Could You Use Several Hundred Dollars to Advantage Right Now?

If you had started ten years ago to save \$1.00 a week and placed that Dollar in the bank each week, you would now have \$650.00 \$5.00 a week would now have amounted to \$3,252 by this time.

It's impossible to dispute the earning power of a dollar. The only way to profit by this power is to save your dollars and put them on interest.
