**Unavoidable Conditions!**

Owing to the fact that the war has brought about many changes in the business world, we are compelled to adjust our business accordingly. The government is regulating the prices on many articles which we have to sell, these prices are figured on a cash basis, therefore, the manufacturer is holding the jobber to a cash or a ten day term, likewise the jobber is demanding cash from the retail merchant, now it is down to the point where the retail merchant must get the cash for his goods or go broke. Therefore from this date we will confine our terms of credit to strictly thirty days. Goods are hard to get, help is scarce, expenses leaping upward, and we are forced to this very much against our desire. We hope our friends will look at this as an unavoidable circumstance over which we have no control.

Meantime don't forget the backyard garden. Don't imagine for a moment that the urge is less than last year. If anything there is a more vital necessity that this year every available foot of ground be made to produce food. Not only is there a scarcity, but transportation difficulties render this shortage more acute in that they make it difficult to transport from one point to another in this country. So that stuffs may face the impossibility of obtaining them, even though they have money to pay for them, from the simple reason that railroads are too overburdened to haul them. If you raise your living you will be sure of it. If you do not, you at least face the possibility of a scarcity.

**SUCCESSFUL YEAR.**

Yesterday marked the close of the public school of this city for the year and it has been one of the most satisfactory in the history of the school, both teachers and pupils having worked harmoniously together with excellent results. Sixteen were graduated from the eighth grade and are now ready for the high school.

Some interesting figures are shown in Principal Sutton's annual report in connection with the school. They show:

The total number of days taught, 173; total number of days attendance, 39,851; number of days absent, 1496; total number of days late, 270; neither absent or tardy, 21; The average number of pupils belonging in the district are 237.8; average daily attendance, 230, making the per centage 96.6—a most excellent showing.

The pupils of the district enumerated show 135 boys and 150 girls with 6 boys and 9 girls attending from outside districts, making a total of 300.

**If You Were There Instead of Here!**  
If you should see a French child—a tiny girl—sitting by the roadside, sobbing quietly because she is too weak from hunger to cry very loud, you would sell your watch to buy her breakfast.  
If you should hear somewhere in the restless wards the low moan of an American soldier, you would gladly sit by him all night, if that would save his life.  
You are not there, but here, where these sights and sounds are not brought home to you! But the Red Cross is there—and you can make it YOUR representative!  
Over there the Prussians are crucifying the incarnate Liberty of Man, and they are making the world black for little children! The money you give to the Red Cross now will give you the right, when the Beast is beaten down, to think, "There are happy children, clear eyed women, and strong men alive today, because my money went across!"  
**WHAT ARE YOU GOING TO DO ABOUT IT?**  
**Williams-Zoglmann**

**We'll Win!**  
**THERE** is only one way to give to the Red Cross—give till your heart says stop. A little contribution is only a salve to pride.  
This is not to say that contributions of only one dollar, or even of only a nickel, are not desired—and NEEDED.  
For you to give \$5 when you can give \$25—for you to give \$25 when you can give \$100, or to give \$100 when you can give \$500—is to dodge the heaviest obligation that this war has laid upon you.  
For remember, this is NOT a charity—this is a duty.  
This is not a time to give because others give. This is a time to give because others need.  
No man can tell you how much you ought to give. Except this: that "Over There" the need is so great that only by cutting to the quick, only by giving all that you think you can give and then more—only by giving not a little of your excess but much of it—only by taking from your children and from your wife and from yourself, can the needs of the men who are fighting for you and the needs of the children of the men who have died for you be met.  
Ask your own soul how much it should be! With the help of your Red Cross your boy will win.
