Why shouldn't we be proud of our ninety new ships? American enterprise built them for American uses.

**FOOD ADMINISTRATION
CREDO**

By willing service of a free people to do these things:
To feed the Allies that they may continue to fight.

To feed the hungry in Belgium and other lands that they may continue to live.

To feed our own soldiers overseas that they may want nothing.

To keep prices steady and the flow of distribution even that the poor at home may be fed.

To make everyone's effort count its utmost for winning the war for freedom.

**FOOD CONTROL IN AMERICA
IS UP AND FOR THE PEOPLE**

OUR GREAT TASK

By Herbert Hoover.

If you could stand in the middle of Europe today and survey the land to its borders, you would discover its whole population of 400,000,000 human beings short of food. Millions of people in Poland, Finland, Serbia, Armenia and Russia are dying of starvation and other millions are suffering from too little food. Our Allies and the neutrals are living on the barest margins that will support life and strength.

This, the most appalling and dreadful thing that has come to humanity since the dawn of civilization, is to me the outstanding creation of German militarism. The Germans themselves are not the worst sufferers. They are extorting at the cannon's mouth the harvests and cattle of the people they have overrun, leaving them in desolation. If the war were to cease tomorrow, the toll of actual dead from starvation within the German lines would double or treble the 5,000,000 or 6,000,000 of men who have been actually killed by Germany and her allies in arms. The 10,000,000 people in occupied Belgium and Northern France would have died of starvation had it not been for us and the Allies.

We must build our food resources to stand ready for any demands upon us by the Allies. It is of no purpose to us to send millions of our best to France if we fail to maintain the strength of their men, women and children on our lines of communication. This United States is the last reservoir of men, the last reservoir of ships, the last reservoir of munitions and the last reservoir of food upon which the Allied world must depend if Germany is to be defeated and if we are to be free men.

Now is the time to eat and to preserve home grown products. Perishable fruits are coming on the market, the gardens are making available daily supplies of food that will take the place of the commercial canned articles that are needed for shipment abroad. Sugar has been made available for home canning purposes and the supply is good at the present time. The home garden and the canning of its products means more this year than it ever did before because it will play a very important part in keeping the fighting forces supplied with the kind of food they need at the time they need it most.

America expects every citizen to do his or her duty in the same spirit as she expects each soldier when the command comes, "TO GO OVER THE TOP" without turning to see if his neighbor had gone first.

We have often quoted that old verse, "Gather your roses while ye may," and we can well now change it to "gather your vegetables," for by so doing we can accomplish great good.

"We stand behind our boys in France and we will not call it a sacrifice but a privilege to do our bit toward feeding them Over There."—Emma V. Milliken.

Conserve, reserve and preserve all of these fine fruits and vegetables that are now within your reach; you will need them the coming winter.

By eating more perishables here at home we may save others from perishing "Over There."

The farm as well as the front needs men who see straight and shoot straight.

War is OUR BUSINESS; we can't win by carrying it as a side line.

Edith Cavell, the martyr nurse, came to her death through the treachery of one whom she had befriended. It will be welcome news that the renegade who denounced her to the 'Kommandantur,' paid the penalty of his crime at the hands of a single-minded Belgian patriot, Louis Brill, who however died before a German firing squad for his just act. Not however, till the soil of Belgium is swept free from the Hun pestilence and the very air fumigated will this foul crime be half avenged.

Don't rage at the German American who throws a monkey wrench into the machinery in our munition factories, if you throw bread crusts and the "heels" into the garbage can you may not have realized it, but such an act puts you in the same class. "THINK!"

Was it not wasted effort for American to spend time inventing the submarine and then to spend more time inventing the submarine destroyer?

The great War has turned many things end over end and hind side before, including Austria Hungary, which has now become "Hun(a)ry Austria."

The war is making history for every nation but Russia, and for her it has made chaos.

As detailed reports of the battles come in, how the gay high courage of our boys at the front thrills the nation.

We will do your job printing.

Says It: Acted Like A Charm

Coughs or colds which persist at this season usually are of obstinate nature. All the more reason for using a reliable remedy. Mrs. Margaret Smale, Bishop Calif., writes: "Foleys Honey and Tar Compound is a grand remedy. Suffered from a cold last week, used the medicine and it acted like a charm."—Sold by Reed Bros.

Meat Must Be Sold

Fresh meat is perishable. It must be sold within about two weeks for whatever it will bring.

A certain amount of beef is frozen for foreign shipment, but domestic markets demand fresh, chilled, unfrozen beef.

Swift & Company cannot increase prices by withholding meat, because it will not keep fresh and salable for more than a few days after it reaches the market.

Swift & Company cannot tell at the time of purchasing cattle, what price fresh meat will bring when put on sale. If between purchase and sale, market conditions change, the price of meat must also change.

The Food Administration limits our profit to 9 per cent on capital invested in the meat departments. This is about 2 cents per dollar of sales. No profit is guaranteed, and the risk of loss is not eliminated.

As a matter of fact, meat is often sold at a loss because of the need of selling it before it spoils.
