Hon. A. W. Gowan arrived home this week from a visit to Portland and Salem. It is the usual thing for Senator Gowan to visit the State Capital each time the legislature meets and view the situation over. He is now enjoying better health than for a period during the fall.

Phil Smith arrived home the fore part of this week from a business trip to Ontario, Caldwell and other outside towns along the Snake River. He was out primarily to look into the cattle market and just to take in the country. He found things prosperous in that territory where they have water for irrigation and where they are feeding a goodly number of our cattle this winter because of lack of feed in this vicinity during the last year. We're going to change that way of doing by getting the irrigation project under way. That country has nothing on this in the line of stock raising.

#### HER TROUBLES HAD COST THOUSANDS

Mrs. White Says Tanlac Overcame Troubles After Everything Else Failed.

"Actually, a few bottles of Tanlac did more for me than all of the other medicines and treatments that have cost me thousands of dollars," recently declared Mrs. Kitty White, whose husband is proprietor of the Universal Paint Company, and who lives at 1312 Forty-second street, East, Seattle, Wash. "Fifteen years ago," she continued, "I was strong and healthy a woman as you ever saw, weighing in the neighborhood of a hundred and seventy pounds. My troubles started when I contracted asthma, which got so bad that many a time I have had to sit up night after night wheezing and gagging, hardly able to get my breath and suffering so terribly I really thought I was going to die. Then my stomach went back on me, my food would sour, and the gas that rose up in my throat would almost strangle me, and start me vomiting till I was in such misery I would almost go distracted. My head ached like it would split and my back hurt like it was going to break in two. I lost over 40 pounds, I was but a shadow of my former self, and was so weak, and felt so wornout that I was barely able to get

### Why the Essex Motor Car will be the sensation for the coming season

Every part and every detail of the Essex construction is of proved worth. It was designed and built by some of the foremost engineers of America, the same men whose genius produced the Super-Six. Many points of superiority in the Super-six which have proved themselves in years of service, have been incorporated into the Essex. The engine, only twenty-nine inches long, cast in one block with detachable head, readily develops more than fifty horsepower. Long life is assured by the ample proportions of the counterbalanced crank shaft, supported by three large bearings.
