WOMEN and THRIFT

THE NATION appeals to the women of today to exercise thrift and economy both in household management and personal expenditure.

A check book is a wonderful help to women in keeping their accounts and managing their affairs with the greatest economy.

It provides a record of expenditures with a legal receipt for every penny spent. It shows at a glance how much money she can spend and how much she will have left. It affords a convenient method of payment and removes the temptation to spend when you have money in your pocket.

We would be glad to open an account subject to check for every woman in Harney County.

MAKING Both Ends Meet Depends Largely Upon Where You Trade

This store makes a point of serving you both economically and well. It keeps the goods that you want, of the quality and serviceability that you require, but sells them at a margin of profit so clear that the prices are automatically reduced below those of other stores.

Hence "making both ends meet" in the days of sky-rocket prices is not such a difficult matter when you buy from us.

Some houses make low prices on SOME things but we keep the price down on EVERYTHING. That is the difference.
