Mrs. Anderson expects to go to Douglas county to reside that having been her home for years before coming to this place.

Charley Foley took his departure Monday for Indiana where he plans on entering a law school. However, he insinuated to the manager of this great religious weekly that it was more attractive to him to be one of the early ones to go over to France and help push a hole in that Hindenburg line toward the Rhine, therefore it is most likely we will hear of Charley embracing the first opportunity of getting into the ranks. He registered before leaving home.

A telegram Wednesday from Portland announced that Judge L. R. Webster had been instantly killed. No further information was available at that time but the Oregonian which came in the last mail contains an account of the accident. Judge Webster was well known in this country where he had practised considerable in the courts and was also associated with others in business enterprises. Deceased was 65 years old. Mr. Hoover has come back to this country to tell us how many hundred million bushels of wheat and pounds of beef we must supply for the use of the allies next year. All right Mr. Hoover, what we have done once we can do again. And it has been an interesting bit of work too.

We find that some of the local people contemplate a third cutting of alfalfa since the recent rains. This is rather unusual in this vicinity as it has generally been the custom to leave the third crop for pasture but the hay crop being short this season has been responsible for the proposal to make the third cutting.
