "Good Bye to Summer" with Mrs. Sutton as accompanist was roundly applauded.

The Ladies had the pleasure of meeting Mrs. Emma H. Frazzile who congratulated Burns for its splendid library, saying "It is the best library both in selection and number of book of any town of its size in Oregon."

She also gave a very interesting and instructive talk on "The value of pictures as character builders." After the program refreshments were served and a social hour was spent.

**Notes From Egli.**

Mr. Egli, Sr. and family left for the San Francisco fair last week in their auto.

Carson and Leonard Wolter are enjoying a visit from their aged parents, the last two weeks.

Mr. and Mrs. Rederman went to the Buck Mountain saw mill for a load of lumber, last week.

Ross Banks is assisting on the Egli farm where they are digging a good crop of potatoes.

Grandma Peterson spent Sunday at the home of Mr. and Mrs. Mrs. Harvey Tingley.

Luther Addington is among the busy farmers this week as he is sowing his fall rye.

W. E. Rederman motored to Narrows, Monday, to get Wm. Smith, who will make his final proof on his place, Oct. 18, at Burns.

Cletas Sherwood is helping Mrs. Tingley tend the twins, the last two weeks, while Mr. Tingley is finishing the carpenter work on the interior of A. T. Donivan's new residence.

Paul Tyre is clearing sage brush for Mr. Egli Sr.

Dr. Porter and T. S. Hames had the misfortune of losing their stacks of grain, which they intended to have threshed, by fire of unknown origin.

Pete Peterson, Miss Emma Peterson and Miss Alice Hurlbert visited Wagontire mountain last Sunday.

Welcome! always to The Times-Herald that keeps us informed of all the important occurrences of our county, as well as all the other topics: No home should be without it, especially now, that it keeps us so well posted on the progress of the expected railroad.

Mr. and Mrs. A. T. Donivan motored to Burns Tuesday.

Grant Burgett and family have moved into Dr. Kydd's place.

Don't feel that you must give to the Library. Give because you want to.

**Home Credit System] In Our Public Schools**

The Times-Herald job department has recently printed several thousand "Home Credit" slips for the county school superintendent, as well as a couple of thousand pamphlets describing the system for the use of school districts throughout this county.

This matter was brought up during the recent institute and we are pleased to learn from Supt. Hamilton that many of the teachers took a supply of the slips and pamphlets home with them and will inaugurate the system in their home schools. This is a move in the right direction and brings the schools and homes closer together and divides the responsibility. While all the teachers did not avail themselves of this it is likely that some forgot them and will ask the superintendent to forward them a supply. The Times-Herald would like to see it in every school in the county as it will stimulate interest and give the children encouragement.

We are not behind in the matter of education in this county and there is no reason why we should not be up to the general standard of educational institutions throughout the West. The Times-Herald believes agriculture should be given a prominent place in the rural schools throughout the country and this will surely come within the near future. Domestic science and manual training departments should be encouraged and with proper presentation to the voting people of the country this can be accomplished. Make our schools practical and give our children such advantages as possible.

In connection with The Times-Herald is going to add that it is disappointed in the county court of this county in not supporting the county agricultural move. We should have a man in this position right along all the year and the results will prove beneficial. It is money spent in the right direction and the other view of the matter is false economy. Money for education is always a good investment.

**STROTZ EVIDENCE.**

In the Statement of This Pendleton Man

Back is often kidney ache; A common warning of serious kidney ills.

"A stitch in Time Saves Nine" — Don't delay—use Doan's Kidney Pills.

Profit by this nearby resident's experience.

C. S. Howard, grocer, 1616 W. Webb St., Pendleton, Ore., says: "For fifteen years I had a great deal of suffering from a dull pain through the small of my back and left side. For over a year I was annoyed by numbness in my shoulder blades. I couldn't lie comfortably on my back. The kidney secretions were too frequent in passage. I tried several well-known medicines, but nothing did me any good until I used Doan's Kidney Pills. They relieved the aches and regulated the action of my kidneys."

Price 50, at all dealers. Don't simply ask for a kidney remedy — get Doan's Kidney Pills—The same that Mr. Howard had. Foster-Milburn Co., Props., Buffalo, N. Y.

We do job printing.

**Sumpter Valley Railway Co.**

No. 1 Makes good connection with O.-W. R. & N. Co. No. 4 (Fast Mail) leaving Portland 9:39 P. M., arriving at Baker 7:55 A. M. and No. 17 from east carrying Baker 6:50 A. M.

No. 2 connects with No. 6 (Fast Mail) arriving at Baker 7:05 P. M. which picks up Pullman at Baker, arriving at Portland 7:09 A. M. Also with No. 16 at 10:45 P. M. for points East.

**REGULAR TERM CIRCUIT COURT IN SESSION**

**Considerable Criminal Matter of Minor Character Considered. Docket is Light and the Term Will be Short. Many of the Law and Equity Cases Either Continued or Referred**

The regular term of circuit court convened last Monday morning and there has been several jury trials during the week. The docket is not large this term, many of the cases pending being of long standing and in most cases they have been either passed or referred. The criminal docket has had attention during the week, but nothing of any moment has been up for consideration, the majority of cases being of a mild nature.

Court will in all likelihood adjourn for the term early next week as there seems little to keep it in session longer. The following notations are taken from the dockets covering what cases that have had consideration during the week up to yesterday:

**LAW**  
R. W. Heck as administrator of H. D. Latham, vs. P. L. S. Co.—Damages. Demurrer overruled and 60 days for defendant to answer.

Wm. Renwick vs. R. H. Brown—Damages. Set for trial today.

**EQUITY**  
American Land & Livestock Co. vs. E. B. Hill—cancellation of contract—15 days for filing answer.

Geo. W. Raycraft vs. Albritton Township Co.—Foreclosure of mechanics lien. Referred to M. L. Blott to take testimony.

**CRIMINAL**

State vs. Guy McCoy—Larceny in a dwelling. Verdict of guilty.

State vs. A. R. Campbell—Obtaining money under false pretenses. Verdict under direction of the court for the defendant.

State vs. Marion Hodge—Larceny in a dwelling. Verdict of not guilty.

State vs. W. J. Waddell and J. W. Carline—Larceny in a dwell-

ing. Verdict of not guilty and defendant W. J. Waddell discharged.

State vs. W. J. Waddell—Lar- (Continued on page two)
