

INCOME TAXES FOR 1918

The following letter from the Treasury Department, Internal Revenue Service, Portland, Oregon, is published for the information of our patrons, many of whom have inquired of us regarding forms to be used and the requirements of the law.

Jan. 4, 1919.

First National Bank,
Burns, Oregon.
Gentlemen:

I have been receiving many inquiries concerning the provisions of the new Revenue Bill providing for income and other taxes, and numerous requests are being made for forms on which to make returns. I am unable to give out any definite information or furnish the desired forms until this bill has finally passed Congress and becomes a Law. It will then take some little time to have the forms printed and ready for distribution.

I have made arrangements to send out a general notification from this office, including a letter directed to your Bank so that all taxpayers may be informed promptly of the provisions of the proposed law.

The organization of the Field Deputies will be such as to render every possible assistance to taxpayers throughout the state of Oregon and these deputies will be located at many advantageous points so that information may be given direct to the taxpayers to guide them in making returns when the proper time arrives.

The basic principles of the old Income Tax Law will no doubt be applied to the provisions of the new Law, and it would be well for every individual and corporation to prepare figures and ascertain the exact amount of income so as to be ready to make return with as little delay as possible.

If not asking too much, I would suggest that you inform your customers of the above facts, which would no doubt relieve them from some anxiety on account of the apparent delay in sending out forms.

Very respectfully,
MILTON A. MILLER,
Collector.

First National Bank

We will do your job printing.

Burbank Clay was over from Crane today.

Provide green feed for your chickens. Alfalfa leaves to sale at Perry's Barn.

John Hoss was greeting his many old time friends in this city during the week.

Dr. Smith operated on Chas. Wilson the other day for hernia. The patient rallied at once from the operation and is recovering most satisfactorily.

Dr. Saurman is making preparations to build a reception room on to his office. In the spring he contemplates extensive improvements to his office quarters.

Henry Welcome was over from his home in Juntura for a few days the latter part of the week. He found a hearty greeting from his many old time friends. Henry reports business good in his town.

THE FIRST NATIONAL BANK OF BURNS. CAPITAL AND SURPLUS \$100,000. "THE BANK THAT MAKES YOUR \$\$\$ SAFE." ACCOUNTS INVITED.

The Times-Herald is informed by a friend that Avery A. Lasswell, formerly cashier of the Bank of Estacada, is going to succeed Ralph Weaver as cashier of the Crane State Bank. Mr. Weaver resigned a short time ago.

Frank Clerf was over from his big Alford ranch for a few days this week visiting with friends. He was confined to his room for a day or two while in town, but was not seriously ill. He has experienced some trouble in getting sufficient help on the ranch to feed the stock but finally got men in from Boise. It is reported there are 10,000 idle men in Portland but we don't have enough to keep things going as they should out in this section.

County Clerk Chester Dalton took his departure Thursday for Portland where he goes to join his wife and little son. Mrs. Dalton accompanied him to Portland before the holidays and remained there for an operation. She has fully recovered and had been enjoying a visit with her mother, Mrs. Grant Thompson. The latter contracted a case of influenza and Mrs. Dalton was more or less concerned which was responsible for Chester's departure to join them. We learn later, that Mrs. Thompson is recovering nicely.

Died—Thursday, January 23, at the Haines hospital, Mrs. W. W. Miller of Drewsey. Deceased had been suffering from tuberculosis for the past two years and an abscess had formed on her lung. Her physician desired to give her relief from this and she was brought over from her home for an operation. This was performed last Sunday by Dr. Smith but the patient was so weak she was not able to recover quickly. The remains were taken to Drewsey where interment took place today. She is survived by her husband and four children. The Times-Herald joins the friends in extending sympathy to the bereaved relatives.

Patients receive the best of care at the Fireweed Maternity Hospital.

Mrs. Alex Hanley had the misfortune to have her wrist dislocated the other day while eranking her car.

Herb. Angell, one of the substantial pioneer stockmen of the Izee country, is registered at the Levens.

A. H. Curry, Crane-Denio stage contractor, was among our visitors during the week. He informs The Times-Herald that he is now entitled to be hailed as "Grandpa."

The patrons of the Electric Light plant were agreeably surprised the other morning to find they had lights for their convenience in the morning. This is the first allnight service given for many months.

Dr. Carl Bartlett is at the home of his parents in Drewsey on a furlough we are informed. Dr. Bartlett is stationed at a base hospital at Camp Lewis. He saw active service on the battle fields of France where he was advanced to a captain.

Clarence Cary and family are in from their Crane Creek home, guests at the home of Mrs. Cary's parents, Mr. and Mrs. Byron Terrill. "Jake" says they have had the "flu" but are well again. His brother John had quite a siege of it, calling Dr. Saurman out to see him, but is now on the road to recovery.

Harry Goulden was in town during the week from the OO Ranch.

Robt. Drinkwater Jr. was among our visitors from Crane during the week.

Born—Thursday, to Mr. and Mrs. Tip Stoy, a daughter. The new arrival and her mother are at the home of her sister, Mrs. Dalt. Gibbs, in this city.

THE FIRST NATIONAL BANK OF BURNS. CAPITAL AND SURPLUS \$100,000. "THE BANK THAT MAKES YOUR \$\$\$ SAFE." ACCOUNTS INVITED.

Fred Holloway, one of the pioneer residents of the Denio country, was a visitor for a few days during this week, having accompanied Edw. J. Catlow up. Mr. Holloway has resided in the Denio country for many years and says the past season has been the driest he has ever witnessed.

Niel Culver, for several years a resident of this section, arrived in this city the fore part of this week. He has been sojourning in Colorado for the past few years and told The Times-Herald man he would likely return to that state after he has completed his visit here.

Floyd Holley was in to see us the other day. He is staying in the Lawen neighborhood for the present feeding his stock. Mr. Holley sent two of his boys over to help put the kaiser out of business, one serving in the army, the other in the navy. He informs us the boy who enlisted in the army will be released in a short time and he hopes also to get the one home from the navy soon, although it will require time to do so. Mr. Holley stated he could spare them as long as there was active service and Uncle Sam needed them, but now as the war is over he can use them to an advantage at home.

Lloyd Johnson, Mac. Thompson, Scott Hayes and Fred Otley are up from Lawen today for the purpose of again filing the necessary bond and arranging for the publication of the petition asking for an irrigation district for their neighborhood. They are ready to consider the proposition of one district, but as that petition was not yet before them they felt it their duty to again start things toward their first plan. When the one district proposition is taken up and it is found suitable for their needs they say they can withdraw their petition. However, it is now being published and will be presented at the March term of court.

Underground Wireless U. S. War Secret Which Helped Beat Hun

Underground wireless was one of Uncle Sam's new tricks and war secrets which helped beat the kaiser. The invention was perfected by James H. Rogers of Hyattsville, Md., at just about the time we entered the war. It was promptly offered to the government and quickly accepted. It sends and receives messages both under ground and water alike, and its value is that it eliminates static disturbances, common in the aerial wireless. Here is inventor Rogers, with his machine, which can be set up any place a wire can be stuck in the ground. He has picked up messages from Berlin, Paris and Rome.
