**GO TO CANADA.**

on good American far- to Canada within the Which was so much to the United States, with them, in many

instances, their wives and children, their household goods, livestock, farm machinery, and considerable other wealth.

All this has gone to enrich the Dominion at the expense of the States.

The migration of farm settlers, halted somewhat during the war, promises to increase. Canadian officials, railroads, land companies and others are exerting strenuous efforts to coax away men tried and tested on farms this side the border.

Canada has one great attraction—cheap lands.

And this supply of cheap lands is to be distributed upon the most tempting terms, long years of payment and low interest rates.

Sons of farmers and farm workers in the United States have complained that they cannot buy farms and settle down in the States because our farming land is too high in price. That is why they are leaving Iowa, Kansas, Nebraska, Illinois, and other states of the middle west, where farms are held at from \$200 to \$300 the acre, and seek Canada's acres at from \$5 to \$25.

So they go to Alberta, Manitoba, and Saskatchewan.

That is one reason why the United States sees a greater growth in population of cities than of rural districts; why the United States is falling back in food production as compared to population increase; why the time is near when we will have to import food.

The sorry thing about it is that we have the land and it is unused.

In New England there are 30,000,000 acres of unused land which ought to be farmed, but which are lying idle. There are 35,000,000 acres in the middle states, unused but which might be paying farms. In the Pacific coast states there are 180,000,000 idle acres. There are, in addition, cut-over timber lands, swamp lands, arid lands, in the United States which might be converted into good farming acreage.

What will the American government do about it? Will it permit

Hey, you honorably discharged soldier or sailor! Do you want to know how to get the \$60 nest egg which Uncle Sam has promised you? Here's how one Yank got his bonus—as he told it to the camera, and it's all so easy and simple Pictures from No. 1 to No. 5 tell the story. There is just one other precaution. As a

protection against the possible loss of your discharge papers in the mails, you may have them recorded at the county recorder's office before sending them to Washington. Get application blank from your postmaster or from the local Red Cross headquarters. The department address is on the blank.

These hundreds of thousands of idle acres to remain unused, while the nation falls further behind in food production, and let American farmers be coaxed onto Canadian farms to supply our tables?

There is a better market in the United States for farm products than in Canada; better roads, better climate, better railroad accommodations; better schools and more churches, also your next-door neighbor is nearer. Then why go to Canada?

Because the Canadian government today is doing more to open new farm lands to settlement than is the United States government.

**WHEAT CROP FOR 1919.**

If weather conditions in this country are favorable there will be a record wheat crop in 1919. And every bushel of this wheat under the government guarantee will bring the farmer \$2.26.

This guarantee has back of it an appropriation of a billion dollars made by congress for the purpose of supporting the wheat price.

It is possible that the loss to the government may not be as great as anticipated. Mr. Hoover informs us that Europe will need more wheat than the estimates have called for. There will be no wheat raised in Russia, Serbia, or Bulgaria, so these countries, which are usually exporters, will be obliged to import wheat. The Australian wheat crop for 1919 will be small, and the Argentine crop

will not exceed the usual amount.

These conditions may force up the market price of wheat and relieve the pockets of Messrs. Taxpayer & Co. As the pockets of Taxpayer & Co. are not especially full at present, such a result would be a welcome one.

**DANGER.**

We learn that the Germans are not unanimously disposed to regard the latest peace terms with complacency. There is even now the possibility that they may prefer to fight.

We learn also that if they do so the allies will find themselves in a position of considerable embarrassment. They are not nearly as well prepared as they should be for forcible occupation of additional German territory. Mutinous outbreaks in need of rapid demobilization, and in need of rapid demobilization, and in well-informed diplomatic circles it is admitted that the French authorities are uneasy about the possible consequences of contact between their own war-weary conscripts and

bolshoivist influences in Germany. "flu ban" has been lifted. Fraternizing will be hard to prevent, and its results still harder.

A superlatively strong military establishment among Germany's enemies is indispensable just now. It seems a peculiar time for America to junk so much aeroplane equipment.

All members are expected to attend meetings from now on when they are in town to help along the good work, as no other exists which offers better and liberal benefits to its people. Don't forget the time, the place and the lunch, Monday, April 7th.

**MOOSE LODGE DOINGS.**

(Contributed.)

The Moose lodge held their regular meeting last Monday night, the 24th, and discussed the matter of development of the order. They look forward to making this organization the largest and strongest in the county.

The next regular meeting is Monday night, April 7th, at which time there will be a lunch served and action taken to keep up the good work from now on, especially since the

## REAL ESTATE

With the return of normal conditions there will come a demand for Real Estate in Harney County.

I do not particularly want an option on your property nor a contract for sale on commission, but I desire a list of every kind of property, real or personal, for sale or trade in Harney County in order to give full and accurate information to numerous inquiries from prospective investors, and to bring buyers and sellers together.

Can offer desirable town lots, acreage and choice city property—stock and hay ranches—raw or partly improved sagebrush land for sale—also farm near Burns for lease.

## LAND PRACTICE

I solicit your business such as applications for entry, showings, affidavits, contests and trials before the Local Land Office, and appeals etc., before the Commissioner of the General Land Office and the Secretary of the Interior.

## INSURANCE

Be absolutely safe and insure your property in the "Colonial" or "North British & Mercantile". My Companies pay all losses promptly.

**Wm. Farre**  
Tonawama Building  
Burns, Oregon

## COME DOWN EARLY "Dollar Day"

- men of this city have the suggestion that we experiment of "Dollar Day" of the several stores in The Times-Herald for one or more special customers on that dollar. They are going customers that their more on that day than
- ordinarily. Even the bakery has a special and this great religious weekly has entered the lists for that day with a special offer to new and old subscribers, by giving special inducements for the day.
- Read the advertisements in this issue of The Times-Herald and take advantage of the bargains offered. It is up to the public to make "Dollar Day" a success. The merchant and all who have taken part in it have done their part. If the public will show an interest it is possible to make "Dollar Day" come around at regular intervals to the advantage of all concerned.
- A partial list of the bargains offered by our advertisers will be found below but there are others and you should read the advertisements to get a complete list.
- |                                                                               |                                                                                                   |                                                                                                                                                                          |

## DELCO-LIGHT

The Complete electric light and power plant

Specified and used by the U.S. Army and Navy, the Red Cross and the Y.M.C.A.

More than four thousand Delco-Light plants were delivered for war work. They were used to supply electric light in camps, storehouses, hospitals, Y. M. C. A. huts, airplane hangars, sub-chasers and other branches of the service.

**In Red Cross hospitals at the front, Delco-Light operated life-saving X-ray apparatus.**

Delco-Light was specified by the Government because it is dependable, efficient, simple to operate,—requires little attention, and because it is AIR-COOLED.

The result of Government tests and the satisfactory use of Delco-Light on over 60,000 farms are your assurance that Delco-Light will give you the same dependable service.

It betters living conditions,—increases farm efficiency, and soon pays for itself in time and labor saved.

**MODERN APPLIANCE CO., Distributors, Seattle, Wash.**  
**BURNS GARAGE -- Local Dealers**

**THE DOMESTIC ENGINEERING CO., Dayton, Ohio**  
Makers of DELCO-LIGHT Products

DELCO-LIGHT is increasing efficiency on more than 60,000 farms
