**THE HOME-COMERS.**  
It is reported that many of our returning soldiers and sailors instead of going back to their homes are entering the large cities to seek employment.

The large cities are preparing to take care of their own returning men, and employers will naturally replace them in their old jobs in preference to engaging non-residents.

Two things complicate the employment question in cities at present. One is that many employers have been forced by the war-time distinction between essential and non-essential industries to lessen their produce, and must wait for the indications of returning demand to increase it.

The second consideration is that many women and older men have taken the places of young men, and in many cases their services cannot in fairness be immediately dispensed with.

These conditions will make the city a difficult place at present for the young men from small towns. It will be better for such a young man at present to return to his own home, where he is well known, and take his old job for the time being. He can watch the development of business and make his descent upon the city when condition appear favorable.

It is decided to sink the German fleet, better select a few German submarines to do it. They have had experience in that line.

It may be that formerly we were too proud to fight, but certainly now we are proud of our fighting.

**HULDA, JUST AN ORDINARY COW; BUT TO HULDA HANGS A TALE**

Two years ago Hulda was just an ordinary grade cow, getting on in years, and with no future—unless the prospect of winding up as a canner may be called a future. No "Johanna," or "Korndyke," or "De Kalb," or any such aristocratic attachments to Hulda's name. Just plain Hulda, and no more. She was 12 years old, and in 1915, so her record shows, she produced only 246 pounds of butter fat.

Last year Hulda's owner, a farmer of Ottertail County, Minn., joined a cow-testing association and began to take a new interest in the care and feeding of his cows. In common with the others of the herd, old Hulda got better care and a better balanced ration than she had been used to getting, and she began to wake up. That year, as a 13-year-old, old Hulda produced 429 pounds of butter fat.

This year, as a 14-year-old, Hulda has demonstrated what some old cows can do if they are given half a chance. Her owner tried milking her three times a day, and she came through the testing year with the really remarkable record of 719 pounds of butter fat.

Hulda stands as a striking example of the practical results that farmers are getting through business organizations of their own. In Ottertail County, the cow-testing association, and other better-farming projects fostered by the farm bureau and the county agent are contributing in a marked degree to the prosperity of the community. Hulda is not the only cow in Ottertail County that has picked up in butter fat in the past two years.

**WORTH \$50.00 A BOTTLE**

Wm. Barnes, San Antonio, Texas, writes: "Foley's Honey and Tar has been worth \$50.00 a bottle to me. I had 'the flu,' followed by pneumonia, which left me weak, with a persistent cough. The cough hung on. Some one advised Foley's Honey and Tar. I have completely recovered and do not cough at all."—Sold by Reed Bros.

Value is a matter of comparison solely. For instance, a plow is a useful and valuable implement. But if you have neither land nor a horse, a plow means but little to you.

**FARMERS ASKED LABOR NEEDS**  
One sweetly solemn thought Comes to us o'er and o'er: Our taxes will be higher now Than they have been before.

It was a rather unnecessary stunt for the suffragists to make a bonfire of President Wilson's speeches. They only succeeded in proving that the speeches held "words that burn," and that the rest of us knew long ago.

The greatest bore to a deceitful woman is the man who can look a hole through her.

**Make This Room Yours**

Whether you are building a brand new home, making additions to the old one or merely repairing walls, you can have a room like this if you use genuine Beaver Board.

Beaver Board walls and ceilings are more handsome, more substantial and more sanitary than any other kind. They are the easiest walls to build. No lath or plaster—therefore, no litter. Beaver Board always gives satisfaction. But you can't expect Beaver Board results unless this trade-mark is on the back of the board you buy.
