The wedding took place at the Maune and was witnessed by a large number of friends of the bride and groom. The bride is one of Harney County's successful teachers, coming to that work here from Nehalem, Oregon, where she was born and raised. She has been highly esteemed both as a lady and teacher in the community that she has served. The groom is well known in Burns and the county as he has been here for some time as homesteader and citizen. His two brothers are here in the Harney Valley where they have made for themselves homes. Mr. Hibbard is one of our fine young men, and his many friends wish for him and his bride success, joy and happiness on the voyage of life together. These young people will make their home in our Valley.

BAKERS MUST MAKE YEAST BREADS

"Wheatless Breads Easy for Housewife, who can use Baking Powder but Bakers have more difficult problem," says Baking Division Chief.

In response to many inquiries as to why bakeries and logging camps, along with hospitals, are made exceptions in the agreement which the Food Administration has asked all flour dealers to enter into, discontinuing the sale of wheat flour through the month of June or for longer periods, Mr. H. H. Haynes, Chief of the Baking Division for the Food Administration in Oregon, explains, "Logging camps and bakeries are already under federal license and regulations, which curtail their use of white flour, substantially and necessitates the use of a heavy percentage of substitutes. That is one phase of the matter.

"Now many persons wonder why, if the housewife is expected to make wheatless breads, the baker is not also asked to do so. The answer will be obvious to any one who will give the matter a little consideration, and here is another phase of the situation.

"There are many formulas for quick breads that call for absolutely no wheat and these are available to the housewife, whose product is eaten hot or at least while fresh. Such breads are made with baking powder or soda. But these breads will not do for the baker, who must produce a loaf that will 'stand up' under repeated handlings, transportation to the retail dealer and delivery from retailer to consumer, arriving in good condition and palatable to the taste. Extensive experiments have shown that baking powder or soda loaves cannot be depended upon to meet these difficulties. Therefore we must make yeast breads, and it is difficult to make yeast bread without a considerable percentage of wheat flour. Bakers are now making it successfully with two-thirds the volume made up of substitutes. Some of our bakers have produced successful loaves with a higher substitute content. Our bakers' chemists are continuously experimenting in the effort to still further cut down the wheat flour percentage and at the same time produce an acceptable loaf. The problem is not an easy one. Our bakers are all co-operating with the Food Administration in a splendid spirit and are doing all that is practicable to cut down their consumption of white flour. Conditions in the logging camps are similar to those of the bakeries, and that is why they are, with the bakeries and hospitals, made exceptions in the Food Administration's request."

If You Were There Instead of Here!

If you should see a French child—a tiny girl—sitting by the roadside, sobbing quietly because she is too weak from hunger to cry very loud, you would sell your watch to buy her breakfast.

If you should hear somewhere in the restless wards the low moan of an American soldier, you would gladly sit by him all night, if that would save his life.

You are not there, but here, where these sights and sounds are not brought home to you! But the Red Cross is there—and you can make it YOUR representative!

Over there the Prussians are crucifying the incarnate Liberty of Man, and they are making the world black for little children! The money you give to the Red Cross now will give you the right, when the Beast is beaten down, to think, "There are happy children, clear-eyed women, and strong men alive today, because my money went across!"

WHAT ARE YOU GOING TO DO ABOUT IT?

Williams-Zoglmann Clothing Company

Unavoidable Conditions!

Owing to the fact that the war has brought about many changes in the business world, we are compelled to adjust our business accordingly. The government is regulating the prices on many articles which we have to sell, these prices are figured on a cash basis, therefore, the manufacturer is holding the jobber to a cash or a ten day term, likewise the jobber is demanding cash from the retail merchant, now it is down to the point where the retail merchant must get the cash for his goods or go broke. Therefore from this date we will confine our terms of credit to strictly thirty days. Goods are hard to get, help is scarce, expenses leaping upward, and we are forced to this very much against our desire. We hope our friends will look at this as an unavoidable circumstance over which we have no control.
