

# Mother's Day

The annual celebration of Mother's Day takes place tomorrow, Sunday, May 11th.

There could be nothing more fitting for us to commemorate. The earliest recollections of each of us center in a mother's devotion.

No relationship in the world entails as much self sacrifice as that of mother and child. From utter helplessness to full maturity, every step of the child's life is guarded by the mother's sympathy and wisdom.

The mothers of this country deserve especial recognition this year. Since the entry of America into the war so many of our mothers have seen their sons go away at the call of their country to certain hardship and privation, to possible death or mutilation. Courageously and cheer-

fully the mothers have made the sacrifice. Letting their beloved sons go with a smile and an encouraging word, the mothers have devoted themselves to "keeping the home fires burning." The remembrance of the cheerful and uncomplaining mother at home has helped and strengthened many a soldier on the fields of France.

And now the sons are coming home again with a full sense of what the mother-love and the mother presence mean in their lives. The observance of Mother's Day and the wearing of the white carnation will stand for a deeper reality this year than ever before.

To the gold star mothers, whose sons cannot come home again, the deep sympathy and appreciation of a whole nation will go out.

## '19 Sport Models Sans the Hobble

Summer sport wear is already in the planning in the mind of woman so here are two 1919 models to help. On the left, the black satin coat with its banding of white gets help in the carrying out of design from the black coin spots of black satin just above the hem on white satin skirt. On the right a white gabardine skirt and waist are trimmed with crepe de chine. The straws are topped off with satin ribbon.

## TICK ERADICATION IN STATE OF GEORGIA.

In Georgia, on the first day of January, 1920, the statewide "Dipping Law" goes into effect. Its purpose is the eradication of the cattle tick.

There is something wholesome and comforting about the general trend of legislation in America, whether state or federal. Its motive is mainly creative rather than subversive. It aims to preserve wealth—everybody's wealth—yours and mine, rather than to destroy it.

True, the "dipping law" is, in a sense, destructive. It is destructive of vermin. It is radical. It plans the radical extermination of a pest. It is abolitionist. It proposes the abolition of a disease.

In rural communities like Harney county we find the bone and sinew of the body politic. It is in communities like this that state legislation of a constructive order originates. It is at once our privilege and duty to preserve and hand down to posterity the sturdy Americanism of today.

In the New York foreign colonies and ghettos, in the seditious shops of Chicago, there is enough legislative propaganda to fill a statute book with revolutionary laws, if its program ever found its consummation. But how many of them deal with the compulsory suppression of disease, whether among cattle or among men? And few cattle need "dipping" and sanitary baths as much as these malodorous exotics.

## ARITHMETIC—ELEMENTARY.

The Hungarian Commune has divided its population into three grades—intellectuals, merchants and executives, and manual laborers, whether skilled or unskilled. The first grade is guaranteed \$7,200 a year, the second \$5,000, and the third \$3,300.

Exhaustive calculations (not made by the Commune) show that this will mean in the aggregate an annual income of \$7,160,000,000. Also that the total productive power of Hungary, including all forms of wealth, is represented by an annual total of \$1,000,000,000.

Seven times this amount must be created out of empty air—if these bolshevist promises are to be fulfilled. There is no capital to confiscate; there are no rich people to rob. Everything has been combed, and is represented in the above estimate.

Promising and predicting is about the best thing some people do who are making their first attempt at systematizing the units of a disintegrated nation. At the next Halloween festival in Burns, let us pass up the turnip lantern dildoes, and frame a soviet constitution, for a change.

## MISSIONARY CENTER OF JAP-YANK ROW

Rev. Ell M. Mowry and wife of Mansfield, Ohio, American missionary to Korea, facing the charge of assisting revolutionary agitators there, is to be protected by this government. Mowry denies the charges but admits entertaining Koreans at his house, as had been the practice for years. The Japanese authorities arrested and convicted Mowry, opening further grounds for misunderstanding between the Japs and America.

"The Big Four" seems to have diminished to Three of a Kind.

BRIGGS AUTO WOOD-SAW Attachment  
One man cuts 15 cords; 2 men, 35 cords.  
Goes Anywhere—Any Auto.  
BRIGGS & BURPEE CO., Inc., Manufacturers  
279 Hawthorne Ave., Portland.  
Send for information and illustrated Circular

## REWARD

The following animals have strayed from my place: One two-year old and one three year old heifers branded with XS bar; one Roan Durham bull with the Brad Moss brand:

Horse and Mule Salesmen

I. C. GALLUP  
Mgr. and Auctioneer

CHRIS HUGHES, Stable Foreman

A. H. CARLEY, Bookkeeper

I. C. Gallup Horse & Mule Commission Co.  
South Omaha, Nebraska

## To Range Horse Raisers

Special Horse Train Leaves Crane, Oregon on June 8

Fair prices are expected, and we would like the support of the Eastern and Central Oregon horse raisers in order to establish a good market for the range horses.

We have had Billy Walker in the southeastern states for the past several weeks and will keep him among the buyers during the month of May. He has the promise for many good buyers for our first sale.

As horses will be mostly purchased by southern buyers, would advise shipping fillies and mares aged from four to six, weighing from 1050 to 1300 lbs.

As I have had several years experience and association with southern buyers, I believe I have an opportunity to make some of the best possible sales for Harney County horse raisers for the present season. Will come to your ranches and cut your horses to best selling sort. Phone, write or see me for further particulars, as all consignments should be in by June 1 on account of ordering the necessary cars.

Smith Crane, Burns, Oregon

## DELCO-LIGHT The Complete electric light and power plant

Specified and used by  
the U.S. Army and Navy  
The Red Cross and the Y.M.C.A.

More than four thousand Delco-Light plants were delivered for war work. They were used to supply electric light in camps, storehouses, hospitals, Y. M. C. A. huts, airplane hangars, sub-chasers and other branches of the service.

In Red Cross hospitals at the front, Delco-Light operated life-saving X-ray apparatus.

Delco-Light was specified by the Government because it is dependable, efficient, simple to operate,—requires little attention, and because it is AIR-COOLED.

The result of Government tests and the satisfactory use of Delco-Light on over 60,000 farms are your assurance that Delco-Light will give you the same dependable service.

It better living conditions,—increases farm efficiency, and soon pays for itself in time and labor saved.
