Burns, Oregon, May 31, 1918

## To The Subscribers to The Third Liberty Loan, Through The First National Bank, Burns, Ore.

To those who subscribed to the Third Liberty Loan through our bank, under the Government installment plan, we wish to make the following explanation and statement.

We made requisition in early May to the Federal Reserve Bank for blank notices and franked envelopes so that each subscriber might be notified of his next payment, the amount thereof and when due.

Such supplies not having been received, we finally wired, inquiring the delay, and were advised that same had been forwarded the day before and they were finally received on May 29th, the day after the installment payments had to be made.

Believing that every subscriber would wish to make good his obligation, and not allow his initial payment to be forfeited, we settled on May 28th the 20 per cent installment due from every subscriber, and we trust that each subscriber will remit us promptly the amount we advanced at that time.

While this circumstance has made us much additional work, we appreciate the fact that the Federal authorities have much to contend with these trying times and we make this brief explanation that it may be understood that in not notifying subscribers generally we were no way at fault.

J. L. GAULT, Cashier.

Mr. and Mrs. J. C. Sevcik were in from the Clover Swale Ranch for a few days during the past week, taking out a load of supplies. He is going to take a number of large draft geldings and mares in to Polyouse country to dispose of to the farmers.

Mr. and Mrs. Curtis and family took their departure last Sunday morning for a vacation visit to Portland and other points to the west. They made the journey in their own car going out by the way of Bend and down over the Columbia Highway. Mrs. Curtis has been one of the teachers in the public school of this city for the past two years and has been elected to the coming year therefore they will return in time for the opening of school.

Edward Trenton drove through from Wichita, Kansas, recently in an automobile. He was accompanied by his wife, also his daughter, Mrs. Paul Howe and her children. They came to join Mr. Howe, who has been improving his farm a short distance south of the Experiment Station since his arrival here a year or so ago. The Trentons will remain here for a few weeks and expect to extend their journey on to the coast before they retrace their steps to the east. The long overland trip across the plains and mountains gave the party an opportunity of seeing a great area of the country.

Geo. S. Sizemore has taken charge of the collection for the benefit of the Armenians. He accepted the job yesterday after consulting with others and will immediately take steps to organize for the purpose. This is a move that has been under way for a long time and calls for a free will contribution from citizens who feel able and inclined to give something for the relief of a war stricken country. There is no time set for this work to be completed but it will be under way in this county as soon as Mr. Sizemore can secure necessary aid. He is promised some good speakers the latter part of this month, due notice of the dates will be given later.

Ernest Schaper was over from the family home in Diamond during the week to have some dental work done. The young man is assisting his father in farming a large tract of land this season, both on the home place and on the land leased from the Eastern Oregon Cattle Co. Ernest told the writer that they had discovered several deposits of grasshoppers in his vicinity and in fact right in their grain fields. He got busy before they had time to scatter over a large area and immediately after hatching he covered the ground with a layer of straw and set it on fire. The result was most satisfactory. While they were not all destroyed it killed almost all of them.

For Sale—40 acres adjoining Burns. See J. J. Donegan.

Mr. and Mrs. Judd Wise came in from the Home Creek ranch in Catlow Tuesday bringing James Lewis who had been kicked in the forehead by a mule and quite severely hurt. His physician found the skull had been slightly fractured and as the blow was almost between the eyes, or slightly above them, it has affected the young man's sight, but it is thought possible only temporarily.

Mr. and Mrs. A. R. Olsen of the Island Ranch, left yesterday afternoon to get in line with the eclipse this afternoon. They went as far as the Marsden Ranch in Bear Valley last evening and George and Mrs. Marsden accompanied them today to a point on a high mountain beyond Canyon City where they could view the grand sight. It was worth every effort on the part of those who were fortunate enough to get in line with the totality, as it will not occur again for 250 years according to scientists and not many of us expect to live to view the next one.

W. D. Baker in company with Neil Dawson and his family, came over from Drewsey last Monday and spent a few hours in this city looking after some business affairs preparatory to going on to Portland where they expect to secure employment in the ship yards. Neil stopped at the Bank and had the savings account of his little son withdrawn and placed in War Stamps the dad adding a little to make things come out even. He said that was all he could do—work in the ship yards, if accepted, put his wages into Liberty Bonds and the "Kid's" into Thrift Stamps. Later on if they will take him he's willing to go "Over" and try to get a crack at the Kaiser's bean.

The following were among the out of town people to attend the funeral of James Mahon on last Tuesday afternoon: Judge and Mrs. Grant Thompson, Mr. and Mrs. Thos. Bain, Joe Clark and family, L. L. Poujade and family, Mr. and Mrs. Emory Hill, Mr. and Mrs. Robt. Drinkwater, Mr. and Mrs. Thos. Vickers, Mr. and Mrs. A. W. Howser, Lem Lowe and family, J. W. Buchanan & family, Geo. Buchanan and family, Mr. and Mrs. Wm. Catterson, Mr. and Mrs. J. W. Shown, Oren Thompson and daughter, Miss Ethel, Mr. and Mrs. D. H. Smyth, Mr. and Mrs. Chas. Moore, Fred Haines and family, Mrs. Seth Bower, Mr. and Mrs. Walter Cross, Mr. and Mrs. Chas. Roper, W. H. Morrison, Mr. and Mrs. Henry Jennings, J. R. Falkstad, Mr. and Mrs. John Cary.

While in town the other day Chas. Roper and W. H. Morrison were discussing the sage rat pest with the writer and others. These men say it was a mistake to take the bounty off Jack rabbits regardless of the decision of the supreme court, as they had been reduced to so few it would have been a matter of little expense to keep them down, but with no inducement to hunt or trap them they would again multiply rapidly. They are also of the opinion that there should be a bounty placed upon the rats. However, with the poisoning methods suggested by the government and the willingness of the department of Agriculture to assist in the eradication of such pests it should not be such an expense to cope with them in the future. The cope with them in the future, county at one tenth of the cost in this and the same method applies to sage rats.
