WHAT A UNITED STATES
COMMISSIONER IS—ISN'T

An Officer of the Department of Justice
But not in Any Way an Officer of
The Interior Department. Duties
Similar to Notary Public. They do
Not Act in a Judicial Capacity

The following is taken from the
Homesteaders Monthly Coyote of
September:

sioner, clerk of courts, or
Judge, with respect to our public
land system is a peculiar one.

to him. This is the official duty
of a notary, and in some states
a notary must also keep a rec-
ord of such document.

The duties of such officers in
connection with proofs and con-
test hearings are virtually the
same as the duties of a notary
public before whom depositions
are taken for use in the courts.

that the officer is prepared to
handle this work and give the
entrymen value received. It
would be manifestly unfair to
charge for "professional service"
if one had to base such charges

tion to an office which authorized
the taking of proofs.

Deep Moisture Storage.
Deep storage of moisture, re-
quisite to successful dry farming
can be secured only by keeping
the surface soil in an absorptive,
sponge-like condition, says Pro-
fessor H. D. Scudder, the O.A.C.
agronomist. This should be con-
tinued as far as possible through
the entire precipitation period, by
good preparation of the soil.
